

Phone Call  
To A Robber

# Gunshots End Register's Interview

By VERN PERRY

Register Staff Writer

SOUTH LAGUNA — "I can't talk now. They're here with the ambulance to get the wounded guy out."

With those words the young gunman who had held several bank customers and employees hostage and shot the bank manager here today put down the phone.

A minute ticked by as I waited for the robbery suspect to come back to the phone. He never did.

At 9:23 a.m. I heard two shots over the phone and then perhaps a two to four second pause and several more shots were fired. I lost track after counting 11 of them.

A few minutes later I learned the robber had been shot "numerous times" by police as he dashed from the bank.

Both the bank manager, Jerry Guest, and the bandit, identified as Richard Castillo, were taken to South Coast Community hospital.

At noon a hospital spokesman said Castillo was in surgery. Guest was reported in stable condition.

My long-distance involvement in the incident began about 9 a.m. when the police radio in The Register newsrooms began crackling about a holdup in progress at the Security Pacific National Bank at 30812 Pacific Coast Highway here.

Then radio reports came in fast and furious about the man with a rifle holding hostages inside the bank. Sirens screamed over the police radio as all available Laguna Beach police, sheriff's department and California Highway Patrol of-

ficers raced to the scene.

Shortly after 9 a.m. I dialed the bank's phone number and the suspect, later identified by Laguna Beach detective Alex Jimenez as Castillo of 1104 Miramar St., Laguna Beach, came on the line.

"Yeah," he said excitedly. "Is this the bank?" I asked. Castillo asked me if I was a cop. When I told him I was a reporter, he told me, "I want to get on camera. If you want pictures get a photographer down here. If he's got the (obscurity) he might get some good pictures."

The phone went dead. Gary Bate, 19, of Laguna Niguel, told Register reporter Gary Krino he witnessed the robbery incident from outside the bank.

Bate, who was at the bank to

meet a man he was selling his car to, said he noticed the glass side door of the bank had been shattered.

"A guy jumped out of the side door with a rifle in one hand and a handful of money in the other. Then he darted back inside the bank," Bate said.

According to Bate, Castillo darted in and out of the bank several other times allowing several of the hostages inside the bank to slip out other doors, before the police arrived.

At one time, Bate said, the man ran to a bank employee's car parked in the lot but went back inside after the auto wouldn't start.

One other time Castillo left the bank and fired several shots in the air before going back inside.

At 9:15 a.m. I tried the bank

number again and Castillo answered.

I asked him how many people he had inside the bank with him.

"Two," Castillo said.

When I asked if anyone was hurt, he told me he had shot one man, later identified by police as bank manager Guest.

"Why did you shoot him?" I asked.

"He was going for something, it looked like it could have been a gun," he told me.

I asked how bad the man had been shot and Castillo said, "I don't know. I didn't look. It freaked me out."

"Are you going to make any demands of the police?" I asked.

"I want them to get an ambulance to get the guy out," Castillo said.

Castillo said the police had

surrounded the bank.

"They're all outside waiting for me. I'm going to make a run for it. I hope the (obscurity) they get me. I don't want to live anymore."

After attempting to talk to Castillo more, I got no definite response. He wouldn't tell me his name, but did say he was 24 years old.

At that point Castillo told me the ambulance attendants had arrived to remove the wounded man. Then he put the phone down, and a minute later I heard the shots.

After Castillo talked to police on another phone and agreed to let two ambulance attendants remove Guest, two officers dressed in the attendants' uniforms entered the bank, police said.

Investigators said only two

hostages, a woman employee in the front of the bank and Guest, who lay wounded behind his desk, were in the bank at that time.

After placing Guest on a rolling stretcher, the two officers started moving out of the bank, police said. When they were about 25 feet from Castillo and had Guest safely behind a desk, both officers pulled their guns and fired more than a dozen shots, wounding Castillo several times.

Although early details were sketchy, police said Castillo earlier this morning may have been involved in a residential holdup in Laguna Beach.

Later he allegedly called a local towing service and asked for a tow truck at his home. When the tow truck arrived, Castillo tied up the driver and

METROPOLITAN ORANGE COUNTY'S

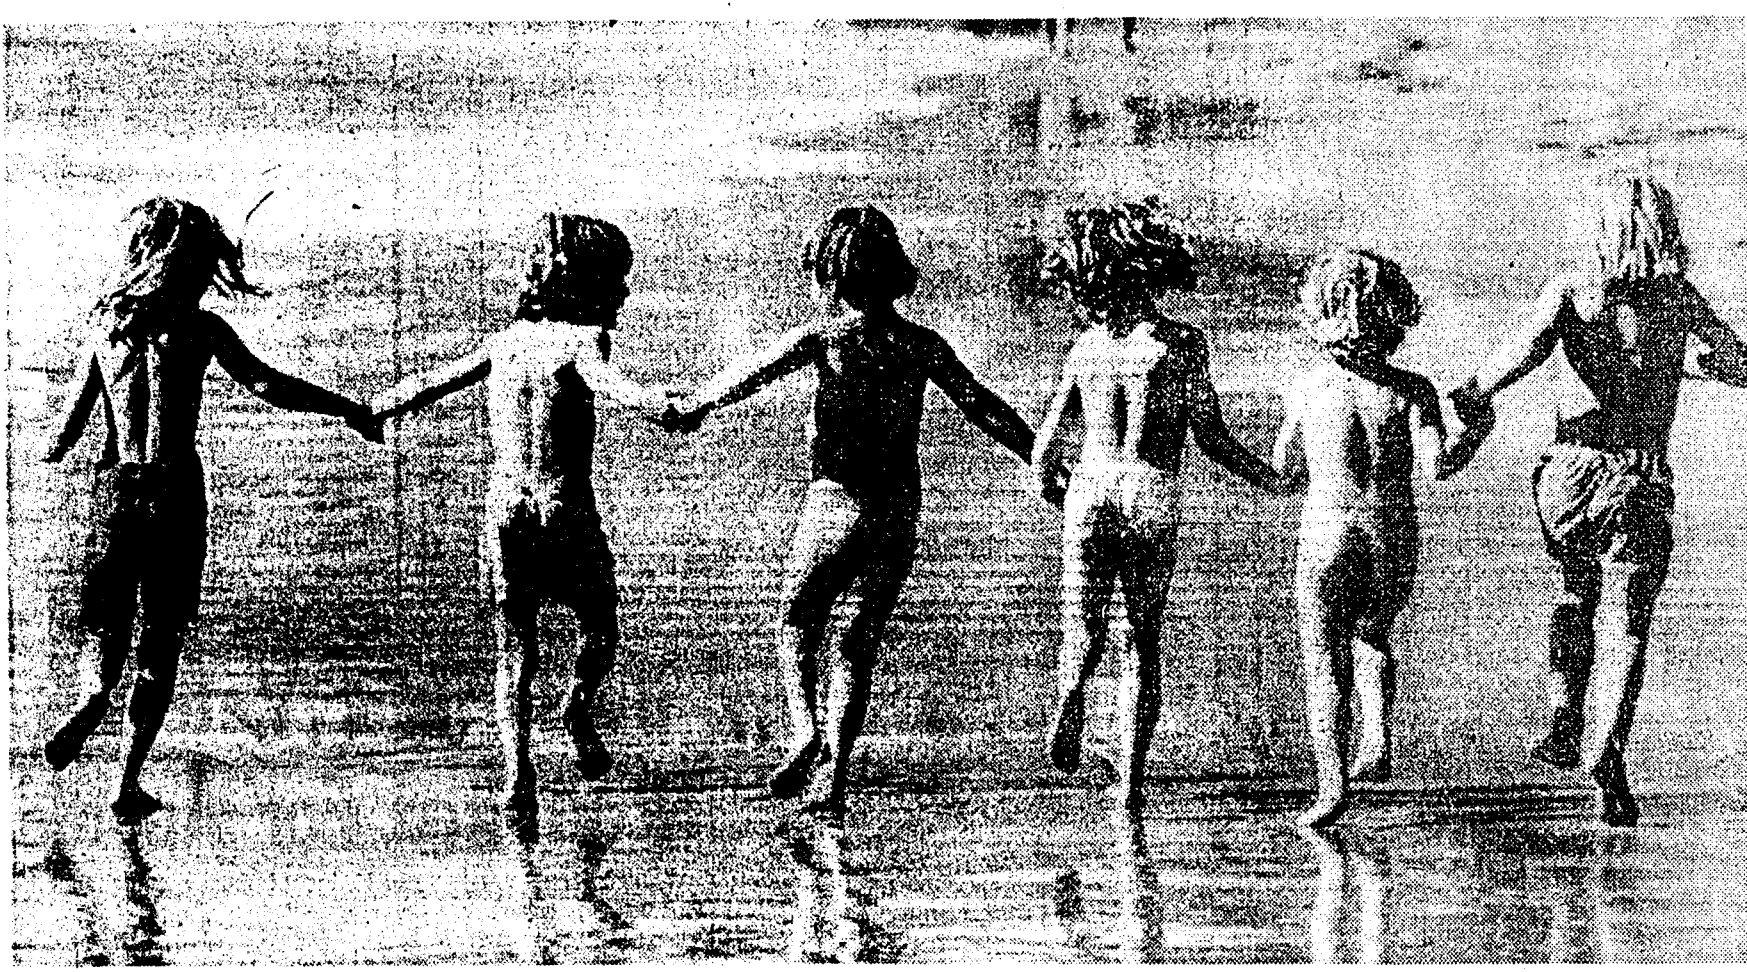

WATCHFUL NEWSPAPER

ORANGE COUNTY, CALIFORNIA, THURSDAY EVENING, JANUARY 29, 1976

Daily 10c—Sunday 25c

71st Year—Number 338

## FINAL ★STOCKS★

ROMP IN THE SUN — A group of young boys, inspired by mild, sunny weather and a low tide, take advantage of ideal conditions to frolic along the sand at a Santa Barbara beach. Although California's pro-

longed warm, dry spell has raised an abnormal fire hazard in the back country, it also has afforded beach-goers daytime temperatures in the upper 70s.

## Jobs Bill Given Big House OK

WASHINGTON (AP) — The House today overwhelmingly passed a \$6.1 billion public works employment bill, setting up Congress' second spending confrontation with President Ford this election year.

The 321-to-80 vote sending the measure to Ford for an expected veto came only one day after Congress overrode his earlier veto of a \$45 billion labor, health, education-and-welfare appropriation.

The vote on the public works bill was far more than the two-thirds required to override a veto.

Before approving the public works measure, the House refused, 268 to 133, to strike a controversial section strongly supported by a group of mayors who said it was essential to

## LAFCA Approves Tustin Chopper Base Annex

By TOM EICHHORN  
Register Staff Writer

SANTA ANA—The proposed annexation of the 1,592-acre Marine Corps helicopter station to Tustin was approved Wednesday by the Local Agency Formation Commission over the

anguished protests of Santa Ana city officials.

"We have not been given fair treatment," complained Santa Ana City Manager Bruce Sprague. "Don't make Santa Ana become the dumping ground of Orange County's social problems."

He and Mayor John Garthe said their city needs the base for future industrial development in case the Marine Corps ever abandons the site.

But commissioners brushed aside Santa Ana's request for a delay and voted 4-1 to approve Tustin's bid to annex the base.

The possibility of a lawsuit to

require Tustin to provide low-income housing and possibly subsidized housing if the base is ever developed as an industrial park was raised after the meeting by a representative of the Orange County Fair Housing Council.

Ralph Kennedy, a consultant to the council, later said most workers in an industrial development couldn't afford housing in Tustin and would have to live in Santa Ana.

He raised the possibility of a lawsuit, such as one filed in Irvine to block the Irvine Industrial East Complex, unless the city takes steps to provide low-cost housing within the city limits.

Kennedy said that of the three cities of Santa Ana, Irvine and Tustin, only Santa Ana has actually provided low-cost housing. For that reason, he argued, Santa Ana should annex the base.

But Kennedy wasn't permitted to speak because chairman Thomas Riley closed the public hearing.

Commissioner Alice Frankiewicz, sitting in for Tustin Mayor Donald Saltarelli who stepped down for this debate, argued that annexation to Santa Ana would create an illogical boundary.

Tustin city officials cited their efforts to annex the base for the past nine years and the fact that LAFCA has placed the station in Tustin's "sphere of influence."

## House Due To Vote On 'Secrets'

WASHINGTON (AP) — The fight between President Ford and the House Intelligence Committee over what secrets should be made public is being thrown into the full House.

The House was to vote today on a resolution directing the committee either to keep the information secret or get President Ford's clearance to publicly release it.

Rep. James H. Quillen, R-Tenn., said he was thinking about asking for a secret House session, the first in 145 years, so members could hear what the information is.

The resolution that would order the committee how to handle the secret information was approved by the House Rules Committee 9 to 7 late Wednesday.

It forced a full House vote on the overriding issue between the committee and the Ford administration.

## New Malpractice Bill May End Slowdown

SACRAMENTO (AP) — The proposal of a "state run, doctor-controlled fund" for malpractice insurance and the decision of most doctors to renew coverage before a midnight deadline offer hopes of an end to a month-old medical slowdown.

But as the prospects for resolution of the problem in Southern California improved, about 600 San Francisco area physicians voted to begin a slowdown of their own Saturday if the malpractice insurance crisis hasn't been settled by then. That's when their coverage expires.

Gov. Edmund Brown Jr. said Wednesday the proposed voluntary insurance would cost doctors an average of \$4,000 for the first year. He refused to detail the program, but said the legislation would be introduced Friday.

Brown's aides have been holding lengthy negotiations since Jan. 1, when Southern California doctors, protesting

cy work. Hundreds of private hospital workers have been laid off because of the slowdown.

The slowdown has put strain on the area's tax-supported hospitals. The most recent report from Los Angeles County's eight hospitals listed 3,845 patients, 84 over the budgeted limit.

Not long after Brown an-

nounced his new plan, nearly 600 Northern California doctors voted to begin withholding all but emergency services if the crisis is not resolved before their current malpractice policies expire Saturday.

Dr. Sanford A. Marcus, president of the Union of American Physicians there, said Brown's

## Jury Begins Cella Probe Phase 2

By JOE CORDERO  
and LARRY WELBORN  
Register Staff Writers

SANTA ANA—False identification documents were prepared at a print shop once controlled by Dr. Louis Cella Jr. according to an immunity order for former shop employee Ken Piety filed Wednesday in Superior Court.

Superior Court Judge Kenneth Williams granted Piety immunity from prosecution to testify before the county grand jury regarding the alleged false documents. The grant did not reveal document specifics.

Judge Williams also granted

immunity to Paul Erickson, another former employee of the print shop which initially was located in Mission Community Hospital before being moved to Costa Mesa.

Erickson was directed to answer the grand jury's questions regarding the "forgery of invoices of certain corporations and grand theft of funds from Mercy General Hospital and Mission Community Hospital, now pending before the Orange County Grand Jury."

The grand jury, which on Jan. 12 returned a 127-count indictment against Cella and three associates, Wednesday went into the second phase of its probe of Cella's business-political activities.

Piety and Erickson were among the first witnesses called Wednesday. At first they refused to testify, then were taken by deputy district attorney Cliff Harris before Judge Williams for the immunity grant.

The phony invoices were for hospital supplies never ordered or delivered to the hospitals; according to previously filed court documents.

Checks paying for goods on the invoices were traced to approximately 30 accounts Cella has at Crocker National Bank, 1230 N. Main St., the court documents reported.

Co-signers on the checks were

## Tropical Plants, Canned Sounds Of Surf Make Federal 'Paradise'

SAN FRANCISCO (AP) — The government says it's actually cutting costs by "office-landscaping" a federal office with \$10,000 worth of tropical plants and a \$10,000 canned music system that features the sound of whispering surf.

But one employee in the Labor Department office says, "If they'd turn the fans on for a tropical breeze and haul in a couple of tons of white sand we could be in Fiji."

Eighty-seven large plants — including eight potted palms —

were installed last week in the sprawling offices of the Manpower Administration that occupy the ninth floor of the federal building here, Phillip Lawlor, Manpower's deputy regional administrator, confirmed Wednesday.

Lawlor said a sound system soon to be installed throughout the floor will alternate 15 minutes of background music with 15 minutes of a "whirring, soft air-like roar," similar to the sound of surf.

The embellishments are part

of a \$90,000 "office-landscaping" project recommended by the General Services Administration to save money by substituting foliage and low room dividers for costly interior walls, Lawlor said.

The GSA says it developed the concept for offices of federal agencies so they can be expanded or made smaller simply by moving around the portable room dividers and plants.

"We're using this new concept throughout our four-state

## NEWS BRIEFS

## 'Catastrophic' Medical Insurance Bill OK'd

SACRAMENTO (AP) — Legislation to set up a "catastrophic health insurance program" has passed the California Assembly, but only barely. Such insurance protects families and individuals, in theory, from financial catastrophe in the event of illnesses or injuries which require extremely expensive, long-term care.

The author, Assemblyman Dixon Arnett, R-Redwood City, said Wednesday the bill would require employers to make it available to employees.

He said premiums would be no more than \$50 for individuals and \$90 for families the first year. The insurance would pay all medical claims over \$5,000 for individuals and \$7,500 for families.

But employees wouldn't have to buy the insurance unless they were part of a union contract.

He said it's supported by the American Medical Association.

## Rabin, Ford Hold Third Talks

WASHINGTON (AP) — Israeli Prime Minister Yitzhak Rabin held a third round of talks today with President Ford, and a White House spokesman said afterward the administration was continuing efforts to promote a Middle East peace.

Ron Nessen said Ford told Rabin there should be "no stagnation nor stalemate."

Responding to a question, Nessen said "the United States has not offered a plan of its own" to promote continued negotiation. He indicated this would be up to the nations of the region.

White House Press Secretary

## Algeria, Morocco Fight Continues

By The Associated Press

Heavy fighting flared between Moroccan and Algerian forces in the Spanish Sahara for the third straight day today, with both sides throwing tanks and heavy artillery into the battle, military sources in Paris reported.

In Rabat, Moroccan officials said heavy casualties were reported among Algerian troops in the area of Amghala, about 175 miles southwest of the Algerian border. The officials said Moroccan forces now hold nearly 50 Algerian soldiers as prisoners. There was no indication

of the number of Moroccan casualties.

Algerian President Houari Boumedienne sent messages to the chiefs of state of all Communist and nonaligned nations, accusing Morocco of military aggression "in collusion with Spain" and asking for help in securing independence for the people of the Spanish Sahara.

Under an agreement signed in Madrid last November, Spain agreed to hand over the phosphate-rich territory to Morocco and Mauritania and withdraw all its forces and administrators by Feb. 28.

## 'Smoke' Over Foothills Was Dust

ORANGE—What appeared to be smoke billowing over the foothills in eastern Orange County Wednesday turned out to be dust particles blown from Riverside County by heavy Santa Ana winds, county firemen reported.

The winds pumped the dust over the crest of the Saddleback Mountains into the county, causing residents to call fire departments and newspapers for information.

County firemen said that high fire danger still exists in Orange County. However, "we encourage residents to call us even when they think they see smoke," a spokesman said.

## 60-Foot Fall Hurts Fullerton Man

MT. BALDY—Richard Malony, 19, Fullerton, escaped with minor head injuries Wednesday when he fell 60 feet in the rugged Mt. San Antonio Falls area above this mountain community, firemen reported.

Firemen and a sheriff's search and rescue team carried Malony to a parking lot where he was put in an ambulance and driven to Mt. San Antonio Hospital, Upland.

A spokesman said Malony was released following emergency treatment.

## LA Council Rejects 10% Raise

LOS ANGELES (AP) — The City Council narrowly rejected a 10 per cent raise for itself and three other elected officials Wednesday.

Council members voted 9-5 in favor of the two-stage increase, but 10 votes were required for passage.

Had the ordinance been approved, the mayor's salary would have gone from the present \$50,000 to \$52,000 as of last July 1 and to \$55,000 next July 1.

The city attorney's salary would have risen from \$42,500 to \$44,500 to \$46,750. The city controller and council members would have gotten raises from \$30,000 to \$31,000 to \$33,000.

## Spain's Liberalization Plan Hit

MADRID, Spain (AP) — Premier Carlos Arias' program to try to liberalize Spain drew skepticism and open dissent today from leading moderate politicians. The left rejected it out of hand.

Assessment of the conservative premier's speech Wednesday outlining the new government's plans generally was editorially favorable.

A leading Madrid newspaper defended the premier by saying he had said all he could before the nation's right-wing parliament.

Arias promised constitutional reforms to give Spaniards more liberty after nearly four decades of dictatorial rule but he never said how or when.

## Cambodian Troops On Move

ARANYAPRATHET, Thailand (AP) — Hundreds of Cambodian troops were seen moving armored vehicles and heavy weapons north today along Cambodia's western border.

Thai military intelligence sources said the Cambodian Communists might be launching a major drive against guerrilla forces loyal to the U.S.-backed regime of former President Lon Nol.

## Phone Call To A Bank Robber

(Continued From Page A1)

He said he needed the truck for "a bank job," police said.

The tow truck driver, not immediately identified, was not hurt.

The resident manager of the Laguna Reef Motel down the street from the bank said three female employees came running down to the motel as the robbery was in progress and were near hysteria.

The manager said one of the girls had suffered a minor leg wound from flying glass when the bandit shot up the bank and another of the girls had a graze wound from a shard of glass over one eye.

The girls said the robber came to the bank just before 9 a.m. and knocked on the door. He showed one girl an automobile club card and said he had come to repossess her car.

The girl said the man wanted her to go to the car with him, but instead he took her to a tow truck and grabbed a rifle.

The girl said the man told her he wanted her to go to the car with him, but instead he took her to a tow truck and grabbed a rifle.

When employees inside the bank saw him coming with his rifle they hit a button that automatically locks the bank doors.

Police said Castillo fired through the plate glass door, wounding Guest. Castillo was cut on the hand when he used the rifle butt to knock the remaining glass out of the door and enter, investigators said.

Officers said the tow truck was found in the bank parking lot with the engine running.

(Continued From Page A1)

region and it's unquestionably saving us money — especially with all the changes that are constantly being made in the size and shape of federal offices," a GSA spokesman said.

But some employees in the Manpower Administration think the project may be a waste of money at a time when the department's own programs are being cut back.

The plants were supplied by Courtney Borrecco, owner of the California Street Nursery, who said they cost \$57 each, plus another \$57 for each ceramic holding pot. Borrecco said he has an \$1,100-a-year contract to take care of the plants.

## Malpractice

(Continued From Page A1)

"eleventh hour" announcement of proposed legislation would not change his recommendation that San Francisco area doctors join the boycott of non-emergency services.

"The problem is it (Brown's proposal) has an open-ended commitment, and once a doctor is in the plan there's no way in which he can rely on the level of premiums," Marcus said. He said that not until the bill is law will the UAP membership vote on whether it is acceptable.

Brown nevertheless said the proposal would solve the problem of the extremely high premiums, and "will do so in the context of fiscal responsibility and with very definite conditions and limitations."

Asked himself about whether the doctors would end their slowdown, Brown said, "I wouldn't want to speculate on what the doctors will or will not do."

Meanwhile, the Senate Insurance and Financial Institutions Committee approved a bill that doctors' groups said would get Southern California doctors back to work.

## Cella Probe

(Continued From Page A1)

Cella and either George Ollendorf or Stephen Evans, former administrators at Mission Community and Mercy General Hospitals, respectively.

Cella was secretary-treasurer of the two hospitals, which he co-founded, at the time of the alleged crimes.

Ollendorf, Evans and Cella's business-political associate Theodore Schiffman were the three other men named in the Jan. 12 indictment.

The indictment accuses the men of conspiracy to funnel funds out of the hospitals and into Cella's political machine and their own pockets.

A major part of the scheme was the defrauding of the tax-financed state Medi-Cal health program, according to the indictment.

Wednesday, Judge Williams gave the men a continuance until Feb. 5 to post bail.

The men are due in the court that day to plead to the indictment charges.

The bail—\$75,000 for Cella and \$25,000 for each of the others—was due Tuesday.

However, defense attorneys explained to Judge Williams in chambers that the necessary legal paper work between the defendants had not been finalized.

Last week Judge Williams accepted a plan in which Cella will pledge to the court property in Riverside County valued at \$300,000 as bail security for himself and the three associates.

## U.S. Jobs Bill

(Continued From Page A1)

help local governments during recession.

Backers of the bill say it would create some 800,000 jobs.

Besides authorizing money for projects designed to create jobs, the public works bill before the House today would grant federal funds during times of high unemployment to state and local governments faced with the alternatives of firing employees or raising taxes.

In advance of House action, White House Press Secretary Ron Nessen told reporters: "The President will veto the public works bill if it comes in here." House Republican Leader John J. Rhodes of Arizona already had described it as a prime target for a veto.

Nessen cited Office of Management and Budget figures which show the bill would increase the budget deficit by \$2.5 billion in fiscal 1977 and by more than \$1 billion in the following two fiscal years.

"This is an ineffective way to create jobs," Nessen said, "because many of the projects would take as much as 2½ to three years to develop."

Moreover, he said, the President feels the bill is a "Christmas tree filled with many things that don't have anything to do with jobs."

## Hearst Jurors Told To Avoid Reporters

SAN FRANCISCO (AP) — Jury selection in Patricia Hearst's bank robbery trial resumed today as it was disclosed that the judge in the celebrated case had warned jury prospects not to talk to reporters about the closed-door proceedings.

Related Stories on Pages A3 and A6

A critical preliminary phase — the questioning of prospective jurors about the effects of massive publicity given Miss Hearst since her 1974 kidnapping — is being conducted in private.

Defense attorney Albert Johnson said during a midmorning recess that U.S. District Court Judge Oliver J. Carter had called the remaining prospective jurors into court at the end of Wednesday's session and prohibited them from talking to members of the press.

"The judge said that if a potential juror is harassed by members of the press or anyone else, that he would deal with it summarily," Johnson said. Asked to "define" harassed, Johnson replied, "I don't know."

## House, 'Secrets'

(Continued From Page A1)

ministration: Whether congressional committees may obtain top secret information and then decide how much of it should be made public.

The secret information: includes details on U.S. submarine spying on Soviet missile launchings and CIA aid for Angola, Kurdish rebels and Italian political parties.

The full House vote was ordered by the Rules Committee after some members contended that public disclosure of the secrets would violate an agreement with Ford.

The committee agreed to a compromise with Ford in September that the committee could obtain secrets and move to publicly disclose information — but not release any that Ford personally declared would hurt U.S. national security if made public.

But a nine-member majority of the intelligence committee, including Chairman Otis G. Pike, D-N.Y., later said that agreement could not dictate what information could be put in the final report to the House.

Meanwhile, Chairman Frank Church, D-Idaho, of the Senate Intelligence Committee today introduced legislation to create a new Senate panel to monitor the activities of the entire U.S. intelligence community.

The measure, which was endorsed by eight of the eleven members of the intelligence committee, would:

—Require the White House to give the new oversight panel prior notification of any new covert operation before it is undertaken;

—Give the Senate the ultimate power to decide whether intelligence secrets should be made public; and

—Give the oversight panel annual authorization authority over the budgets of the Central Intelligence Agency, National Security Agency and the intelligence branches of other government agencies such as the FBI.

## Cella Probe

Miss Hearst's father, San Francisco Examiner President Randolph A. Hearst, was the only member of the immediate family present at today's session.

Chief defense attorney F. Lee Bailey was asked by a reporter today whether the effort to conduct the proceedings in secrecy was futile, since reporters could gain some information by questioning persons rejected for the final panel.

"They can't speak to you on the way out," Bailey responded angrily to Mike Forrest of radio station KNEW. "They probably will be held in contempt if they do it again, and the news-men too."

Defense attorney Albert Johnson said during a midmorning recess that U.S. District Court Judge Oliver J. Carter had called the remaining prospective jurors into court at the end of Wednesday's session and prohibited them from talking to members of the press.

"The judge said that if a potential juror is harassed by members of the press or anyone else, that he would deal with it summarily," Johnson said. Asked to "define" harassed, Johnson replied, "I don't know."

## Another Bid Set Today To Drop Battin's Counts

SANTA ANA—Another bid to dismiss a seven-count grand theft indictment against Supervisor Robert Battin was scheduled today before Superior Court Judge Kenneth Lae by defense attorney Matt Kurilich.

Kurilich said Wednesday after an hour-long conference in the judge's chambers that he did not have enough evidence yet to prove that the district attorney's office prosecution of Battin is politically motivated.

He said the legal foundation for the motion to dismiss is not firm enough yet to proceed and asked for additional time.

Battin is charged in a seven-count grand jury indictment with grand theft and use of staff members and county equipment and material to help run his 1974 campaign to win the Democratic nomination for lieutenant governor.

Since the pre-trial hearings began, Kurilich has tried to prove that there are two political camps, one supported by the Republicans of the Lincoln Club and the other by Democratic financiers Dr. Louis Cella and rancher Richard O'Neill.

The district attorney's office has been prosecuting only those backed by Cella and O'Neill, Kurilich contends.

ence" for future annexation.

Both cities look upon the base as money in the bank. Although no tax revenue would come from the military, the base if abandoned in the future could provide a rich source of property tax revenue if developed industrially.

However, even Tustin officials conceded that the Marines haven't decided whether to go along with the annexation to their city.

Marine Corps officials didn't want to appear to prefer one city over another, they said in a letter. LAFc's action, argued Tustin vice mayor Richard Edgar, would simply permit them to decide whether to annex to the city.

Santa Ana officials complained that what they predicted would happen a few years ago if Irvine incorporated has happened: That city's industries' lower paid workers live in Santa Ana while Irvine gets the property tax revenue.

Their arguments were supported by Kennedy who said that five times as many workers in the Irvine industrial complex live in Santa Ana as in Irvine.

"These people can't afford to live in Tustin and Irvine," Kennedy said.

However, even Tustin officials conceded that the Marines haven't decided whether to go along with the annexation to their city.

Marine Corps officials didn't want to appear to prefer one city over another, they said in a letter. LAFc's action, argued Tustin vice mayor Richard Edgar, would simply permit them to decide whether to annex to the city.

Santa Ana officials complained that what they predicted would happen a few years ago if Irvine incorporated has happened: That city's industries' lower paid workers live in Santa Ana while Irvine gets the property tax revenue.

Their arguments were supported by Kennedy who said that five times as many workers in the Irvine industrial complex live in Santa Ana as in Irvine.

"These people can't afford to live in Tustin and Irvine," Kennedy said.

## LAFc Approves

## KISSINGER SAYS

## Ford May Seek Open Angola Aid

WASHINGTON (AP) — Secretary of State Henry A. Kissinger said today the administration is now considering whether to ask Congress for overt financial aid for anti-Soviet factions in Angola.

Kissinger told the Senate foreign relations subcommittee on African affairs that the Soviet Union's massive and unprecedented intervention in Angola "is a matter of urgent concern."

Both the House and the Senate have approved amendments to bar continued covert military aid to anti-Soviet forces in Angola.

"The effort of the Soviet Union and Cuba to take unilateral advantage of a turbulent local situation where they have never had any historic interests is a willful, direct assault upon recent constructive trends in U.S.-Soviet relations and our efforts to improve relations with Cuba," Kissinger said.

"Those who have acted so recklessly must be made to see that their conduct is unacceptable," he added.

Kissinger said that peace in the world requires a sense of security that depends upon some form of equilibrium between the great powers.

But the Soviet government indicated today it would help reach a political settlement of the Angola conflict by endorsing a coalition government "of all the patriotic forces working for genuine independence and free development of their country."

The official government newspaper Izvestia, while reaffirming Moscow's support of the (MPLA) as the "legitimate government" need for a peaceful settlement in Angola and unity in Africa.

Kissinger said Angola represents the first time since the aftermath of World War II that the Soviets "have moved militarily at long distances to impose a regime of their choice."

It also is the first time the United States has failed to respond to Soviet military moves outside their immediate orbit and the first time that Congress has halted executive action in meeting that kind of threat, Kissinger said.

In the war-torn African nation, British correspondents in Angola report that the Soviet-backed Popular Movement (MPLA) is confident and optimistic, while its Western-supported foes in the civil war are short "of almost everything."

Nicholas Ashford of the Times of London reported from Luanda the MPLA capital, that the confidence and optimism there following rapid advances by MPLA troops and their Cuban allies contrasted sharply with the nervous tension that gripped Luanda last November when Angola gained independence from Portugal.

The MPLA has taken most of northern Angola from the National Front, and Ashford said the MPLA-Cuban force that last week captured Novo Redondo, the Atlantic port 150 miles south of Luanda, was understood to be moving rapidly along the coast toward Lobito, the chief port for the Benguela railroad across central Angola (to the copper mines of Zaire and Zambia. Lobito is 80 miles south of Novo Redondo).

"At the same time, part of the main body of the MPLA-Cuban army... is said to have deployed westward along the road leading from the Alto Hama road junction to Lobito," Ashford said.

He said another MPLA force was reported advancing on Luso, another major town on the railroad and UNITA's military headquarters for eastern Angola. The MPLA already controls the railroad at Teixeira de Sousa, 15 miles from the Zaire border.

## Black Yank Veterans

Recruited For Angola

WASHINGTON (AP) — Black American veterans are being recruited here to fight in Angola, and organizers say several hundred ex-military men are ready to join in the civil war there alongside Western-backed forces next month.

Organizer Larry Mitchell, a 34-year-old Vietnam veteran who works as a technician in a Washington-area hospital, refused to say who is footing the bill for his mercenary expedition, but he would not rule out the CIA.

On Wednesday, Mitchell said his phone was ringing off the hook — the result of a weekend advertisement he placed in several newspapers: "Veterans Wanted — Medical and technical skills and willing to travel."

"I'm a trained, unemployed and professional fighter and I can be helpful," recruit Wilbert Goodall said. "I was trained to do this type of work. Out here in civilian life no one has any use for it."

Meanwhile, dozens of British mercenaries flew out of London on Wednesday, bound for Africa and the Angola fighting.

The men generally were silent and many tried to hide their faces from photographers as they boarded planes. But some said they had been recruited by Security Advisory Services, a firm in Surrey, a county southwest of London, and were to be paid \$300 a week, tax free, by the government of Zaire, an African neighbor of embattled Angola.

"We've been told to keep our mouths shut," said one of the mercenaries. "This is worth hundreds of pounds to me and there's no way I can get that

# Hospital Seeking Test Unit Ouster

By JOE CORDERO  
Register Staff Writer

SANTA ANA—The Orange County Health Testing Institute (OCHTI) has been asked to move out of Mercy General Hospital by directors anxious to sever ties with Dr. Louis Cella Jr., director Dr. Milton Okin said Wednesday.

Directors also scrubbed plans to build a 3,000-square-foot addition to the hospital to permanently house the OCHTI which

last year received a controversial \$265,000 contract from county supervisors to examine county employees.

It was also learned Wednesday that County Administrative Officer Robert Thomas has recommended to supervisors that the contract be continued despite "significant errors of commission or omission" by OCHTI doctors.

After the contract was awarded last June, it was learned that Cella was the co-founder of the OCHTI.

Cella, who has made campaign contributions to all five county supervisors, said at the time that he had divested himself of any interest in OCHTI. However, OCHTI's bid for the county contract contained several references to the fact that the organization would be associated with Mercy General Hospital. Cella also co-founded the hospital in which he still owns a major interest.

Cella was ousted as secretary-treasurer of the hospital last year by directors after the scope of county and federal grand jury probes of his business-political activities became known.

He and three associates were indicted by both grand juries Jan. 12.

Okin said the arrangements to house the OCHTI at Mercy General Hospital, first in a temporary trailer and then in a new building, were made by Cella.

The directors' action Tuesday night was done to "cut off" a plan engineered by Cella but was not a reflection on the OCHTI, Okin said.

What effect the action will have on the county contract is expected to be learned Tuesday when county supervisors will discuss Thomas' report to them on the OCHTI's performance to date.

His report quotes Dr. Edward Tomovic, Orange County Medical Center director, as saying, "There are documented instances where OCHTI physicians made significant errors of commission or omission."

Specifics were not cited in the report.

Thomas says the OCHTI is doing its work "neither better nor worse than other similar multiphasic screening operations."

He says there exists "ample opportunities" to improve the system, the primary requirement being better communication between the OCHTI, which gathers the testing data, and the health department which evaluates the data.

Thomas recommended the county continue its contract with the OCHTI on the basis of Dr. Tomovic's opinion that "the errors identified do not warrant the cancellation of the contract."

Dr. Stanley Mayberg, the president of the OCHTI, could not be reached Wednesday for comment on Thomas' report.

## IN N.H. SCHOOLS

# Suit Filed To Block Prayers

CONCORD, N.H. (AP) — The New Hampshire Civil Liberties Union filed suit today in U.S. District Court to block recitation of the Lord's Prayer in New Hampshire tax-supported schools.

Pupils in several districts have begun saying the prayer under a controversial new state law allowing voluntary classroom prayer.

A spokeswoman for the NHCLU said the suit was filed on behalf of 12 parents against the Rochester school board on grounds recitation of the prayer in tax-supported schools is unconstitutional and degrading to their religious beliefs.

Rochester tax-supported school pupils began saying prayers two weeks ago under guidelines set forth in a nine-month-old state law which calls for the recitation of the Lord's Prayer.

Several towns around the state have voted to institute prayers in their school systems under the law, but Rochester is the first major community to implement it.

The civil liberties union said it would seek to have the law examined by a three-judge panel on grounds it violates the 1st and 14th amendments of the Constitution. The suit asks for a temporary restraining order until the panel reaches a decision.

There was no immediate word on when the federal court would act on the temporary restraining order request.

Terri Lavelle, director of the New Hampshire Civil Liberties Union, said the parents filing the suit objected to the "secular treatment of the prayer" because of their "deeply held religious convictions." She said they were concerned that children were "being taught the Lord's Prayer is not a prayer but merely an historical fact to be repeated meaninglessly every day."

Two of the plaintiffs are clergymen.

# 2 Argentine Execs Slain By 15 Gunmen

BUENOS AIRES, Argentina (AP) — Fifteen terrorists including two women burst into the offices of the local subsidiary of the Bendix Corp. of New York today and shot and killed two Argentine executives, police said.

A provincial policeman was killed when the terrorists exchanged shots with company guards during their escape, police added.

The company reportedly was having labor problems, part of a widespread climate of economic and labor unrest across Argentina.

Left-wing guerrillas in the past have acted against private companies claiming to protect workers. However, the motive for today's attack was not immediately known.

In a separate incident, police shot and killed three leftist terrorists trying to avoid a vehicle checkpoint in a Buenos Aires suburb. Two policemen were slightly injured in that incident.

No group immediately claimed credit for the attack on the Industrias Bendix S.A. in the northern suburb of Munro 10 miles from the downtown area.

Police quoted witnesses as saying that the terrorists demanded to see the president and the general manager of the company.

Told they were not there, the

guerrillas then chose two executives at random and shot them dead.

The executives were identified by police as the personnel chief, Jorge Zaralenga, and the industrial relations head, Alberto Olavarrieta.

On Wednesday, terrorists shot and killed one policeman and wounded another as the policemen stood on a street.

LOW PASS — Downtown San Diego appears close below giant 747 as the jetliner nears landing. The approach to Lindbergh Field is one of the steepest in

the United States. Pilots have complained for years, but never has a serious injury been reported.

## TOO MANY HANDS IN TAX PIE

# Fraud Be With HEW --- Yea, Forevermore

WASHINGTON (AP) — Fraud and abuses that cost the taxpayers millions of dollars each year may never be eliminated, the Department of Health, Education and Welfare says.

An HEW report, sent to the chairmen of the House and Senate appropriations committees on Wednesday, said money from the department's \$118 billion budget flows through too many hands to reach millions of recipients, many of whom are functionally illiterate.

At the same time, the department said, program management often is fragmented between the federal and state governments, employees are un-

dertrained, underpaid and overworked and the turnover rate in HEW is almost twice that of other agencies.

"These characteristics mean that without exception the error rates (misuse of public funds) for the programs covered in this report may never reach low enough levels to be acceptable to the general public," the department report said.

In letters accompanying the report, HEW Secretary David Mathews told Sen. Warren E. Magnuson, D-Wash., and Rep. Daniel J. Flood, D-Pa., that the list of problems explains why welfare programs are "particularly vulnerable to the misuse

of public funds and actual fraud."

Despite the apparent size of the problem, Mathews said he and Undersecretary Marjorie Lynch will work closely with Congress "in doing everything possible to lessen the threat of misuse of funds and fraud in HEW programs. We can do no less."

No one is quite sure just what

# Widow Sues Mortuary For 'Dumping' Spouse

By CON BLISS  
Register Staff Writer

SANTA ANA—The widow of a man whose partial skeletal remains were discovered last month in a crumpled coffin in the county dump has filed a \$200,000 lawsuit in Superior Court against a Westminster mortuary.

Named as defendant in the civil action is Westminster Memorial Park and that firm's undertakers and morticians, who, the plaintiff, Genevieve Harman, alleges were supposed to have cremated her husband's remains and performed a burial at sea.

Mrs. Harman, whose husband, Hugh E. Harman, died in 1958, claims she entered into an agreement with the mortuary last January to have her husband's body cremated and buried at sea. She alleges that a breach of contract exists because the funeral parlor didn't perform its services properly.

A bulldozer operator found the remains last Dec. 18 at the county's Coyote Canyon dump site, and sheriff's investigators spent a few weeks tracking down the origin of the coffin, which contained bits of clothing and bones.

The widow alleges that her husband's body was hauled to the county dump instead of his cremated ashes being strewn at sea, which Mrs. Harman claims has caused her to suffer "great mental and nervous anguish."

# \$6.4 Billion Rail Bill Passed By Congress

## President Ford's Signature Expected

WASHINGTON (AP) — A \$6.4-billion measure to fund the creation of a new railroad system from the remains of seven ailing Northeastern carriers is now awaiting President Ford's signature.

Final congressional action on the bill, a compromise with the Ford administration, came rapidly from both the House and Senate Wednesday. The House approved it first 353 to 62; the Senate later concurred 58 to 26. Ford told congressional leaders earlier that he would sign it.

The omnibus legislation authorizes new loans to help other railroads rebuild their track and equipment, authorizes funds to improve passenger train service in the Northeast and gives all railroads new freedom to raise and lower freight rates.

The bill has four basic provisions:

—It authorizes a \$2.1-billion government investment in a new railroad called ConRail, to be formed by consolidating major routes of the Penn Central and six smaller railroads. ConRail will operate 15,000 miles of track in 17 states.

—It authorizes \$1.8 billion in loans and loan guarantees to other railroads to help them rebuild track and upgrade equipment.

—It authorizes \$1.85 billion in grants to upgrade passenger service. Most of this money will be used to rebuild badly deteriorated track between Washington and Boston.

—It substantially changes the Interstate Commerce Commission's regulation of the railroads. The most substantial of those changes will be to give railroads new freedom to raise and lower fares without prior government approval. This is designed to allow them to compete more evenly with forms of transportation not regulated by the government.

No one is quite sure just what

impact this new pricing flexibility will have on the consumer.

Supporters of flexible pricing contend the new ability of railroads to compete through price will tend to hold prices down. Opponents claim the railroads will use the new flexibility to raise fares.

The bill also authorizes \$360 million to keep rail freight service going for five years over lines which ConRail will not operate and \$125 million to keep rail commuter trains operating for three years.

## SCHOOL OFFICIAL SAYS

# 'Safety' Factor In Busing Plans

CLEVELAND (AP) — Cleveland School Board President Arnold Pinkney testified Wednesday that he would be concerned about his daughter's safety and self-esteem if she were bused to a school outside her neighborhood.

He said in U.S. District Court that he believes his daughter receives quality schooling in the all-black school she attends and he is content to leave her there and not have her bused.

Pinkney, a black, has been board president since 1971. His run for mayor was unsuccessful last year, although he garnered 92 per cent of the black vote.

His testimony came at the trial in which the NAACP charges the school board with promoting segregation. The NAACP is urging busing to integrate the city's schools.

Pinkney added that although he theoretically favors massive busing to achieve integration, he doubts that busing alone leads to better schooling.

His fears over busing, he said, stem from the concern parents would feel about their children's safety, his feeling that sending a child to a faraway school would lower a student's self-esteem and that busing would drive whites from the city.

"Philosophically I have no difficulty in accepting massive reassignment," Pinkney said, "but it's the implementation and the effect it would have on education that bothers me."

At that point, Judge Frank J. Battisti asked Pinkney if it weren't true that the school board would still provide the same "quality" of schooling if students were bused across town.

Pinkney said the schools would still provide the same programs.

Then Battisti asked whether,

# 'Cinque' Took People To Meet Patty—Paper

NEW YORK (AP) — Patricia Hearst's kidnaper, Donald "Cinque" DeFreeze, was so proud of eluding the FBI that he "threw caution to the wind" in the weeks before his death and invited strangers off the street to meet the captive newspaper heiress, the Daily News reported in today's editions.

At least four of these visitors to DeFreeze's Symbionese Liberation hideaway in a San Francisco apartment are scheduled to testify at Miss Hearst's current trial on bank robbery charges, the paper said.

The News said it had learned that DeFreeze would stop people on the street, introduce himself as "Field Marshal General Cinque of the SLA" and urge the strangers to bring food to the headquarters and buy and donate vans for "troop transportation."

As a reward for help, the News said, invitations would be extended to the Golden Gate Avenue apartment. After being met by a machine gun brandishing DeFreeze, the visitors would be shown Miss Hearst.

The News said that DeFreeze would ask his visitors if she looked brainwashed, as her wealthy parents were contending. The heiress was always pleasant and sometimes even shook hands with the visitors, according to the newspaper.

DeFreeze and his followers moved to another San Francisco address before heading to Los Angeles, where he and five others were killed May 17, 1974, during a gun battle with police.

# Isolated Town Asks For Food

MANILA, The Philippines (AP) — At least 15,000 persons are in need of food in Talisayan, a northern Mindanao town isolated by floods, the government Philippine News Agency said today.

At least seven Mindanao provinces were affected by last week's floods, which left 21 persons dead and nine missing.

Talisayan is about 500 miles south of Manila.

It quoted the town's mayor, Victorico P. Serina, as saying the latest shipment of relief goods would last only until Friday.

## AT HEARING ON PROPOSAL

# NJ Workers Cheer Offshore Oil Plans

ATLANTIC CITY, N.J. (AP) — Blue-collar workers backing East Coast offshore drilling as a cure for joblessness turned out in force today at a federal hearing on proposed drilling site leases.

Members of Operating Engineers Local 825, bearing signs reading "Jobs For Jersey" and "Wages Not Welfare," cheered the testimony of drilling proponents and booed opponents.

More than half the union's 10,000 members in New Jersey and five New York counties are unemployed, said William McKenna, an engineer from Cape May.

The men in their work clothes contrasted with the dozens of oil industry officials dressed in business suits at the third day of Department of the Interior hearings on its plan to lease the first drilling sites off the East Coast.

Shell Oil vice president Robert H. Nanz told the panel the U.S. cannot afford to delay its exploration for oil and gas in the Atlantic's Baltimore Canyon Trough and other ocean areas.

While the U.S. has leased only two per cent of its continental shelf for oil exploration, the rest of the non-Communist world has leased 34 per cent of its shelf areas, Nanz said.

"We've lagged behind already, almost to a perilous point," said Nanz, noting that eight years have passed since the government took nomi-

nations on lease sites in the Gulf of Alaska. That sale has yet to take place.

The Baltimore Canyon tracts are at least 54 miles off the coast of New Jersey and Delaware.

Several officials from these states and New York have proposed delaying the lease sale to tighten federal control of drilling, provide no-fault spill liability coverage for coastal towns and gather more environmental data on the ocean bed.

Nanz said there might be nothing worth producing or there might be a major find. "It's like trying to estimate how many birds there are in the woods," he said.

# Board Uncertain Why College Scores Lower

SAN DIEGO (AP) — The College Entrance Examination Board says it still is uncertain why U.S. collegians are doing worse every year on their scholastic aptitude test.

The average national score fell from 466 to 434 between 1966 and 1974 and 10 points in 1974 alone. More than half the freshmen entering the University of California score so poorly that they must take remedial English.

"I just don't know" why the test scores particularly in writing go down, says Frederick Dietrich, director of program

services for the Educational Testing Service.

His remarks came at the western regional meeting of the college board this week.

Bob Cameron, an officer of the College Board at its New York City headquarters, said students are resisting writing assignments. He said classes are too large.

At least 30 reasons have been tentatively identified by a special 19-member panel set up for a two-year study. Cameron said scores still coming in from tests given last fall are lower than those of the year before.

## CITES MINORITY HIRING STANDARDS

# LA Stops Buying Parts From Ford

LOS ANGELES (AP) — The city of Los Angeles has halted major purchases from the Ford Motor Co., contending the auto maker does not meet the city's minority hiring standards.

An executive at Ford's West Coast sales office in Oakland defended the firm's hiring program Wednesday and said Ford felt Los Angeles did not have jurisdiction over its actions in Detroit.

The situation stems from an ordinance passed by the city council last March.

It requires any firm doing business with the city to meet city standards on minority and female hiring, action programs, said Stewart Feuer, an official

with the city board of public works in charge of nonconstruction contracts.

"Right now, we just can't buy Ford parts in orders over \$5,000, or cars or trucks," Feuer said.

He said although local Ford dealers doing business with the city met the standards, the national company had "submitted a plan with many things missing. The big thing is the goals and timetables section. They just didn't have any."

In Oakland, Ford executive Donald Peters said the auto maker "took the position that why should the Detroit hiring program affect the city of Los Angeles Ford Motor Co. in De-

troit certainly has a strong hiring program. It has a lot of minority workers."

Merle Sutton, city store superintendent, said the ordinance had only recently been interpreted to apply to firms outside the Los Angeles area.

"There's an internal squabble over what is proper," he said. "It was not known to me until recently that this would apply to major manufacturers outside L.A. This is where we have had a breakdown in letting contracts."

Sutton said he issued a memo telling city departments they could no longer buy replacement parts from Ford but added he did not know exactly

how many Ford vehicles would be affected.

Ezra Burts, executive assistant to Mayor Tom Bradley, agreed that the ordinance might be construed differently.

"The purpose of that contract compliance ordinance was to establish certain goals for businesses contracting with the city and there are times when we would be contracting with companies that are not located in the city of Los Angeles," he said.

"I think because it is a new ordinance and all of the areas that would have to be applied with may not be spelled out, they might be subject to interpretation."

# Testimony In Rollo Defense Offered By OC Jail Inmate

SANTA ANA—Accused murderer Gary Rollo's entire defense in his Superior Court murder trial was presented Wednesday in about 10 minutes.

An Orange County Jail inmate, Kevin Bower, testified at he overheard another jail mate say that Rollo and co-defendant William Chambers were armed.

Rollo's defense lawyer, Roger Agajanian, said he didn't allow his client to testify in his own behalf due to Rollo's prior criminal convictions.

Chambers and Rollo are accused of beating to death a Garden Grove physician last August in his home, then stealing several firearms and watches and selling them before Dr. Robert Trace's battered body was discovered.

# Navy Board Urges 'Gay' Ensign Be Discharged

NORFOLK, Va. (AP) — A re-officer Navy discharge board recommended on Wednesday that admitted homosexual Ensign Vernon E. Berg III be discharged less than an honorably.

Berg immediately announced he would appeal, carrying his case to the federal courts.

The decision by the discharge board climaxed a week-long hearing during which Berg, 24-year-old son of a Navy chaplain, had challenged Navy regulations requiring the discharge of homosexuals.

The discharge board did not specify the type of discharge Berg should receive.

Rollo, a self-proclaimed karate expert, left his Stanton motel the night of the murder and returned about three hours later with blood-soaked shoes, a young girl who was staying with Rollo at the time previously testified.

Chambers previously testified that he was dining with his family in Newport Beach on the night of the murder.

But prosecutor Pat Brian produced evidence to show that Chambers was with Rollo at two different places last Aug. 13, just hours before Dr. Trace was beaten to death. Brian also said he has documentation to prove that Chambers was with Rollo the day after the killing to exchange a rental car and fence the stolen merchandise.

Rebuttal in the trial was to begin today, and closing arguments are expected to begin Monday. Brian said the jury may get the case late Monday or early Tuesday.

# Congress Asked To Enact Toxic Chemical Rules

WASHINGTON (AP) — The Ford administration asked Congress Wednesday for legislation to control toxic chemicals.

Currently, the federal government has only spotty authority to cope with such hazardous substances as poly-chlorinated biphenyls, or PCB's, said Environmental Protection Agency Administrator Russell Train.

Train, and Nathaniel Reed, assistant Interior Secretary for Fish and Wildlife, told a House environment subcommittee that PCBs pose a significant threat to health.

But the chemical substance is only part of a big, dismaying picture, said Train. Potentially dangerous chemical compounds enter the market place at a rate of 1,000 a year, he said.

Legislation should be enacted to give the government the power to monitor and test all chemicals being proposed for industrial and consumer use, Train said.

# Song Retrieves State Car From Wife

SACRAMENTO (AP) — State Sen. Alfred Song, D-Monterey Park, said Wednesday he has retrieved his state-leased car from his estranged wife, but she refuses to give him back a state gasoline credit card.

However, Song said that she can't use the card, because it can only be used for the 1975 Chevrolet Monte Carlo with his special Senate license plates.

Song, chairman of the Senate Judiciary Committee, and Judy Song were separated in December after less than a year of marriage.

He said she "tried to make trouble for me" by calling a newspaper reporter and saying that Song was going to give her the state car as part of a divorce settlement.

Naturally, said Song, he could not give away a car that doesn't belong to him. The state pays \$211.82 per month on the lease.

Song said he got the car back Tuesday because he decided it was improper for her to have it while they were separated.

He said there was nothing improper, however, for legislators wives to drive their husbands' state-leased cars. "Ask the other 119 legislators and I'll bet 95 per cent would say they allow their wives to use the cars, unless they happen to be wealthy and can afford other cars," he said.

It was the second hassle involving an estranged wife over a legislator's car in about a year. Assemblyman Ken Meade, D-Berkeley, made a trip to Kansas to retrieve his state-leased Chevrolet Blazer from his estranged wife.

Meade then turned the car in, refused to accept another state-leased car and announced he would not seek re-election in 1976.

**Miss Fullerton**  
FULLERTON—The Miss Fullerton pageant, sponsored by the Chamber of Commerce, will be held at 7:30 p.m., Jan. 31 at Plummer Auditorium.

# Kirschke Slaying Conviction Upheld By State Top Court

SAN FRANCISCO (AP) — The California Supreme Court refused Wednesday to consider the 1967 murder conviction of Drankhan. His attorneys claimed in their petition that the case against him was based on circumstantial evidence. They challenged what they termed the most damaging prosecution evidence provided by De Wayne Wolfer, a Los Angeles police criminalist, who testified as an expert witness. Wolfer told the trial jury that the murder bullets came from Kirschke's gun and "no other gun in the world."

The defense said this was the only evidence which established a direct link between Kirschke and the victims, who were slain on a bed in the Kirschke home early on the morning of April 8, 1967. The defense contended during the trial that Wolfer's testimony was false. The District Court of Appeal on July 28, 1972, affirmed the conviction but also ordered a Superior Court hearing on whether it was obtained through false testimony.

Los Angeles Superior Court Judge George Dell held a hearing and found that Wolfer had falsified his academic qualifications as an expert witness and that he had presented false ballistics testimony, the defense petition claimed. The appellate court later adopted some of these findings but still upheld the conviction.

## Assessing Error To 'Pay' Taxes

YUBA CITY (AP)—Taxpayers in Yuba County are ahead of others in California when it comes to 1976 property taxes.

Due to an accounting mistake in the 1975-76 budget, the tax rate was raised an extra 14 cents per \$100 dollars of assessed value last year to balance the budget. Supervisors voted Tuesday to put the extra \$275,000 in a trust account to lower taxes this year.

## IDENTITY OF LITTERERS DEBATED

# Upper Newport Bay Trash Issue Raised

NEWPORT BEACH—An irate resident of the Bluffs condominium area here says she plans to complain to the city and the state concerning litter allegedly left in recent weeks by participants of Saturday Upper Newport Bay tours.

"It's an absolute disaster area," said Mrs. Pat Waller, 2906 Quedada, of the area near East Bluff Drive and Back Bay Road, where the tours, sponsored by the Friends of Upper Newport Bay, regularly start.

"I don't mind the tours," she said, "but it isn't fair to the rest of us when so-called ecology people leave their food wrappers and other junk lying around. It's beginning to look like the second county dump."

However, Ray Williams, president of Friends of Upper Newport Bay, denied that his group, which he said normally conducts only one tour a month, is responsible for littering the area. The Friends organization is just one of many which conduct Upper Newport Bay tours, Williams said, and sometimes members of the organization voluntarily pick up discarded litter.

## AFTER FORD SIGNS BILL

# Kentucky Governor To Move On Birds

FRANKFORT, Ky. (AP)—Gov. Julian Carroll said Wednesday he is willing to sign a statement categorically stating that millions of blackbirds infesting western Kentucky constitute a serious health hazard. Under emergency legislation passed by Congress on Tuesday, the governors of Kentucky and Tennessee must confirm that the birds constitute "a significant hazard to human health, safety and property."

Rep. Carl Hubbard, D-Ky., said he expected President Ford to sign the legislation quickly.

The bill would authorize the two states to use a detergent, Tergitol, to exterminate millions of blackbirds. The chemical was used to kill several million blackbirds roosting on the Ft. Campbell, Ky., military reservation last year, but since then its use has been blocked in the courts by environmental groups.

The congressional action drew fire from 'Christine Stevens, president of the Society for Animal Protection Legislation.

"I was horrified to learn that it went through in a single day," she said. "Nobody knew about it. It is irresponsible legislation and we very much hope the President will veto the bill."

State officials contend Tergitol is the only effective weapon against the birds. Applied when the weather is damp and temperatures are below 45 degrees, Tergitol strips protective oils from the birds' feathers and causes them to die from exposure. Coburn Gayle, a pest control specialist, said other methods of eliminating the birds proved unsuccessful. The roost at Ft. Campbell was bulldozed away but the birds simply moved to another area, he noted. The state also has tried scaring the birds and poisoning them, but neither proved successful.

State Agriculture Commissioner Tom Harris said Wednesday that "we're ready to go" as soon as word of final approval of the extermination program is received. He said helicopters and work crews are standing ready to attack the first roost, in Logan County, which contains six million blackbirds, starlings and grackles.

## Costa Mesa Marine Recruit Dies

SAN DIEGO (AP) — A Marine recruit died in Balboa Naval Hospital Wednesday after collapsing in formation. Marine Corps spokesman said. He was identified as Keenan Wayne Thompson, 17, of Costa Mesa. The spokesman said Thompson had been at San Diego's Marine Corps Recruit Depot for only five days when he passed out during the morning meal formation Tuesday. He was taken to the depot dispensary, then transferred to Balboa's intensive care unit, the spokesman said. Navy doctors blamed Thompson's death on a sudden attack of bacterial pneumonia, the Marines said.

## Committee OKs Usury For Labor Secretary

The Senate Labor Committee gave quick approval Wednesday to the nomination of W. J. USERY JR. as President Ford's third labor secretary and sent it to the Senate for expected confirmation. The committee voted 15 to 1 after a friendly, two-hour hearing in which Usery, 52, said he hopes to find some new way of resolving problems in the troubled construction industry.

★ ★ ★  
Senate Majority Leader MIKE MANSFIELD announced Wednesday the formation of a special government panel to plan against future shortages of resources and commodities.

★ ★ ★  
Current shortages were predicted more than 20 years ago, Mansfield said. "Hopefully this time we won't wear blinders." Black Caucus. Rep. Burke, a New York industrialist AR-NOLD A. SALTZMAN, who will be the first woman to head the

Sacramento Municipal court said Wednesday he granted the continuance on a request by RYAN's attorney. The San Mateo County Democrat was arrested in Sacramento Jan. 9. Police officers said they saw his car on the wrong side of the street, and Ryan failed to pass a roadside sobriety test.

★ ★ ★  
JEAN CLARK, Nevada's Gov. Mike O'Callaghan's confidential secretary and granddaughter of naturalist John Muir, has died of cancer in Carson City. She was 57.

★ ★ ★  
Rep. YVONNE BRATHWAITE BURKE, D-Calif., on Wednesday was elected chairperson of the Congressional Black Caucus. Rep. Burke, a congresswoman since 1972, is NOLD A. SALTZMAN, who will be the first woman to head the

head the new Federal Advisory Committee on National Growth Policy Processes, told a press conference that "the turbulence we see around us all today is the product of yesterday's unplanned futures."

★ ★ ★  
The Georgia Board of Pardons and Parole has denied parole for GARY STEVEN KRIST, 29, convicted in the 1968 kidnapping of Florida land heiress BARBARA JANE MACKLE. Krist was sentenced to life imprisonment in 1969 for the bizarre kidnapping in which Miss Mackle was buried in a coffin-like box for nearly four days in a pine forest near Atlanta. Also convicted in the kidnapping was RUTH EISEMANN-SCHIER, 32, who was released from prison and deported to her native Honduras in 1972.

★ ★ ★  
U.S. Rep. LEO J. RYAN'S arraignment hearing on a charge of drunken driving has been continued to March 5, because of a "parting of the philosophical ways."

## PSYCHIATRIST CLAIMS

### Patty 'Brainwashed' Forced Into SLA

LONDON (AP) — Patricia Hearst was "brainwashed, forcibly converted, and coerced in thought and deed" into joining the so-called Symbionese Liberation Army after her kidnapping, British psychiatrist William Sargant, a leading authority in terrorist brain-washing techniques, said today.

Dr. Sargant interviewed Miss Hearst at her family's request last year. He wrote in the Times of London today that after five long talks with her, he was convinced "there is not a shred of truth in any allegations that she cooperated in her kidnapping."

The 21-year-old newspaper heiress, now on trial in San Francisco on federal bank robbery charges, was kept blindfolded in a cupboard for 60 days after her capture and was subjected to threats against herself and her parents, Sargant said.

"The last war showed that around 30 days, continued day and night, was the maximum period of tension and stress a normal person could endure before breakdown," he said.

"Then increased states of suggestibility intervene and the brain goes into 'inhibitory' reverse. Patty endured induced tension for much longer than 30 days...."

"My own view is that she was not really 'broken' until around the 50th day of the blindfolding, but the blindfold was only removed after 60 days. And when it was removed she had a short period of unreality and a distortion of her body image which was alarming to her in the extreme."

During the bank robbery for which she is now on trial, when Miss Hearst was photographed holding a gun, "she was so frightened that she nearly fainted," Sargant said.

"Now she was caught in the web, and the FBI became real enemies, as was shown later when fire bombs were tossed into a surrounded house in Los Angeles. The 'switchback' occurred when Patty finally got away from the two remaining SLA members and lived with a Japanese girl, Wendy (Yoshimura), who was also on the run. Wendy... was able to disillusion Patty and to make her realize how terribly she had been deceived all along in a whole variety of ways. No re-

maining regard (except for Wendy) remains now for her former associates and what she now considers their mad ideas. "She was glad to be captured finally without being shot. On my fifth and last interview with her she said that if she was ever released she would go back to her still loving parents, but not to her former life, and try to do social work."

**MOTHER AND DAUGHTER**—Tricia Nixon Cox precedes her mother, Pat Nixon, wife of former president Richard Nixon, from her Manhattan, N.Y., apartment building for an evening out in New York Wednesday. Mrs. Nixon is visiting Tricia and her husband for an undisclosed period after flying in from Florida and San Clemente.

## Brain Tumor Victim Undergoing Tests

BETHESDA, Md. (AP) — National Institute of Health doctors say several days of tests will be needed to determine if Miami policeman Raymond Southerland, whose three sons suffered from cancer, has a malignant brain tumor.

A spokesman for the institute's clinical center said the test program begun Wednesday would include computerized, multi-dimensional X-ray scanning of a tumor in Southerland's brain. The spokesman said it may be several weeks before doctors know if the tumor is malignant.

Southerland, 37, had suffered dizziness and blackouts for several years, but it was not until last week that doctors at Miami's Mercy Hospital discovered the tumor in the upper right side of his brain.

Because of its apparently unusual susceptibility to cancer, the family has been subject of a National Cancer Institute study.

Southerland's 4-year-old son, Jeffrey, died of lymphatic leukemia in 1969. A second son, Michael, now 10, underwent

surgery in 1972 for a malignancy in the lining of his spinal nerve.

His older son, Stephen, 15, drew national attention in 1974 when he and Ted Kennedy Jr., became friends after each had a leg removed to stop the spread of bone cancer.

'Snow' Confers With 'Blizzard'

SACRAMENTO (AP) — "Mr. Blizzard? This is Snow."

That's what Dr. Gordon Snow, a special assistant in the California Department of Food and Agriculture, says when he calls Everett Blizzard, an official in the state Office of Emergency Services.

They confer often on drought conditions.

## CUT YOUR OWN TAXES — 4

## Buying New Home Offers Tax Break

By RAY DeCRANE  
Fourth In A Series

To an increasing degree, tax laws have been imbued with social philosophies in recent years.

First it was the retirement-income credit. It was designed to give extra tax relief to those who were receiving only a minimum amount of Social Security funds after retirement.

In the last few years another new concept — that of the low-income allowance — became part of the tax laws. It gave added relief to those at the lower end of the income scale.

Last year the earned-income credit was introduced. It provides refunds for families with incomes of \$4,000 to \$8,000, even though they may not have paid anything into the tax system.

Tax law took another new twist last year in an attempt to provide stimulation to a lagging homebuilding industry.

This created a way for buyers of new homes, under carefully prescribed conditions, to receive a direct tax credit of as much as \$2,000.

For purposes of the credit, the home, in addition to the conventional dwelling, can be a condominium, town house, mobile home, or even a houseboat.

But the new structure must become your principal residence.

Whether you are purchasing or building a new home, you must have acquired and occupied it after March 12, 1975.

Construction must have begun before March 28, 1975. If you purchase, rather than construct the home yourself, you must enter into a binding purchase agreement before Jan. 1, 1976.

You must attach to your tax return a certification from the seller that construction began before March 28, 1975 and that the price at which you bought it was the lowest price at which the home was offered for sale after Feb. 28, 1975.

You must be the original occupant of the new residence to claim the credit. The overall limit on the credit is \$2,000.

Married persons filing separate returns will each have a maximum credit of \$1,000.

The 5 per cent housing credit may exceed your tax liability. Anything in excess of the tax liability is lost and may not be carried over to subsequent returns.

Many taxpayers are overlooking the new personal exemption and earned income tax credits, Internal Revenue Service Commissioner Donald C. Alexander says.

Alexander said in a speech this week that 10 per cent of the long form tax returns checked

piated it after March 12, 1975.

Construction must have begun before March 28, 1975. If you purchase, rather than construct the home yourself, you must enter into a binding purchase agreement before Jan. 1, 1976.

Address \_\_\_\_\_  
City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

If you had deferred gain from the sale of a prior residence, you must reduce the purchase price of the home subject to the 5 per cent credit by the deferred gain on the earlier sale.

For example, you sell for \$40,000 a home which cost you \$25,000, realizing a \$15,000 gain. Then you buy for \$50,000 a new principal residence qualifying for the credit. You must reduce

the \$50,000 basis of the replacement home by the \$15,000 deferred gain on the prior sale. Now you have an adjusted basis of \$35,000. The credit allowed is 5 per cent of \$35,000, or \$1,750.

FIREMEN'S CAMPAIGN POSTERS — In an effort to force San Diego officials to make concessions in wage and work conditions, firemen from that city have put up 10 billboards in Los Angeles urging a tourist boycott. "Contemplable," commented Mayor Pete Wilson of San Diego said of the firemen's union campaign.

## Businessman Guilty Of Defrauding U.S.

RICHMOND, Va. (AP) — A businessman with interests in Miami and New York has pleaded guilty to a charge he defrauded the Small Business Administration and a Portsmouth bank of \$72,133.

The guilty plea Wednesday by Sanford E. Rafsky was the first to grow out of more than two years of government investigation into alleged irregularities involving Richmond's SBA office.

Rafsky pleaded guilty to one of 17 counts in an indictment returned last Nov. 4. The indictment said Rafsky "designed and promoted" in 1973 a scheme to defraud Virginia banks and the SBA.

Government attorneys said the guilty plea to a fraud charge involving the SBA and the Citizens Trust Bank was the result of an agreement worked out between government lawyers and the defendant.

He faces up to 10 years in prison and a \$10,000 fine. U.S.

District Court Judge Robert R. Merhige Jr. scheduled sentencing for March 4.

U.S. Atty. William Cummings said further indictments are expected in the SBA case.

In outlining their case, prosecutors said they could prove Rafsky had a cashier's check for \$72,133 deposited in the Boulevard National Bank of Miami. They said he knew it had been obtained by fraud.

They said further that the government can prove that Rafsky and others involved in the case had the help of the SBA's former district director, Thomas F. Regan.

Regan was director of the local SBA office when the Rafsky deal was made. He was fired by the SBA for possible conflict of interest after a congressional inquiry showed he had approved more than \$11 million in SBA-backed loans and lease guarantees for companies with which his brother-in-law was connected.

## Laguna Women Robbed; Three Suspects Held

SOUTH LAGUNA — Three men who allegedly robbed two women of an estimated \$5,000 to \$10,000 in cash and jewelry in their home here early today were captured a short time later by a Laguna Beach police officer, sheriff's officials reported.

Investigators said that when Patty Runyon, 53, and Jacqueline McLean, 60, returned to their 30812 S. Maryland Drive home shortly before 2:30 a.m., they were confronted by two men wearing ski masks.

At least one of the men was armed with a handgun, deputies said.

After the two men left, the victims phoned Laguna Beach police who notified sheriff's officials. One of the women told police she had noticed a white Cadillac in the area.

Officer Mike Davis recalled seeing a similar white car northbound on Pacific Coast Highway.

Davis said he located the car and began following it. A records check on the license plate showed the car was registered in Fresno.

The Laguna officer said the driver of the vehicle was "driving perfect and nobody drives perfect."

A short time later the car pulled into a residential area in Corona del Mar and after two quick turns came to a stop at a dead-end street where the three men attempted to flee in different directions, investigators said.

Davis stopped the three men without incident and found three revolvers, cash and jewelry on the floor of the vehicle, deputies said.

The three men inside the car, identified as Edward Sarterian, 35, of 1568 Sherington Place, Newport Beach, Andrew J. Mangino, 40, of 305 Jasmine St., Corona del Mar, and Davis T. Branon, 34, of Tucson, Ariz., were booked in Orange County Jail on suspicion of burglary and armed robbery.

## Reagan Vows To Press End To Forced Busing

CONCORD, N.H. (AP) — Ronald Reagan says as president he would do everything in his power to end the forced busing of school children, but he adds that he would enforce court busing orders because "the law is the law."

"Obviously the chief magistrate would have to obey the law," Reagan told reporters Wednesday. He was asked whether he would enforce a court order requiring busing for racial desegregation.

## Toughs Rob, Beat Cyclist

SAN FRANCISCO (AP) — Witnesses say some two dozen street toughs jumped on a bicyclist and beat and robbed him a moment after he collided with a Muni bus Wednesday night at Haight and Fillmore streets.

The victim was Michael Farrell, 24, who said Muni people stood by as he was worked over. "Nobody would help me," he said at a hospital later.

Ambulance steward Larry Williams said the Muni personnel and passengers left Farrell's rescue to him and his two co-workers.

Police said they were investigating.

Reagan, who is challenging President Ford for the Republican presidential nomination, opened his third campaign swing through the state Wednesday with a news conference, his first in New Hampshire.

New Hampshire's primary election Feb. 24 is the nation's first.

In Gilford, Reagan told about 500 persons that busing — "a social experiment at the expense of the children" — had failed and had caused bitterness among both blacks and whites.

He reiterated his proposal to transfer a variety of federal social programs to the states, repeating his assertion that political opponents have distorted the plan.

Ford's backers have criticized the plan, saying it would result in new state taxes.

## Man Killed As Pickup Overturns On Freeway

ANAHEIM — One Garden Grove man was killed and another seriously injured Wednesday when their small pickup truck overturned on the Santa Ana Freeway south of Brookhurst Street after being struck by a larger truck which blew a tire, the CHP reported.

Investigators said a passenger in the small truck, Jack Parker, 24, of 12661 Lewis St., was pronounced dead at the scene of the 12:30 p.m. accident.

Ernie Sanders, 21, of 13232 Blue Spruce Ave., the driver of the small truck, was reported in guarded condition today at Anaheim Memorial Hospital.

Officers said both trucks were southbound when the larger truck blew a tire and slammed into the pickup, causing it to overturn. Parker and Sanders were thrown out of the pickup.

The driver of the larger truck was not injured and no charges are contemplated against him, the CHP said.

## Workshop Set At Law College

FULLERTON — A "mini-workshop" covering commercial lease agreements and the proper use of pre-trial questionnaires will be held Saturday at Western State University College of Law.

The 9 a.m. to 1 p.m. session is sponsored by the county division of the American Paralegal Association. Registration is \$15 for persons who are not members of the association.

The college is located at 1111 N. State College Blvd.

St. Eustatius, Netherlands Antilles, was the scene of the first salute by a foreign power — Dutch — to an armed brigantine flying the Great Union flag of the fledgling American republic.

SACRAMENTO (AP) — The state legislature should investigate Pacific Gas & Electric Co.'s alleged failure to report earthquake hazard potential at nuclear power plant sites, a Senate committee was told this week.

## Cannot Trust U.S. Defense, Belgian Says

BRUSSELS, Belgium (AP) — Belgium's defense minister says Europe can no longer rely on the United States for its military protection and that the Soviet-proclaimed effort to ease tension between the East and West is a dangerous illusion.

"Europe can no longer satisfy itself by trusting the Americans," Paul Vanden Boeynants said in a speech made available today. It was delivered privately to a conference of Christian business executives Wednesday.

"Today we are eating out of the Americans' hand," he said. "What will become of us if the United States' nuclear umbrella were to disappear tomorrow? We'd be in real trouble."

"Europe must unite not only politically but also militarily," he said. "It is a necessity for our security."

A transcript of the tape-recorded speech, before the Political Center for Self-Employed Christian Executives and Independents, was obtained from Vanden Boeynants' spokesman after excerpts from it appeared in a Belgian daily today. The club regularly schedules seminars and conferences.

Accusing the Soviet Union of "aggressiveness and expansionism," Vanden Boeynants condemned the reluctance of the North Atlantic allies to strengthen their armies in the face of the Soviet Union's continuous military buildup.

be shut down," said Davin, who added: "The NRC doesn't recommend a plant shut down. If they want a plant shut down, they order it done."

Davin said PG&E withdrew its Mendocino County Coast nuclear power plant plans when it suspected the existence of a dangerous offshore fault.

As for Diablo Canyon, Davin said, "We've always suspected active offshore faults, and we reported it in our original, final safety analysis report."

He said accounts of the Hosgri fault appeared in newspapers as long ago as November 1973.

The nuclear power plants initiative would require unlimited liability of utilities in the event of nuclear plant accident, which now has a \$560-million per accident ceiling under federal law.

It also would require the legislature, by two-thirds vote, to approve safety systems for wastes and recycling of fuel before a new plant could be built. It would phase out existing plants that could not meet such criteria.

Pesonen, chairman of the pro-initiative Californians for Nuclear Safeguards, testified that PG&E has an "unbroken record of incompetence or deliberate cover-up" of earthquake faults at plant sites.

"Full geological surveys are a responsibility of the utilities as part of the atomic plant licensing procedures," Pesonen said. "But PG&E geological reports covering plant sites at Bodega Bay, Mendocino County Coast, Humboldt Bay and Diablo Canyon all failed to mention active earthquake faulting."

"In each case, geologists not related to the utility later discovered the earthquake faults that the utility failed to disclose," he said.

Pesonen, questioned by the committee, said he had "no direct evidence of a cover-up" involving the Diablo plant, which has a first unit 96 per cent complete near San Luis Obispo.

He said the Hosgri fault offshore runs from 80 to 150 miles and has the capability of a seven-magnitude quake that would "tear apart" the plant.

Dick Davin, PG&E spokesman in San Francisco, said the utility's report does not indicate that a quake from that fault would be severe enough to damage the plant.

Pesonen also said that the Nuclear Regulatory Commission has recommended that the Humboldt Bay plant "be shut down immediately" because of earthquake faulting.

"We know of no such recommendation that the plant should

## Brown Lone Holdout To Autograph Seeker

SACRAMENTO (AP) — Linda Jackson, 11, of Rome, N.Y., says she has collected the signatures of all the governors of the United States except one — Gov. Edmund Brown Jr. of California.

And there's little chance that Linda's Bicentennial year project will ever be completed.

Linda's request to Brown for his signature and some small memento for her hometown museum drew only a pleasant "sorry" from Albert C. Johnson, director of the state Bicentennial Commission.

"The State of California sim-

ply doesn't have the money to do this," Johnson explained.

A Brown press aide, David Jensen, explained Tuesday: "Basically, the governor doesn't give autographs. He got maybe a thousand requests for this kind of thing last year. It's akin to his policy on sending out photographs — he feels it tends to create a personality cult."

Asked if the 37-year-old Democrat might help Linda complete her project, Jensen replied, "I wouldn't expect him to."

## Lady Luck Down On Irish Sweeps

DUBLIN, Ireland (AP) —

The Irish Sweepstakes is in financial trouble, a victim of inflation and competition from state lotteries in the United States.

The Hospitals Trust, which has turned over half a billion sweepstakes dollars to Irish hospital charities in the lottery's 45-year history, says the operation might fold unless the Irish government lets it change radically. If it does, it is likely to lose most of the American customers it still has.

The trust has applied for permission to convert the sweeps, now based on several big British and Irish horse races, to a weekly national lottery.

## TRIBAL ROLLS MUST BE COMPILED

## Seminoles May Have To Await Money

MIAMI BEACH, Fla. (AP) —

The Seminole Indians, who have agreed to a \$16 million settlement for their 150-year-old claim to Florida may have a few years before they are paid, their lawyer says.

"There's no way of telling how long the Bureau (of Indian Affairs) will take" to compile the necessary tribal rolls for paying the Seminoles, says attorney Roy Struble.

Struble said the deal "undoubtedly will be approved" by the Indian Claims Commission

and then be sent to Congress, which previously agreed to pay any settlement reached in the dispute.

"Congress automatically puts it in their supplemental budget," he said.

The 71-year-old lawyer who guided the tribe's case through the federal bureaucracy for 17 years said he will get legal fees of \$1.6 million. He will split it with three other lawyers who worked on the case.

But for Struble, who spent 25 percent of his time and \$35,000

of his money on the case, it's the satisfaction that counts.

"The main thing I'm pleased about is that justice was done," said Struble, whose law practice is primarily trust and probate work.

"There is no one more deserving than the Seminoles. They are really strapped for money, and they are a people of great dignity. I don't know of a single non-Indian client who would have the patience to wait 25 years for a settlement."

Since 1949, the Seminoles

have been pressing their claim to 32 million acres of land they lost through broken treaties and force of arms. The tribe will receive about 50 cents an acre for land that includes Disney World, Cape Canaveral and this strip of sand dominated by high-rises, tourists and retirees.

The 4,000 to 12,000 Seminoles in Florida and Oklahoma had sought \$47 million for land seized during the Seminole Wars of 1823 and 1832, and under the Indian Removal Act of 1840.

## U.S. May Demolish Nixon's Helipad

WASHINGTON (AP) — The federal government says it may have to demolish a \$418,000 helicopter landing pad built at Key Biscayne, Fla., for President Richard M. Nixon because it will be difficult to sell.

The 150-foot square helipad was built on concrete pilings over Biscayne Bay, making it difficult to move elsewhere.

"It may be determined that it is a hazard to navigation," GSA officials acknowledged it would be difficult to sell the helipad. However, Culppepper said that no effort has been made so far to sell it.

"Our first step will be to offer it to federal agencies. We'll see if any of them have a need for it. If not, we'll offer it to state and local governments. Only then would we put it on sale to the general public," he said.

Meanwhile, the GSA, the federal government's housekeeping agency, has disposed of a guard house that once stood at the entrance to the Nixon compound at Key Biscayne.

"We decided a year ago to donate the guardhouse to Dade County with the understanding that it be used for public purposes," Culppepper said.

The county has moved it to its parking lot by the courthouse.

Quincy Culppepper of the General Services Administration's Atlanta regional office said in a telephone interview. "We haven't decided what to do with it. We may try to sell it and we may have to demolish it."

GSA officials acknowledged it would be difficult to sell the helipad. However, Culppepper said that no effort has been made so far to sell it.

"Our first step will be to offer it to federal agencies. We'll see if any of them have a need for it. If not, we'll offer it to state and local governments. Only then would we put it on sale to the general public," he said.

Meanwhile, the GSA, the federal government's housekeeping agency, has disposed of a guard house that once stood at the entrance to the Nixon compound at Key Biscayne.

"We decided a year ago to donate the guardhouse to Dade County with the understanding that it be used for public purposes," Culppepper said.

The county has moved it to its parking lot by the courthouse.

## Rail, Airline Clerks

### To Appeal Dues Limit

SAN DIEGO (AP) — The Brotherhood of Railway and Airline Clerks says it will appeal a court ruling that prohibits use of compulsory union dues for political purposes, charity or union organizing.

The decision was hailed by the National Right to Work Legal Defense Foundation, Inc., which filed the suit on behalf of 22 employees of Western Airlines.

The ruling by U.S. District Court Judge Leland C. Nielsen last week upheld their claim that legal rights under the U.S. Constitution and the Railway Labor Act were violated by such use of compulsory union dues "over their written objections."

## THOUGH MILLIONAIRE

## Old Man Carries Frugality To Grave

BIRMINGHAM, Ala. (AP) — The old man lived frugally, specifying that he be buried in his pajamas in the cheapest casket available, with no flowers, music or mourners at his funeral.

But when Allen W. T. Davis died last Thursday at 94 in the 14th-floor hotel room where he had lived since 1927, he left about \$1 million to charities in three states.

"He was one of a kind. He was absolutely niggardly about spending money on himself," said his stockbroker, Dick Wasson.

It was through stocks that Davis accumulated his fortune, parlaying a \$4,000 inheritance in 1942 into his portfolio.

A minor part of the estate was left to eight friends, with the rest to be divided equally among the Kentucky Lions Eye Foundation in Louisville, the Mid-South Lions Sight Service in Memphis, the Birmingham Eye Foundation and Goodwill Industries here.

Executors said it will be some time before the exact amount of the estate is known because the money is tied up in a number of stocks.

Davis originally was from near Lexington, Ky., where his father was a wheat dealer. He attended Birmingham Medical College in the early 1900s but dropped out because of poor health. Later he did a variety of things, including the selling

of pharmaceuticals in Michigan and working in the hearing aid business in New York City.

He and his wife, from whom he was divorced many years ago, had no children.

Wasson said Davis was "superintelligent, a professional trader."

The assistant manager of the restaurant in the building where Davis lived, Glendolyn Wilson, made sure he got his meals. Once, she said, Davis fell and suffered a carpet burn on his leg. She went to check on him and asked if she could borrow a few dollars. He promptly handed it over but took the money back when he realized she was going to use it to get medicine for him.

"He washed his own clothes," Mrs. Wilson said. He recently gave her two silver spoons and told her never to lose them.

"He would deny himself not to run up a bill," his doctor said.

Davis ate lightly, mostly boiled eggs and grits, but drank large quantities of a special concoction of whisky and honey with a touch of lemon juice.

His doctor said Davis had some trouble hearing but none with his eyesight, and no one could say why he picked eye foundations as his beneficiaries. Davis kept a sign on his door which read: "If you haven't called me from the lobby, don't knock on this door."

## Millionaire Dies Amid Cockroaches

MIAMI BEACH, Fla. (AP) — An 87-year-old man refused to bathe or change clothes and died surrounded by old newspapers and covered with cockroaches. But he left an estate worth at least \$1.5 million, police say.

"It's a tragedy. The man could have lived so well," said Detective Sgt. Emery Zerick. "He could have had the nicest place in Miami Beach on just the interest."

Police found David Gelgor dead last week in his retirement hotel in a room containing no money, television or radio. There were stacks of old papers, the lingering smell of urine and excrement, stocks, bonds and bank statements.

"I added some of them up to \$1 million myself," Zerick said. Some of Gelgor's old friends told police he once owned a lav-

ish estate in New York 25 years ago and sold it.

Included among Gelgor's papers was a 1965 will leaving bequests of \$50 and \$100 to cousins, nieces and nephews and \$300 to a friend in New York. The rest of the fortune was left to organizations and schools in Israel. A New York accountant was named administrator of the estate.

One of the documents in the rubble was a diploma indicating Gelgor held a doctorate in engineering. But there was no immediate explanation as to how Gelgor made his fortune.

Alma Siegel, who managed the Miami Beach retirement home where Gelgor lived for eight years, said no one had ever come to the home to ask about Gelgor or his health.

## BY ARMY SECRETARY

## Fired Officers' Recall Refused

WASHINGTON (AP) — Army Secretary Martin R. Hoffmann on Wednesday refused to recall to active duty thousands of career officers who were dismissed from service as a result of improperly convened military promotion boards.

Hoffmann instead ordered the creation of special boards to reconsider promotions for about 5,500 captains, majors and warrant officers who are now civilians.

Hoffmann agreed with the findings of a five-member civilian review panel which said the manner in which the original promotion boards were convened "has resulted in an injustice to the applicants."

The controversy stems from an Army policy of releasing career officers who are twice passed over for promotion.

An organization of ex-officers called the Promotion Research Committee discovered last year that the Army had not placed both reserve and regular officers on promotion boards convened in 1974 and 1975.

Pentagon officials said that under Hoffmann's decision only a handful of the 5,500 ex-officers are likely to return to their interrupted military careers and be promoted to major, lieutenant colonel or senior warrant officer grades.

Robert Wright, an attorney for the Promotion Research Committee, said he was pleased that Hoffmann acknowledged that the promotion boards were defective.

Federal law requires that reservists be among those decid-

ing on who will be promoted.

Pentagon officials acknowledged that it could be several months before the new promotion boards take any action. Meanwhile, some of the fired officers are seeking to start new careers as civilians.

Wright said, "The problem we have is people living in hotel rooms and motels who don't yet know what to do with their lives."

He said many have taken out 90-day health insurance policies for their families.

Wright said he will probably ask the Army Board for Correction of Military Records to arrange for payment of back-pay and benefits for all the former officers whether or not they get promoted under Hoffmann's ruling.

**BLACK JACK HITS 29** — Black Jack, best known as the caparison horse in the funerals of three presidents, John F. Kennedy, Lyndon B. Johnson and Herbert Hoover, takes a bite of his 29th birthday cake offered by Mrs. Michael Schado, left, at Ft. Myer, Va., Wednesday. For the past 12 years Mrs. Schado, wife of a retired Army officer, has arranged parties for Black Jack.

## India Press Faces Tough New Controls

By MYRON L. BELKIND  
Associated Press Writer  
NEW DELHI, India (AP) —

The Indian Parliament approved legislation today barring publication of anything the government considers objectionable.

The key lower house voted 146 to 27 in favor of the bill, which provides for penalties that include jail terms of up to a year, seizure of objectionable publications, closure of presses and the making of security deposits.

The passage completed action on three key press bills that were originally promulgated by the government in December when Parliament was not in session. Prime Minister Indira Gandhi declared a national emergency last June 26.

The other two press bills — abolishing the 10-year-old Press Council and removing immunities on press coverage of parliamentary proceedings — were passed by the lower house on Wednesday.

All the bills will next be considered by the upper house, which is expected to give its approval next week. Both houses are controlled by the ruling Congress party with large majorities.

Opposition members charged during the five-hour debate spread over two days that the legislation on objectionable publications struck at the roots of democracy.

"It goes against the grains of decency and of democracy," said Hiren Mukherjee, a leader of the pro-Moscow Communist party of India.

The key clause in the bill says that the expression of "objectionable matter means any

words, signs or visible representations likely to bring into hatred or contempt, or excite disaffection toward the government established by law in India or in any state thereof and thereby cause or tend to cause public disorder."

Publication is also banned of anything that is defamatory of the president of India, the vice president, the prime minister, the speaker of Parliament and the governors of the states.

At the urging of the Communists, the government dropped a reference in the original bill which stated that the Council of Ministers — the central cabinet and deputy ministers — also would be protected from defamation by the press.

## Trudeau Hears Cuban 'Vivas'

CIENFUEGOS, Cuba (AP) — "Long live Cuba and the Cuban people! Long live Cuban-Canadian friendship!" visiting Prime Minister Pierre Elliott Trudeau shouted in Spanish Wednesday to 20,000 sweltering Cubans here at Cuba's largest sugar-shipping port.

The crowd roared its approval and chanted "Viva! Viva!" in reply. They had the day off from work and school and were transported in cars, buses and trucks to this new terminal on Cuba's south coast.

Cuban Prime Minister Fidel Castro preceded his Canadian visitor, lauding Canada and Mexico for maintaining normal relations with Cuba during and after the 1959 revolution, when the United States and most Latin-American countries imposed a boycott on Cuban trade.

## O.C.M.A. PANEL SAYS

## Solid Front Urged For State's Doctors

Unification of the state's physicians is necessary for legislative solutions to the malpractice insurance cost problem, members of the county medical association executive committee agreed Wednesday, the doctors' deadline for payment of insurance premiums.

Dr. Charles Plows, president of the Orange County Medical Association (OCMA), said the county's delegation to the California Medical Association's convention in San Francisco

next month will promote a platform all doctors will support. "We're going to try to push for a unity of purpose," Dr. Plows said. "Right now there are so many different proposals and insurance companies being formed, we need some cohesiveness."

He said many of the doctors probably paid their premiums Wednesday for the first quarter — three months — while hoping for progress to be made in Sacramento.

"Hopefully, we will not have to endure the high premiums beyond the first of April (the end of the quarter). That's plenty of time for the legislators to enact some reforms," he said.

OCMA will push for a method of reducing the premiums, to be followed by legislation for reform of the tort civil, non-criminal wrongdoing system. "Premium reform without tort reform is meaningless," Dr. Plows said.

He said the county's 18-member delegation, the third largest in the state, will be one of the most unified at the convention. "We physicians here in Orange County have shown cohesiveness not demonstrated elsewhere in the state."

The executive committee Wednesday gave its formal support to the 12 legislative proposals put forth by the California Medical Association. These include a limitation on physicians' liability, compulsory arbitration subject to appeal, panels to screen claims against physicians, the creation of specialty courts for malpractice lawsuits and a limitation on awards for pain and suffering and punitive damages.

Plows added that data about numbers of Orange County doctors who renewed their insurance by Wednesday would be available in a few days.

## Collegians Teach Environment Awareness To OC Youngsters

By VICKI LIBERMAN  
Register Staff Writer  
FULLERTON — Several Fullerton College students believe studying environmental problems should be much more than memorizing terms and reading textbooks.

In an internship program called Environmental Concerns,

11 students have attempted to increase environmental awareness by appealing directly to elementary school students throughout Orange County.

According to instructor Mark Parratt, who directs the two-unit program, students feel "an informed younger generation can greatly help in solving the problems the environment faces today."

"Since these children will readily copy the examples of adults, it is time we as adults began to practice a positive 'ecological conscience.'"

Students who participate in the program have presented lectures and demonstrations on environmental awareness to more than 4,700 elementary students (ages 6 to 12) in Orange County.

The program was initiated last September when Parratt

sent letters to every school district in Orange County explaining the program. "The response was overwhelming," he said. "Our interns have been working steadily, but they haven't been able to keep up with lecture requests."

Parratt said 40 schools were on the waiting list for lecturers this semester. "We really need interested students and support people to do research for credit."

The only prerequisite for the course is "an interest in communicating to young people about the environment," according to Parratt. "Interns don't need to have any experience in teaching or even in life science."

Bob Bavis, a freshman who says he has received over 100 thank-you letters from students, gives presentations on desert ecology and glacier geology.

"I've learned how to speak to a group, how to handle a large group and how to give an interesting presentation," Bavis said.

Intern Cecilia Lane believes children who are interested in ecology today could be the environmentalists of tomorrow. "I learned I could do something about improving the environment without being radical," she said.

## Counseling Under Way At 'Straight Talk'

By MARTIN BENTSON  
Register Staff Writer

CYPRESS—The Straight Talk Clinic is starting new counseling and training programs to help youths and adults in trouble.

About 175 persons with problems received 270 counseling sessions during December at the clinic, 5732 Camp St. Housed in a residence leased from the city, the clinic is primarily a family counseling service.

Open to anyone in Orange County, the clinic also handles a variety of other problems such as emotional, alcohol, drugs, and referrals from police, probation department and schools.

In addition to its present services, the clinic is expanding its activities to include programs for parent effectiveness training, women's awareness, single parents and senior citizens.

"An exciting venture being planned is a cooperative program with the Cypress Boys Club," said Wayne Kiser, newly appointed executive director. "Some of the boys coming here don't need counseling; they need interaction with Boys Club members."

The facility is open from 10 a.m. to 10 p.m. on Mondays and from 2 to 10 p.m. Tuesdays through Fridays.

# Mintz, Liberace Return; Bill Welsh Remembers Early TV Pitfalls

By GARY LYCAN

Elliot Mintz, the air personality who was so popular here a year or so ago a cult following called the American Irregular Guild formed around him, is back on Orange County radio.

He's on KEZY 1190 AM and 96 FM, but perhaps in keeping with the group he founded while at KABC, his air hours are irregular.

The Southland's valley sta-

tion, KGIL 1260, has slotted his short show at 10 and 11 p.m. Monday through Friday, 9 and 11 a.m. Sundays.

Mintz debuted this week with a series on John Lennon. The 14-part interview is aired as part of Earth News, the largest sponsored radio news syndication in the nation, with more than 300 stations carrying it.

But don't let the word "news" fool you. This is pure entertainment. Mintz honed his skills as a popular talk host on KABC and KLOS. Now he'll produce and voice one week-long feature on a superstar each month.

Mintz fans could write KEZY or KGIL, but would probably have better luck writing him at Earth News, 1515 Crossroads of the World, Hollywood 90028. As for The American Irregular Guild, its last address was 8831 Blossom Ave., Garden Grove 92641.

Irving Fein, executive producer of Jack Benny's show and

**SCRIPT CUE** — Mercedes McCambridge portrays a neglected wife who tries to overcome her unhappiness by betting on the horses in the rebroadcast of "The Other Life" on CBS Mystery Theater, 9 p.m. next Wednesday on KNX-1070 AM.

author of the new book, "Jack Benny," visited with Tom Snyder on NBC-TV's Tomorrow show Tuesday night. That story next week.

Star Trek conventions have become a national pastime. The series is on at 5 p.m. week-ends on Channel 5 and to be Snyder's topic, 1 a.m. next Wednesday. Enter Caedmon Records, which is signing up the

show's cast to help launch an ambitious program of science-fiction releases.

Leonard Nimoy voiced on album on Ray Bradbury's "Martian Chronicles" last year. Last week a second Nimoy LP was issued on Bradbury's "The Illustrated Man," and William Shatner made his debut voicing Isaac Asimov's "The Foundation." "War of the Worlds" is next on the horizon. If you're interested and record stores don't have the releases, write Caedmon Records at 505 Eighth Ave., New York 10018. P. S. Los Angeles will host a Star Trek convention April 16-18 at the Marriott Hotel near International Airport.

Frank Sinatra and Milton Berle headline an all-star varie-

ty show Friday night at the Convention Center's Anaheim Long Beach Arena. Proceeds go to the Long Beach Police Officers' memorial fund, which has been depleted by payments to the widows and eight children of three officers killed in the line of duty in the past four months.

Orange County's sodes from his black and white own Righteous Brothers will be back here Feb. 6-7 with shows at 8 and 11 p.m. in the Anaheim

Liberace returns to TV at 8 p.m. Saturdays on KTTV, sandwiched between Lawrence Welk and Hee Haw. These are episodes from his black and white series in the 1950s. The enter-tainer shuns variety shows, saying he prefers playing piano to

participating in un-funny come-dy skits. For newer audiences, this is an opportunity to see the shows that turned Liberace into a star.

While at Channel 11, did you know Bill Welsh recently marked his 25th year with KTTV? When it comes to an-

## Bright decorating ideas

Lighting fixtures can do so much more than light your home. Lighting can blend discreetly with your decor like this economical bedroom square (A). Or act as an elegant accent on its own, whether lighted or not, like these jewel-colored swags (B) in amber or green. In the bathroom a double swag will give balanced grooming light while it complements your decorating scheme (C). For a contemporary look with a touch of nostalgia, choose a cane swag (D) in natural, yellow or white. And for an elegant dining room, accent, a five light chandelier (E) from the Centennial group. It's polished brass, wood, and patterned glass recall yesterday's elegance and warmth.

## Nostalgia

Continued From Page B4  
nouncing events, you might say there has never been a rare Welsh bit — he has covered 66 different kinds of sports, in addition to scores of feature events.

Welsh is probably best known as the Rose Parade announcer for KTTV. Or if you were here in the 1950s and 1960s, you watched Welsh daily in the summertime when he hosted the endless hours of coverage at the then Miss Universe Pageant in Long Beach. Or 2 1/2 hours of Jalopy Derby on Sunday afternoons. Or when he hosted "Space Patrol" re-runs in the late 1950s.

He was to KTTV what Dick "Whoa Nellie" Lane was to KTLA. In 1946, when there were only 300 TV sets in Los Angeles, Welsh left radio to announce at KTLA. On Jan. 1, 1948, he was the first sportscaster to announce the Rose Bowl game on television. Later that year, he kept a 27 1/2-hour vigil at a well in San Marino where little Kathy Fiscus was buried.

In 1949, he went to Channel 9 (then KFI-TV) to host a three-hour live program daily and began free-lancing at KTTV. On Oct. 3, 1950, he began fulltime at Channel 11.

Two incidents stand out in Welsh's mind about the early day pitfalls of live TV. On one occasion, Bill and his crew drove to a dangerous vantage point to report on a blazing brush fire. After the equipment was unloaded and set in place, Bill lined up an interview with the fire chief. All systems were go, until Bill asked for the microphone. Seems no one thought of bringing it.

On another occasion, Welsh went to cover a shootout at an Inglewood cafe. "I did most of the telecast hiding behind the truck. Finally, I decided, if Brenda Starr can do it so can I, so I boldly emerged from behind the truck...and was unceremoniously tear gassed."

**Fred Woodruff's Big Band Scene**, 4 p.m. Saturdays on KTLN 88.1 FM, goes all-stereo this week with an in-studio program featuring British band-leader Ray Davies... Mark Sudock's Top of the Mark at 7 p.m. next Tuesday highlights Peggy Lee's new album... the station will hold an open house 5-8:30 p.m. next Wednesday while airing a special program on the station itself from 5:30 to 6 p.m. The New Orleans Jazz Club of Southern California will host Jake Porter and his Hollywood Jazz Band at 3:30 p.m. Sunday in the Elks Lodge, 1451 Brea, Fullerton... SHOP TODAY ONLY 10:00 AM TO 9:30 PM; MONDAY THROUGH SATURDAY 9:30 AM TO 9:30 PM... SUNDAY 10:00 AM TO 6:00 PM...

CBS Mystery Theater, 9:08 p.m. Sunday through Saturday, KNX 1070 AM.

Today, "Portrait of Death," starring Rosemary Rice and Tony Roberts, with E. G. Marshall, host (rebroadcast). Violence and murder erupt when a young American art student tries to acquire, in Venice, a painting by the Italian master, Raphael.

Friday, Jan. 30, "Castle Kerfol," starring Mercedes McCambridge. An adaptation of an Edith Wharton ghost story in which the ghosts are not ghosts of people but ghosts of dogs.

Saturday, Jan. 31, "The Special Undertaking," starring Jada Rowland and Don Scardino (rebroadcast). The tinkling of a music box arouses an intuitive young woman's suspicions that someone presumed dead is still alive.

Sunday, Feb. 1, "Sleepwalker," starring Tammy Grimes (rebroadcast). A woman who wants to kill her husband almost kills herself.

Monday, Feb. 2, "First Prize — Death," starring Norman Rose. A sociologist considers committing murder in order to win his profession's most prestigious medal of recognition.

Tuesday, Feb. 3, "The Dead Deserve To Rest," starring Jennifer Harmon. Widowed minutes after her marriage, a young woman takes her million-dollar settlement to New York where a phony spiritualist does his best to relieve her of it.

Wednesday, Feb. 4, "The Other Life," starring Mercedes McCambridge (rebroadcast). A neglected wife tries to overcome her unhappiness by betting on the horses — causing her only more unhappiness.

## Nostalgia Radio

(Continued From Page B5)

Hines on Jazz Revisited, 3:30 p.m. Saturday on KLOS 88.1 FM. . . Ed Heider is hosting a Sunday afternoon show on KFI 640. . . opposite him on KRLA 1110 is Robert Q. Lewis, 5 to 6 p.m. . . Dr. Demento was recently moved back to 7-11 p.m. on KMET 94.7 FM and was that Jungle Judy heard not long ago? . . . The World of Stan Kenton is 3-6 p.m. Thursdays on KPCC 89.3 FM. . . If you're in the mood for drama Sunday evenings, there is Radio Theater, 10:30 to 11:30 p.m. on KLOS and Hearst Theater at 12:05 a.m. on KFI. . .

Big band buffs will probably enjoy "The New Paul Whiteman Orchestra," a Monmouth Records release. Variety says the album harks "back to the richly textured, swinging sounds of the . . . orchestra . . . of the 1920s."

Weekend TV note: Fury, the story of a horse and a boy (Joey), is on at 8 a.m. on Channel 9. Later, at 1:30 p.m., William Boyd returns to the small screen as Hopalong Cassidy.

MAILBAG: L. C., Garden Grove, asks if any of the Bill Stern sports programs are available on albums like other old radio shows. Any readers with information can drop a line here.

Questions or comments welcomed. Write: Gary Lyan, Nostalgia Radio, 625 N. Grand, Santa Ana, CA 92701.

## Deep Springs

(Continued From Page B4)

from Washington, D.C., told me his father had been in one of the early classes at Deep Springs. A Scot with a red beard, Christopher L. Campbell, of Bonita, Calif., patiently interrupted a discussion on literature to answer my questions. He and his classmates seemed almost amused when I asked why they had chosen to come here.

"You have to be a bit adventurous," one conceded. "But it's the damndest learning experience I could ever imagine. It goes on seven days a week, and it's intensive. There's no place to hide."

They disappeared to the study lounge by 6, and Reid walked with me toward my car.

"Not many college heads have an institutional concern with the price of beef," he said.

"We have 200 cattle and three cuttings of alfalfa each year. We have to survive. The students walk by the bull and threaten him with being hamburger if he doesn't produce calves."

# DOCTOR SAYS

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — Is there anything that will heal an open ulcerated varicose sore on the leg? Also what causes this? Is it hereditary?

DEAR READER — The skin breaks down and an ulcer forms because the area is not getting enough oxygen. The dilated varicose vein allows blood to stagnate in the tissues. Since the stagnant venous blood contains only a little oxygen, and swelling interferes with the movement of oxygenated blood into the area, the tissues lack oxygen. We call this "stagnant hypoxia."

The cause of the ulcer then, is the poor venous circulation caused by the dilated varicose veins. The treatment is directed toward prevention of pooling of stagnant venous blood. Such an ulcer would heal if you could stay in bed with the foot up so no blood would pool in the foot, but that is not very practical in most cases. The ulcer would recur when you got up.

Various pressure garments are often useful to help prevent pooling of blood and swelling. In many cases surgery is necessary to remove, or at least improve, the situation with the varicose veins.

There is a familial tendency to have varicose veins. Even so, you can do things that help prevent them. That includes avoiding constricting garments, particularly around the thigh, using support hose, if your occupation requires long hours of standing and getting off your feet when you can.

For more information on varicose veins send 50 cents for The Health Letter number 5-8, Varicose Veins. Enclose a long, stamped, self-addressed envelope for mailing. Address your letter to me in care of this newspaper, P.O. Box 326, San Antonio, Texas 78292.

DEAR DR. LAMB — I have an inactive thyroid and have taken three grains of thyroid for a number of years. My doctor just finished giving me the thyroid scan and the test shows my thyroid is still inactive and he has increased the thyroid.

I would like to know if there is anything that would make my thyroid active again or do I have to take pills the rest of my life?

I have a weight problem so I have to diet all the time and I am terribly sluggish.

DEAR READER — After a person has been taking thyroid in large amounts for a long time the thyroid often remains relatively inactive. Occasionally by using hormone preparations that activate the thyroid it can be stimulated. The thyroid is normally stimulated to action by a hormone (thyrotropic hormone) from the small pituitary gland under the brain.

Some patients do better on one thyroid preparation than on another. Your doctor may decide in time, depending on your response, to try one of the synthetic hormones.

Usually it is possible to provide enough of the most suitable hormones to totally replace the function of the thyroid gland. When that is achieved any sluggishness and weight problems caused by a low thyroid function can be controlled. Not all sluggishness and weight problems are caused by low thyroid function, though.

(NEWSPAPER ENTERPRISE ASSN.)

## Air Force Ace At Luncheon To Honor Cadets

NEWPORT BEACH — The first and only Air Force pilot ace since the Korean War will speak at the Air Force Association's mid-year conference luncheon at Marriott Hotel here Saturday.

Former Maj. Steve Ritchie, who shot down five Russian-built MIG-21's in Southeast Asia in 1972, will discuss the importance of preparation, teamwork, discipline, dedication and patriotism to the America of today.

The luncheon, hosted by Orange County's Gen. Curtis E. Le May Chapter of the AFA, will honor three outstanding county junior Air Force Reserve Officer Training Corps (AFROTC) cadets, Thomas Cowan of El Dorado High School, Placentia, Henry Castano of Anaheim High School and Steve Shrader of Mater Dei High School in Santa Ana.

The cadets were selected by their individual schools on the basis of their dedication, attention to duty and high moral character.

# MOST STUDENTS BELIEVE THERE'S 'TRUE EVIL' IN SOME HEARTS

By The Editors  
Of Scholastic Magazines  
A 74-per cent majority of students recently surveyed by Scholastic Magazines believes that there is "true evil" in the hearts of some people.

Of the 38,000 junior and senior high school respondents, 74 per cent believe "true evil" exists, and 26 per cent do not.

"Some people are really born

evil," says 16-year-old Pamela Sloane of Roxbury, Mass. "I think it's a kind of craziness. They just come in and do bad." The question of whether some people are intrinsically evil is an age-old, philosophical one that has been debated by many generations and, more recently, by psychologists. Nevertheless, it has a direct bearing on some of today's more pressing social

issues — among them, the question of how criminals should be treated.

If some people are innately evil and thus a constant threat to society, the argument runs, they should be sentenced to long-term confinement. On the other hand, if all people are basically good but some do evil because of the influence of external conditions, they can — and should — be rehabilitated and eventually readmitted into society.

Recently, Scholastic asked: "Do you think there is such a thing as true evil in the hearts of some men and women?"

In a rare unanimity of opinion, the percentages for boys and girls are identical. Seventy-four per cent of both sexes believe some people are "born to be evil," and 26 per cent of both sexes do not.

Most have firm and fairly developed opinions on the question, no matter which way they vote. "Evil isn't something that you have to attain," says 17-year-old Mark Potest, a senior of Appalachia, Va. "You don't pick it up like a bad habit. No sir. There are evil people, and they're born that way."

"Over the holidays there was this story all over the TV about how this woman and her boyfriend were supposed to have killed her kids," says Norma Weiss, 16, of New York City. (According to police and newspaper reports, the alleged murder involved a 2-year-old boy and his 4-year-old sister. The mother allegedly first sought to throw police off the trail by saying the children had disappeared in a department store crowd, police said). "That's got to be pure evil. Nobody but nobody, no matter how badly they've been treated themselves, could work up to that. It

had to be there from the start." "In everybody," says Anita Long, 14, of Pennsylvania. "It's the people around them that they learn evil from."

Yet religion has not swayed. (Please Turn To Page B12)

# Your Horoscope

By JEANE DIXON

**FRIDAY, JANUARY 30** Stifle emotional outbursts. Your birthday today: Keep the future in mind. A slow change is profitable. This is the year to streamline and update your style of living, simplify your daily rounds and dispense with systems that are cumbersome to administer and objects you no longer use. Relationships from a previous phase thin out and new ones are difficult to establish. Spiritual growth is virtually spontaneous. Today's natives take a tolerant viewpoint, tackle and solve their problems from unorthodox angles.

**Aries [March 21-April 19]:** Friends are congenial and generate so much fun that it's difficult to get things done. Extra work yields extra benefits. Square off existing accounts and get all figures up to date.

**Taurus [April 20-May 20]:** Business picks up in somewhat unsettled conditions. Treat each deal as though it were one of a kind. Schedules are hard to carry out, but don't worry. Concentrate on chores.

**Gemini [May 21-June 20]:** You're in luck if you listen and say very little. Valuable information comes at you from all sides. Associates think you know more than you're actually being told.

**Cancer [June 21-July 22]:** If you share anything with anyone, be sure you see eye-to-eye beforehand. Money escapes notice long enough to wreck budgets. Beware of extreme ideas.

**Leo [July 23-Aug. 22]:** Critical comment causes you to act without thinking.

**Virgo [Aug. 23-Sept. 22]:** When plans go haywire, don't expect help from others. Pull the pieces together to reorganize a simple, constructive operation. Impatience won't help.

**Libra [Sept. 23-Oct. 22]:** Whatever is new in your house or work place attracts extra attention. Be prepared to fall back on older methods while newer ones are readjusted.

**Scorpio [Oct. 23-Nov. 21]:** You're the target of much persuasion. Be skeptical of good and bad news until you verify the facts. If you have specific appointments, have optional courses ready.

**Sagittarius [Nov. 22-Dec. 21]:** Everyone wants to find out what is happening without telling any of their own secrets. Be discreet while you reflect upon strange news.

**Capricorn [Dec. 22-Jan. 19]:** What looks like a sound investment may have slipped through a crucial monitoring point without adequate confirmation. Be careful of the kind of scheme you get into.

**Aquarius [Jan. 20-Feb. 18]:** Your complex plans are tested as you run into opposition. People fritter away time while asking for details. Impulsive actions only upset matters.

**Pisces [Feb. 19-March 20]:** This can be a worthwhile, productive day if you mind your own business. Most people want to be left alone until they're ready to ask pertinent questions.

North-South vulnerable	

West North East South  
Pass 7 N.T. Pass Pass  
Pass  
Opening lead — 10♣

By Oswald &amp; James Jacoby

No set of teaching hands would be complete without one designed to show how to count the defender's distribution in order to make finessing easier.

North counts his 21 points three or four times to make sure he isn't the victim of some new mathematical disease and then bids seven notrump.

South looks over dummy and sees that he has to pick up the queen of diamonds to make the grand slam. His first thought is to lead his jack of diamonds at trick two and play East for the queen if West fails to cover. Second thought tells him to postpone the diamond play until he can get some sort of count on the enemy distribution.

So he cashes the top clubs and West discards a spade on the third club. He goes after hearts next and again West has to discard on the third one.

Now South cashes a second spade and East follows. Twelve of East's cards have been accounted for and none of those 12 are diamonds. South plays his king of diamonds and East follows. South knows East does not hold another diamond so South finesses with absolute certainty.

### Ask the Jacobys

A Missouri reader wants to know who invented the 4-3-2-1 point count.

The answer is that the late Bryant McCampbell of St. Louis wrote his friend Milton Work back in 1915 and suggested its use for notrump bidding. Work taught it for years and it became known as the Work count.

Charles Goren adapted it to all bidding and while he has never taken credit for inventing it, we want to give him credit for its great success. Everyone uses it today.

(Do you have a question for the experts? Write "Ask the Jacobys" care of this newspaper. The Jacobys will answer individual questions if stamped, self-addressed envelopes are enclosed. The most interesting questions will be used in this column and will receive copies of JACOBY MODERN.)

## Police Nab 7 Youths After Fight In CM

COSTA MESA—Police broke up a gang fight Tuesday among 30 youths wielding clubs, sawed-off bats and socks filled with sand, officers reported.

No one was seriously injured in the fight, but seven youths were arrested on charges of possessing dangerous weapons, amphetamines and marijuana, said Sgt. Samual Cordeiro.

Five of them, 16-year-olds from Santa Ana, were released to their parents, he said.

Officer Clyde Foreman said seven police units and a helicopter unit responded to a call for assistance from an employee of The Bag, 1145 Baker St., a recreation center.

Observers told police that those fighting were seen carrying knives and guns earlier in the day.

### Ceremony Set

ANAHEIM—Red, white and blue flowers are to be planted at 11 a.m. Friday in bicentennial ceremonies at Colony Park in downtown Anaheim by costumed students of the John Marshall School.

Flag salute will be given by the Campfire Girls Group 1 Yo Tan Deka.

## Newport-Mesa Smoking Ban Continues

COSTA MESA—State legisla-

tion allowing smoking areas on high school campuses caused a few sparks to fly here but when the smoke cleared this week the ban was still in effect in Newport-Mesa schools.

Trustees said they would resolutely their ban on smoking in March after two members called for stricter enforcement of the board ruling rather than let down the barriers under the healthy.

state legislation. Said trustee Marian Bergeson: "I would have to oppose establishment of smoking areas because such a policy would condone smoking."

Said trustee Donald Smallwood: "What we have is a major health problem which should be eliminated, not isolated to certain areas. It (smoking) is a rotten habit; it's unhealthy."

They voiced their opposition to establishment of smoking areas despite a warning from Supt. John W. Nicoll: "If we go the route of enforcement, you need to face the suspension of 200 students a week."

Trustee Orville Amburgey said such smoking areas would eliminate a lot of the enforcement problems. Fellow board members Carol Martin, Roderick MacMillan and Thomas W.

Henderson said they wanted to hear student plans for smoking areas before they made any decision.

Nicoll was directed to return to the board in March.

### Services Set On Friday For Mrs. Marquart

ORANGE—Funeral services are scheduled Friday at 2 p.m. for Lillie Schroeder Marquart, 86, a native Orange Countian who died Monday.

Mrs. Marquart, born in Santa Ana in 1889, graduated from Santa Ana High in 1908 and became a school teacher, teaching first in a one-room school in Aliso Canyon.

She is survived by a son, Wesley, of Orange, and by four grandchildren. Services are scheduled at the Ralph Shannon Funeral Home here.

## Plan To Move, Redo College Units OK'd

FULLERTON—A plan to use 13 relocatable buildings with 31,082 square feet at Cypress College has been approved by trustees of the North Orange County Community College District.

Estimated total cost of relocating, site work and refurbishing the buildings is \$330,000, said Elton Ward, assistant chancellor for physical plant and facilities. He recommended that \$115,000 for this project should be included in next year's budget.

Ward recommended that an administrative quad be developed, using five of the relocatable buildings in their present location.

He said the California Community Colleges office in Sacramento has not included funds for construction of the Cypress College administration building in the 1976-77 budget. It may be several years before the district will receive any state money to build an administrative center, he told trustees.

Ward also recommended selling or demolishing the five remaining houses on Holder Street at the northeast corner of the campus and moving two relocatable buildings to that area for the existing adult division complex.

Another relocatable building should be moved to the west side of the Anaheim Union High School campus to replace a bungalow being used by the district's adult division offices, Ward said.

One of the relocatable buildings should be moved to the Fullerton College campus for the handicapped program, he said. He also favored moving two other relocatable buildings to Fullerton College to replace the old barracks building housing the extended opportunity programs.

After all the buildings have been relocated, the vacated space should be developed for parking, said Ward. An additional 65 parking spaces could be added.

## Flood Aid Possible For Homeowners

GARDEN GROVE—Homeowners here who were required to purchase federally-mandated flood insurance may be eligible for a refund following a revision of the city's flood hazard maps.

The new maps prepared by the Department of Housing and Urban Development (HUD), show only small portions of the city to be in flood hazard areas. Earlier maps had placed the entire city in a flood hazard area.

Persons who purchased homes, made improvements in excess of 50 per cent of their home's total value or refinanced their home since July 1974, were required to purchase the insurance.

## AT ESCAPE COUNTRY

## Panel Not Opposed To Parachute Drop

NEWPORT BEACH—The county airport commission decided here this week that it had "no objection" to a use permit that would permit hang gliding and parachute jumping at Escape Country, a 820-acre commercial recreational area about eight miles northeast of the El Toro Marine Corps Air Station.

The proposal for the parachute drop zone at the park, submitted by owner James Robinson, includes an aircraft landing strip.

The strip would be used by two short takeoff and landing (STOL) aircraft to take parachutists aloft, according to Len Rosenthal, who appeared as a spokesman for Robinson.

Rosenthal said only qualified, experienced parachutists would use the area.

The proposed landing strip would be 2,000 feet long, 25 feet wide and oiled to hold down dust.

The proposal came under fire from county noise abatement

## N-M District Okays Purchase Of Equipment

COSTA MESA—Newport Mesa school trustees said an emergency exists at Estancia High School because of the inoperative air conditioner and directed staff to bypass the formal bidding process in buying new equipment.

The staff will contact five contractors for bids this week and will ask for a special board meeting for trustees to select one, Supt. John W. Nicoll said.

Cost of new equipment is estimated at between \$80,000-\$90,000, he said.

Business manager Raymond R. Schriener said repairing the unit, which has malfunctioned for three years, would cost \$19,500.

A temporary unit, costing the district \$20,000 for 90 days, was installed this week. With warmer weather ahead, the only alternatives to repairing or replacing the unit are to shorten the school day or start classes earlier, Nicoll said.

## Students Polled On 'Evil'

(Continued From Page B9) everyone who disagrees with the "born evil" hypothesis. Michael Loats, 17, of Sacramento, offers an identical argument to that of Anita, even though he says religion is not that important to him.

"People are born pure," he says, "They're naturally good until they get with society and become corrupted by it."

Michael argues that "society imposes certain things... makes people follow rules... which rub people the wrong way. In our society we have mostly WASP (White Anglo-Saxon Protestant) values. That imposes problems on non-WASPs — especially minorities — and often keeps them from being accepted."

"If they can't be in society, they get back at it. If you don't have a job to get what you want, then maybe you steal what you want."

Ron Pote, 14, a classmate of Anita's, also feels that everyone is born good but some turn bad as a result of environmental conditions. "There's a bunch of weirdos around — like these guerrillas who blow people up." At first, he says, he had the impression that the guerrillas were just vicious. But later he

## Pair To Attend Luncheon In OC

BUENA PARK—Rep. Jerry Patterson, D-Santa Ana, and assemblyman Paul Carpenter, D-Garden Grove, and Richard Robinson, D-Santa Ana, are scheduled to appear Friday at a luncheon meeting of the Orange County Democratic Rostrum at the Le Baron Hotel.

# THE TROUBLE SHOOTER

## BEHIND THE STORY

Dear Trouble Shooter  
After I read the letter from M.W. of Anaheim in last Sunday's column, I just had to let your readers know a little about it. M.W. stated that she is blind so humbly that I fear the impact was lost. She is blind (!) and she is opening a home for blind mentally retarded young adults!

I happen to know she has had to fight tooth and nail and overcome enormous bureaucratic obstacles in order to make her dreams a reality. She is a disciple of love, kindness and caring, but also a tower of strength and determination who makes me truly ashamed of my own complaining.

The things M.W. has asked for are truly needed, but on her behalf, I would like to ask your readers to stop and think and picture what else they can do to help. She needs six twin beds. How about linens for the beds? She needs a dining room table and eight dining room chairs. How about some things for the kitchen, or even a washer and dryer?

M.W. is truly capable and deserving of all the help she can get. I am tired of watching her struggle without ever complaining.

If your readers will give her a hand, I promise they will feel the love, just talking with her.

require payment in full for rooms reserved during the special event and more notice of cancellation than one day. Ma'am. The Trouble Shooter is afraid the hotel clerk promised your money back and learned later that it could not be refunded. However, the hotel management has been contacted by mail for their side of the story and you'll hear from the Trouble Shooter just as soon as he hears from them.

## NO DELIVERY

Dear Trouble Shooter

In October, my daughters and I rented a booth at the Buena Park Youth Center. My daughter took an order for a bulletin board which a lady paid for. Somehow, in the shuffle of packing things up, I lost the order sheet with the lady's name and address. She took my daughter's name and address, and we hoped to hear from her before Christmas, since the bulletin board was to be a gift. She didn't call.

We are sorry that she paid for something she didn't receive and we hope she will get in touch with us if she sees our letter in your column. If she will call 772-6666 and identify the bulletin board by shape and color, we'll get it to her.

M.A.N.

Anaheim

The Trouble Shooter hopes that the lady sees your letter, gets in touch with you pronto, and claims her bulletin board. Thank you for your honest effort to locate her.

## TALK BOARDS

Dear Trouble Shooter

A long time ago, you mentioned a kind of board that had words on it to enable people paralyzed by strokes, etc., to communicate their needs to others. At the time, I thought the story was of interest, but had no personal need for such a board. Now, unfortunately, I do.

Can you tell me how to get hold of one?

N.A.

Garden Grove

The Trouble Shooter's forwarding your letter to Selby Thompson of Orange and asking him to rustle up one of the "talk boards" for you, if they are still available. The idea originated with Shannon Anderson, a therapist at the Royale Convalescent Hospital in Santa Ana, and the Ol' Trouble Shooter was asked a couple of years ago to have some of the boards printed free of charge to those who needed them.

A hundred or so boards have already been distributed to folks who are putting them to good use and, if there is sufficient new demand for them in these parts, the Trouble Shooter reckons some more can be readied for distribution.

## YOUR REUNION?

Dear Trouble Shooter

High School's classes of 1955 and 1956 are planning a 20-year reunion and we are having trouble locating people after all these years. Thought you might be able to help us. Please ask them to call Barbara Peterson at 761-0246.

L.B.

No City

Always happy to help round folks up for their class reunions, Ma'am, and hope you have a good time at yours.

Got a Problem? Write The Trouble Shooter, P.O. Box 11626, Santa Ana, Calif., 92711. PLEASE DO NOT TELEPHONE YOUR PROBLEM TO US. Due to the volume of mail, not all letters can be answered or acknowledged. Those published will be signed with initials only, but you must include your name, address and telephone number.

## VAL BAGLEY COLLECTS 'HIS' YOUNGSTERS FOR CARTOONING CLASS AT MORSE SCHOOL

### A Little Bit Of 'Camelot' Comes To School

By BETTE REINHARTSEN

Register Staff Writer

PLACENTIA — Youngsters at Morse Elementary School have a special Camelot Hideaway, a "media lab" where princesses are in distress,

knights are in armor and the young ones can hitch rides on fire-breathing dragons for fanciful journey to fanciful places.

The caricatures on the walls and doors are the crea-

tive ideas of Val Bagley, who three years ago — as an El Dorado High School student — began working as a volunteer with the kindergarten through third grade pupils.

Bagley's teaching of ele-

mentary cartooning techniques has blossomed to the point where there now are caricatures on walls and doors and there's even a "royal mousehole" under a window seat.

ONE OF THE CREATIONS OF SCHOOL'S 'CEMELOT HIDEAWAY' IS A ROYAL MOUSEHOLE

## Council Admits Being Mixed Up Over GG Bar Permit Ordinance

GARDEN GROVE — City councilmen apparently were unaware of the ramifications of a new ordinance they endorsed last week which would have required all city businesses selling alcoholic beverages to obtain a conditional use permit.

This week councilmen said they didn't realize all cocktail lounge, bar and nightclub owners would have to pay \$200 to obtain the conditional use permit, when they gave preliminary approval to the measure.

They also said they never intended the ordinance to apply to existing on-sale (where alcohol is consumed on the premises) establishments.

As written, however, the ordinance would have required all on-sale liquor dealers to file for a conditional use permit at the time they applied for a business operation tax certificate.

This week, Councilwoman Kathryn Barr said she would not favor requiring a conditional use permit for existing establishments, even the places we would like to get rid of.

Councilman Elmer Erickson said the ordinance been adopted as drafted, it would have "created a new law making existing business operations illegal."

Erickson said a new ordinance should be drafted which gives some delineation between new and established on-sale operations.

Mrs. Barr added she would have no objections to requiring a conditional use permit when establishments change hands.

Conditional use permits could also be required when existing businesses alter their operation or make substantial improvements, she said.

Last week a spokesman for the state liquor industry said requiring a conditional use permit for businesses already in operation is probably illegal and in direct conflict with the California constitution.

Bud Talbot, executive director of the California Dining and Beverage Association, said the conditional use permit require-

ment would be in violation of the state's grandfather clause and would deprive bar owners of their right to make a living.

Similar ordinances in other cities have not yet faced court challenges, he said.

Talbot speculated the council was seeking a tool to "legislate" unwanted bars and taverns out of operation.

The council voted to refer the issue back to the planning commission. One city spokesman said the action will "start the hearing process over again."

## Club To Break Ground For New SC Gym Friday

SAN CLEMENTE — Ground breaking for a gymnasium for the Boys Club of the South Coast Area has been set for 3:30 p.m. Friday in Bonito Canyon Park adjacent to the boys club headquarters.

However, another \$50,000 is needed to complete the building, said William H. Walker, chairman for the fund drive.

Some 60 supporters attended a Wednesday kick-off breakfast. Former president Richard Nixon sent a \$500 contribution.

## Dana Point Whale Festival Starts Friday

DANA POINT — Whale films shown free to the public, will highlight a three-weekend Festival of the Whales beginning Friday.

The festival, sponsored by local merchants and businessmen in cooperation with the Orange County Board of Supervisors and the National Park Service, will mark the annual migration of the California Gray Whale past the southland coast towards the balmy waters at Baja California's Scammon's Lagoon where the female whales will calve and raise their young.

Once ready for the long journey, the young whales will follow their elders on the trek back to the icy waters of the Bering Sea, which offers an abundance of food for the giant mammals.

Beginning with a kick-off cocktail party at 5:30 p.m. Fri-

day at Harpoon Henry's in Mariner Village of the Dana Harbor (with free hors d'oeuvres) the Festival of the Whales will continue every weekend until Feb. 15.

The marine movies will be shown each Saturday and Sunday at 1 and 4 p.m. at Dana Wharf. Among the scheduled films is a sound-color documentary on the migration of whales produced by the Department of the Interior and National Park Service. It stars "Gigi," the transmitter equipped grey whale which lived for a while at Sea World and then was released into the ocean again. She caught the public's attention when she made repeated stops off shore, being sighted by curious whale watchers.

Jacques Cousteau, the famed marine scientist, is represented with his film "Desert Whale."

Sailing movies will satisfy the viewers' thirst for old fashioned adventures. And Feb. 1 at 4 p.m. a surfing movie, "Hang Ten," will be shown.

At 2 p.m. Saturday at Dana Wharf paleontologist Carol Stinson will present a slide show on whales that inhabited Capistrano Valley when it was still under water, millions of years ago.

Biologist Margie Stinson will show slides on Scammon's Lagoon at 10 a.m. each Saturday and Sunday during the festival in Mariner's Village. At 10 a.m. this coming Saturday and Sunday Tom Miller will speak about his book on the California Gray Whale.

At 2 p.m. Sunday, at Dana Wharf, Joe and Robin Valencio will speak about their experiences with whales while compiling their "Whale Watcher's

Guide."

Half-hour cruises aboard amphibious LARCs will be offered by the U.S. Army Reserve throughout the festival. There also will be special displays for the public in Mariner's Village and Dana Wharf arranged by the American Cetacean Society, State Department of Fish and Game, and various search and rescue units of public safety agencies.

At 1 p.m. Feb. 7 entertainer Joey Bishop will anchor in Dana Harbor to crown the new Miss Dana Point selected from candidates sponsored by local restaurants. The contest, sponsored by the local chamber of commerce, will be held at Harpoon Henry's in Mariner's Village.

## Campaign Law Ruling Awaited

### Supervisors Want To Make Sure Spending Limits Legal

By SANDI MOSLEY  
Register Staff Writer

SANTA ANA — Orange County's election campaign reform law, awaiting final approval for nine months, was left in limbo Wednesday over the constitutionality of its proposed limit on campaign donations and spending.

County supervisors, who have postponed a decision on the proposed law four times in the past year, said Wednesday they didn't want to see it again until the legality is "sound."

Their action was based on County Counsel Adrian Kuyper's written opinion that the U.S. Supreme Court may not, as expected, uphold campaign limits.

Kuyper also warned the law might be difficult to enforce if some would-be 1976 candidates already have gone over the limits.

The law would limit each candidate to spending 50 cents for each registered voter in the district he would represent and collecting no more than the maximum \$1,000 donation for each individual or family.

All supervisors, three of whom will be up for election in June, have had fund-raising parties in the past year. Some of the individual donations have amounted to more than \$1,000.

The exact war chests for each supervisor will not be known, however, until Monday, the deadline for filing preliminary campaign disclosure forms.

Kuyper said chances of campaign limits being upheld have "dimmed" since supervisors approved provisions of the cam-

paign reform law last April in a series of straw votes.

The California and Oregon supreme courts have suspended or overturned similar spending limits, and the delay in the U.S. Supreme Court decision expected early this month indicates the justices may be deadlocked, Kuyper said.

"I don't think any member of this board wants to do anything unconstitutional," said board of supervisors chairman Ralph Diedrich, who has continually opposed limiting how much a candidate can spend to get elected.

He has maintained the limit is an infringement of a person's right of free speech, and Wednesday he didn't hesitate to remind fellow supervisors the courts may be agreeing.

"I told you so—repeatedly," he boasted, "and now the county counsel is telling you so."

Supervisors Thomas Riley, who like Diedrich is up for election in June, said he has "reluctantly" decided not to push for the law.

In a three-page memo to supervisors, Kuyper said the Oregon supreme court ruled campaign spending limits violate the state constitution guaranteeing the right of free expression of opinion.

The California court last week agreed to consider the validity of the year-old state campaign reform law that also contains some spending limits.

In agreeing to hear the appeal by a pro-nuclear energy group, the court issued a stay order suspending the limits during its deliberations, Kuyper said.

## HB Citizens Group Maps New Tax Fight

HUNTINGTON BEACH — The committee which organized a successful campaign against the city's real estate transfer tax last year is regrouping.

Citizens Against New Taxes (CANT) now is spearheading a petition which calls for a two-thirds council majority before any new or increased taxes could be approved.

Meanwhile, the city council has had two tax hikes—an increase in the oil barrel tax rate and the imposition of a trash pick-up fee—waiting in the wings since tentative approval during budget hearings last June.

At that time, the council first approved the new taxes but backed down the next day, saying the taxes should only be increased if mid-year budget reviews showed a deficit.

City Administrator David Rowlands recently told the council that a five per cent budget cut will be necessary if the new taxes are not charged.

Even if the oil barrel tax is increased from 8 cents to 10 cents and a \$2-a-month trash pick-up fee established, the city budget would have to be cut two per cent, Rowlands said.

The CANT petition campaign is aimed at making such tax hikes more difficult to pass. If the campaign is successful, a five-member majority of the seven-member council will be needed to pass new taxes or tax increases.

"If we are successful in getting enough signatures on the petition in the next couple of weeks, the city council will have to put the issue of a two-thirds council voting requirement to increase local taxes on the April election ballot," CANT president Montana Schultz said.

The CANT group ran a successful campaign to pass a charter amendment last May which knocked out a council-approved sales tax on property.

Bankrolled by real estate interests, CANT spent \$18,565 to pass the charter amendment banning the transfer tax.

Voters supported the charter amendment, defeating the tax, by a vote of 14,246 to 4,562.

## Program Aimed At Parents Who Abuse Children

SANTA ANA — A program that will utilize trained volunteers to work in a one-to-one relationship with parents who have physically abused their children has been developed by the Orange County department of social services.

"The goal of the program is to protect children rather than punish parents since past methods of punishing parents have done little to change their abusive patterns," said Mrs. Sharol Aebersold, volunteer program coordinator.

Persons interested in participating in the program should contact Mrs. Aebersold at the Orange County department of social services, 1801 N. College Ave.

A meeting for those interested in participating will be held Feb. 11 at the social services department.

## SA Turns Down Fund Request

SANTA ANA—A request for \$1,776 to send 13 Santa Ana Unified School District administrators to two conferences was rejected this week by school trustees.

The board canceled attendance by eight business department administrators at the California Association of School Business Officials this April in Los Angeles at a cost of \$932.

The board also turned down a request for five high school and intermediate school librarians to attend a media education conference in San Francisco Feb. 12-14. Cost was \$844.

## LH Councilman Nevil In Race For Assembly

LA HABRA — Councilman Robert Nevil has announced his candidacy for the Republican nomination in the 69th Assembly District.

Nevil, 48, an insurance broker, a 12-year council veteran here and former member of the Local Agency Formation Commission, is seeking the vacancy created when incumbent Assemblyman John Briggs, R-Fullerton, decided to run for State Senate.

Nevil, a long-time Briggs backer, said his prime opposition in the partisan primary would be Andrew Banks, Briggs' chief aide. Banks has not yet declared his candidacy, but Nevil said the legislative aide "has been one jump ahead of me visiting party officials. He's out beating the bushes."

Nevil questioned the propriety of Banks' campaigning and drumming up support while on the state payroll but said that issue will be explored during the campaign.

## Nuclear Bill Backers Slate Monday Meeting

SANTA ANA—Supporters of the Nuclear Safeguards Initiative will present a film and slide show Monday at a meeting of the Sierra Club.

The film, by Chuck Daniher, a Huntington Beach engineer, is titled "Nuclear Alternatives."

The 8:30 p.m. program is open to the public in the Republic Federal Savings building, 2400 E. 17th St.

## 2 South County Animal Shelter Sites Rejected

SANTA ANA—The search for a south county animal shelter continued Wednesday.

Two sites tracked down by county supervisors, the result of four years of looking, were culled out Wednesday after complaints from Saddleback Valley residents.

"This has become more of a problem than an airport study," sighed Supervisor Thomas Riley, who faces most of the airport problems, too, because Orange County Airport and El Toro Marine Corps Air Station are in his district.

The Mission Viejo Co., owner of one of the two sites, didn't want to sell the county its preferred site. The other one, also owned by the Mission Viejo Co., was to be donated to the county, but development costs would have made it the more expensive.

Mary Cooper of Mission Viejo, speaking for the Madrid Four homeowners association, opposed both sites claiming they could cause odor and noise problems for the housing developments.

She also asked that no site be considered that would put the pound "in plain sight," of a residential tract.

The Mission Viejo municipal advisory council also has opposed the two locations, and San Juan Capistrano, where the shelter originally was to be located, prefers it not be in that city.

"The search has to be continued," Riley said, calling for a review of other possible sites.

The preferred site would have cost \$326,000 to develop, over the estimated \$50,000 purchase

price, to correct seasonal flooding problems.

The site offered by Mission Viejo Co. could have cost up to \$775,000 for flood protection, construction of an access street to the site and a bridge over the Santa Fe Railroad tracks.

Proposed new sites include Freeway. Others are a Smythe Brothers lot on Forbes Road in Laguna Niguel and two Irvine Co. parcels on Canada Road.

## WOVEN WOOD SHADES

50% OFF List Price

**DRESS UP YOUR WINDOWS**  
**Now At Savings of 50%**

We have purchased 1000's of square feet of rejected woven wood shade material from the factories. The material is perfectly good but it was put in the reject pile for various reasons such as, off color, discontinued patterns, overrun of a special order etc.

# CRACKER CRUMBS

By HARRY L. GRAHAM

## The Secret Of Boy's Tough Pecan

A rig builder's son named Kruger Wade was the pecan-cracking champ of my grade school one autumn more than 50 years ago.

I thought of Kruger last week when I received a box of pecans from friends in Calvin, Okla., just 18 miles from my old hometown.

They were large paper shells, so soft they can nearly be cracked in one hand.

What a picnic Kruger could have had with them.

But the toughest pecans we could get were what my friends and I sought in the groves around Holdenville.

Because at recess time, we would play a game I believe we called "crackers."

A boy and his opponent would each select his hardest-shelled pecan, and the fellow with the strongest grip would press the two nuts together in his clenched hands, bearing down until one was cracked.

As a reward, the winning boy got to eat the cracked pecan and use his nut in subsequent contests.

I remember picking through a gallon of pecans to select the most durable for our school-ground games.

Some of us tried soaking our pecans in oil to toughen them up.

That did seem to help, and I won a lot of "battles" with the oily nuts.

What worked even better was to wax the pecans in hot paraffin.

But when Kruger showed up one day with a pecan he nicknamed "Dempsey," he beat all comers.

After four or five recesses during which he gorged himself on our pecans, some of us became suspicious. For one thing, he insisted on being the one to do the cracking. No one else was allowed to touch Dempsey. I began putting my pecans back in my pocket when I saw Kruger coming, and some of the other boys followed suit.

We wanted to know the secret of his success.

"I got Dempsey off of an old, old tree," he said. "Maybe 200 years old."

We didn't believe that one bit. "It's from a tree in an Indian graveyard," he would kid.

We didn't believe that, either. Nor anything else he said.

I doubt if we ever would have known the truth if Kruger hadn't been polishing the pecan with his handkerchief in class one day.

The teacher asked him a question he couldn't answer.

"You weren't paying attention," she said, "were you?" Then she wanted to know what he had in his hands.

"Just a pecan," he said.

It was not "just a pecan." It was the invulnerable Dempsey. "Bring it to me," the teacher ordered.

Kruger obeyed reluctantly.

"It's like lead!" she exclaimed when she examined it. Which is exactly what it was.

Kruger had bored a hole in one end of the shell, picked out the nutmeat and poured in molten lead.

## Officers Seek Murder Suspect Held In Mexico

IRVINE—Investigators from Irvine and Costa Mesa police departments are in Mexico attempting to extradite a suspect in the slaying of a man whose body was found in an orange grove Jan. 19.

Police said Raul Ramirez Figueroa, a Mexican citizen, is suspected in the slaying of Eulogio Valenzuela, 42, a Santa Fe Springs man whose bullet-riddled body was discovered in an orange grove near the Santa Ana Freeway and Culver Drive.

Police said Figueroa, who was living in Los Angeles was in the custody of authorities in Guadalajara, Mex.

An Irvine investigator and a Spanish-speaking Costa Mesa officer are in Mexico and have a warrant charging Figueroa with murder, police said.

# The Register

EVER STRIVING FOR SOUTHERN CALIFORNIA  
TO BE AN EVEN BETTER PLACE TO LIVE

## Let Peace Begin With Me

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. For only when man understands freedom and is free to control himself and all he possesses can he develop to his utmost capabilities.

We believe that all men are equally endowed by their Creator, and not by a government, with the right to take moral action to preserve their life and property and secure more freedom and keep it for themselves and others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guide expressed in the Coveting Commandment.

(Address all communications to The Register, 625 N. Grand, P.O. Drawer 11626 Santa Ana, 92711.

(Permission is hereby granted to reproduce in whole or in part any editorials originated by The Register and appearing in these columns, providing proper credit is given.)

## Another Energy Idea

The principle that necessity is the mother of invention is seen in operation again and again these days as events drive home the coming shortage of conventional energy sources.

The latest evidence of this phenomenon is a report from two Johns Hopkins University scientists on the possibility of using ocean temperature differences to generate electricity on a large scale.

At first thought the proposal seems impracticable. William Avery and Owen Phillips envision some half a million floating power plants spread across the globe's tropical ocean belt drawing power from the gap between surface

and deep-water temperatures. On grounds of cost and for other reasons, such an undertaking seems all but out of the question.

Except that, as fossil fuel reserves continue to be bottled up by environmentalists' fears and bureaucratic decrees, extraordinary means will have to be used to satisfy the world's energy hunger.

At present the idea of thermal power generation strung out across thousands of miles of ocean seems "far out." The time may come when it will be "in."

In the meantime, wouldn't it be better and far less expensive to begin digging more of our abundant supplies of coal?

## From Each According...

Karl Marx, the famed author of perverse economic joke books, must be looking on in high glee from wherever it is old socialists go when they pass on to their reward. His dictum, "From each according to his abilities, to each according to his needs," has just been applied to the realm of crime and punishment by two social engineering economics professors of the University of Utah.

Punishment, according to James M. Rock and Stephen E. Reynolds, the two professors, ought to be keyed to the culprit's income and ability to pay. That's Marx with a vengeance. Here, as reported by the Associated Press from Salt Lake City, are the essentials of the knee-slapper:

Fines for persons convicted of misdemeanors should be set according to income levels, the two professors proposed in discussing an article they had written for an economic journal, since "a \$10 fine for an indigent creates a much greater hurt than a \$10 fine for a millionaire." Such a system is in effect in Sweden (wouldn't you know it?), the professors pointed out, and should be implemented here. They suggested, as a yardstick, that one day's wages be charged as an alternative to a day in jail.

Think about that a bit.

## In The Interest Of Justice

Former Lt. Gov. Ed Reineke ultimately was cleared of having committed perjury before a Senate panel, but while waiting for an appeal court to find the flaw in his conviction he lost his job and, in large measure, his reputation. Probably most people today who remember his name still labor under the belief that the conviction still stands.

Reineke was convicted by a jury on July 27, 1974. It was 16 months later that the accusation against him was thrown out by a U.S. Appeals Court in Washington, D.C. That is about the speed of current appeals procedure.

The Reineke case is pertinent at the present time because two officials from Orange County have been convicted of

felonies, and trial is pending against a third. The latest conviction — that of Rep. Andrew Hinshaw — will be appealed. In the meantime, Hinshaw has stated, he will seek re-election. Thus, electors are called upon to pass judgment upon facts manifestly not finalized. The incomplete status of the legal procedures serves to cloud, rather than to clarify.

We suppose any suggestion to reform a political monstrosity is about as useful as scientific research designed to un-rot an egg. A proposal that the appeal process be speeded to provide prompt adjudication of cases involving elected officials cannot be ventured without some inward flinching. But there it is, we did it.

## Today In History

By The Associated Press

Today is Thursday, Jan. 29, the 29th day of 1976. There are 337 days left in the year.

Today's highlight in history: On this date in 1949, Britain granted de facto recognition of Israel.

Can I bring a malpractice suit against Congress?

On this date— In 1737, the writer and political philosopher, Thomas Paine, was born in Theford, England.

In 1861, Kansas was admitted to the Union as the 34th state.

In 1843, the 24th American president, William McKinley, was born in Niles, Ohio.

In 1820, King George III of Britain died, and his son became King George IV.

In 1850, Henry Clay introduced in the Senate a compromise bill on slavery which included the admission of California into the Union as a free state.

In 1963, France vetoed Britain's application to join the European Common Market.

Ten years ago: The United States east of the Rockies was shivering under one of the most widespread cold waves to hit the nation in years.

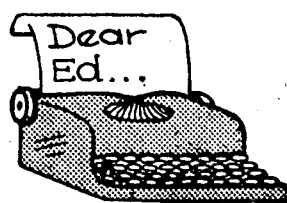

Today's birthdays: Actor Victor Mature is 60. Actor John Forsythe is 58.

Thought for today: What this country needs are more wives who are handier with the cookbook than with the checkbook — Anonymous.

Bicentennial footnote: Two hundred years ago today, the Continental Congress in Philadelphia approved George Washington's request to Massachusetts, New Hampshire and Connecticut to raise one regiment each to help in the Revolutionary War invasion of Canada.

"I'M SORRY. I GUESS I WAS FEELING HOMESICK!"

## The Clearinghouse

### Petition

On the front page of your Jan. 14, newspaper was an article about a petition signed by 1,000 residents of the Golden Rain Foundation's Leisure World community. This petition opposed the future construction of the McCormick Mortuary near the Gate Three entrance of Leisure World, and was signed by the residents explaining that it was of "bad taste" and caused low morale and placed a bad psychological effect on their community.

It is impressive to find that these people are doing something about things that are offensive to them.

I hope their example will be followed by the rest of us when such situations of grander scale which mock our common human values, and effect the choice of values of others.

It is appreciated that your newspaper is interested and conveys the problems of minorities on its front page.

Brian Sullivan  
Anaheim

### Nation Plagued

Do you wonder why this nation and the entire world are plagued with identical Marxist problems? Crime, radical and racial problems, strikes, blight, land-usurpation, economic chaos, environmentalism, etc., make headlines.

A factual book entitled "The Republic Decline and Future Promise" by Archibald E. Roberts clarifies this entire Regional Government conspiracy, March 27, 1967, President Nixon authorized a merger of our 50 sovereign States into 10 Federal Regional Councils which commenced this chain reaction. The Congressional Record Jan. 8, 1969, page H161, reveals ACIR, Advisory Commission on Intergovernmental Relations, plans to replace State Constitutions with world government and to eliminate local governments.

Ten provincial capitals are now governed by four Federal Regional Councils: Eastern, Southern, Midwestern, and Western. These super FRC's were formed Feb. 12, 1972, by Executive Order 11647. Now 50 billion annually, including Federal Revenue Sharing, feeds this machine! ACIR, HR 2519 unconstitutional directives include: (A) Reducing the number of counties. (C) Restricting popular elections to policy makers. (D) Concentrating on a single responsible executive for each local unit. (H) Easing restrictions on local

power to tax property. (K) Easing restrictions on borrowing power of local governments. (L-1) Liberalizing authority to metropolitan areas, to larger municipalities and to counties, in order to prevent zoning by smaller municipalities which excludes housing for lower income families, etc.

Page 17 discloses the Rockefeller Dynasty involvement, and Brookings Institution preeminence transforming the American Republic into a Regional dictatorship. "Members of citizens committees formed to consider local issues have little to say about how a local problem should be resolved. A written text is always prepared for them to follow, and they receive expert advice of 'Staff' in arriving at the correct solution," etc.

Page 15 regarding the U.N. Council on Foreign Relations states: "There is no place for the once free and independent Middle Class. It is to be squeezed out of existence through pressure from the bottom applied by radicalized mobs of communists, anarchists, Panthers, Yippies, and other pawns, puppets and dupes who think they are fighting the Establishment, but who actually are financed, trained and led by the Establishment members!"

Do you notice how all Metro officials including local city officials who are very knowledgeable as members inclusively of this Marxist plan, avoid conspiracy implications by appointing committees to do this dirty work? Let's stop being "cogs" in this Regional Governance conspiracy.

Marie Ware Mayer  
Laguna Beach

### On Camera

I believe I have a new approach and possible solution to the doctor malpractice and malpractice insurance problem that has not been investigated as yet. My feelings are as follows:

A main segment of the problem is that for many years there has been no way to weed out bad doctors, as there is in other professions. For example, any engineer that designs a bridge that collapses never gets to build another. Also, any private businessman pays for his errors in operation of his profession by going broke. Surely, some doctors are incompetent and should not be practicing. Bad doctors have long been protected by AMA rules of doctors' agreeing never to testify against other doctors. This is a bad practice that should be corrected. Good doctors who are

performing operations to the best of their human abilities plus using the latest concepts, proper techniques and practice should be protected from unfair malpractice suits.

The basic idea that I have is to monitor each operation with a videotape recording camera that would be a permanent documentation of proper or improper techniques taking place. After an operation resulting in litigation, a panel of doctors could review the operation and determine if improprieties were there. Operation training and/or reviews could then be made, sponge counts could be rechecked, and a fair evaluation could be made of errors — were they human, just careless, or grossly incompetent?

Governor Brown has proposed having the doctors generate their own malpractice fund. This would tie in very well with the tape-recorded operation program in that all good doctors would then have the means plus the personal interest to drum incompetent doctors out of practice.

Hopefully the above suggestions or some modification of same will help solve the present insurance crisis for doctors and also result in better medical practices.

Leonard A. Harvill  
Santa Ana

### Bullying Public?

I am appalled at the public's placid acceptance of the doctors' strike: The AMA is a monopoly, controlling the supply of physicians in order to maintain demand. Quality health care and preventative medicine are held out of reach. Quantity practices are the rule, making rapidly processed people out of patients. Additionally, the AMA does its best to foster and promote an arrogant, fraternal attitude.

Isn't there an oath of service taken by physicians? Or has it been abolished in favor of one stressing self-interest and profit?

Physicians are hardly in a position to bully the public much more than they already have. The pressure being exerted upon general practitioners to strike in sympathy should well exceed the public's threshold. If money is the only lever the public has to induce a sense of public service in physicians, perhaps it is time for us to lean heavily upon that lever.

L. R. Bialecki  
Fullerton

### UPSTREAM

## 'Your Very Good Health'

By MADSEN PIRIE  
R.C. Holles Fellow, Hillsdale College

I found out recently why Englishmen wish each other "Your very good health" when they raise their glasses to toast each other in pubs. It is because everyone in England knows what happens to them if they are not in very good health. They have what is laughingly called a "National Health Service," in which no one pays for health directly. Instead they pay in taxation, while the government provides the service, and pays for the doctors and the hospitals.

Introduced in 1948 as a brave leap towards social equality, the British National Health Service has proved to be the biggest example of mass suicide since the Gadarene swine leaped to their deaths possessed by devils. There is an attempt being made by ideologically motivated politicians to foist a similar system on America, to replace the present system to private health care.

Our own leap towards the cliff has been delayed by two factors. First the economic position has made it less likely that such an expensive and wasteful system could be introduced; and second, members of the Congressional Health Committee had a sudden fit of sanity early last summer, and went unan-

nounced to Britain to look at the health service there. What they saw made a lasting impression.

Instead of going on the red-carpet tour of distinguished American senators, and being shown such parts of the health service as are fit for public gaze, they visited doctors and hospitals at random. The result was that they saw it as it really is, instead of seeing the face which officialdom there wishes to present. They saw crowds packed every morning into tiny doctors' waiting rooms, with the average time spent with the doctor being two minutes per patient. They saw hospitals with beds crowded into packed wards and overflowing into corridors. They saw a health service which is kept going only by a similar influx of qualified doctors from the poorer countries.

They found that the average waiting time for elective surgery has increased from fourteen months to over two years — and elective surgery in Britain means anything not essential to the immediate saving of life; it means eye operations, hemorrhoids, and varicose veins. They found, most of all, a health system ridden with strikes and industrial-type disputes as doctors and nurses fight for a fair reward under a system which only

pays them what the economic status of the country can afford.

The most recent strike, still not settled, has been caused by the government's decision to close all private beds in National Health Service hospitals. Since a large proportion of doctors' income comes from those who are prepared to pay twice over to get reasonable treatment, the doctors went on strike last November, and have been treating only emergency cases. Now the government has announced that private treatment will continue to be available for rich foreigners, but not for the poor serfs who make up the population. The British health minister actually went to the Middle East earlier this month to reassure the oil sheiks on that point!

The most horrifying aspect of the whole saga is that there are still people here in America determined to perpetrate the same sorry mess on our health care. If you meet any of them, please do me a small favor. Tell them about the British health service. Tell them what happens when people cease to pay for something directly, but pay through government instead. Tell them about the law of supply and demand. Tell them that government is more remote, more expensive, and less efficient. And please wish them very good health.

## Meany Clobbers President Ford

By VICTOR RIESEL

WASHINGTON — Some of us (George) Meany-ologists know the presidential campaign is later than you think. We know because Meany has begun ad-libbing spice into his speeches. Which makes them pretty hot and sets the line for labor's heavy assaults.

This all came to Meany-watchers last week when he stabbed Jerry Ford with an ad lib line dumping on the President as a "fumbling, bumbling, stumbling chief executive."

It was in his speech before the legislative assembly of Chick Chaikin's Ladies' Garment Workers' Union, which invented modern union politics, first Socialist, then Rooseveltian, finally Kennedyan.

Meany then hit Federal Reserve Board chairman Arthur Burns as mentally handicapped and as a "great servant for a fascist society."

After all that, Meany really got rough — with the confident toughness of a leader who knows and has said so many times — that American labor's political machine is one of the world's finest.

That speech was volleyed on Jan. 19. That was six days after Prof. John Dunlop's resignation, and three days after President Ford and Bill Usery talked quietly in the Oval Office about the latter's succeeding Dunlop as Secretary of Labor, and on the same day that Mr. Ford's people leaked that story.

### Just Like George

So Willie Usery, who in 1968 was one of Senator Humphrey's most ardent, articulate campaigners, got off to a dramatic start.

It is reported that Jerry Ford winced when told of Meany's triphammer personal attack. Dr. Burns merely continued puffing his pipe, murmuring, "George will be George." But Burns doesn't have to run in the primaries.

Why then did Mr. Ford choose the big, cigar-smoking, martini-drinking, 52-year-old, prematurely white-haired Bill Usery? Because Georgia-born Bill is the best natural mediator there's been in this town. Further, he's neutral toward the labor movement from which he springs.

Also Usery has been offered, or invited in to discuss, jobs paying \$100,000 a year and more, by the coal, railroad and airline industry executives.

It appears Bill Usery has been delivering to both sides for a long time. I began talking with Bill in the early '60s when someone in the 'Machinists' Union said call our fellow Usery down in Florida — he knows and he likes talking to the media. I called. I always got what I wanted. When Usery began, he had 17 members at the burgeoning space base called Cape Canaveral. In the '60s, he was the Machinists' grand lodge representative leading 4,800 key craftsmen amid the rocket launchers. When time came for construction of the huge Vertical Assembly Building, then an awesome structure inside which rockets would be housed, the construction workers' unions came too.

There were costly strikes. Brutally time-delaying. Usery was put on the peacemaking U.S. Missile Sites Labor Commission. There he sat across from aerospace management's representative, James Hodgson, then a Lockheed vice president. When Dick Nixon named George Shultz his first Secretary of Labor, the latter named Hodgson Undersecretary. Hodgson headed a man out of union officialdom. He remembered Bill Usery became Assistant Secretary.

Then came a game of musical chairs. When Hodgson, now U.S. Ambassador to Japan, became Labor Secretary, Meany called him a janitor and would have little to do with him. Meany would have even less to do with the next Labor Secretary Pete Brennan, who sort of oozed out of sight and now wants to run for Congress from somewhere out in Long Island, N.Y.

So Mr. Ford determined that he'd try to soothe Meany, who only soothes when he's ready. Then came the Dunlop-saga. It is reported that Meany advised Bill Usery: tell them you'll quit too (both as chief federal mediator and as special assistant to the President for labor-management negotiations) if they don't make you Secretary. Well, Bill got the appointment.

At this point, Mr. Ford is fresh out of men who have even a knock-on-the-door relationship with the movement. Bill Usery at least can get in the door. And that's vital this very moment.

Though there's been little national reportage, the Teamsters right now are fighting the Trucking Employers, Inc., negotiators for a mighty hefty contract for almost 500,000 national freight drivers. Deadline: March 31.

And insiders say a rubber and tire production strike is inevitable in a few months. And auto union president Leonard Woodcock has warned of a possible strike (what with some \$200 million in the strike fund by next November the UAW could hit Ford). In 90 days the first of the hard hats' 3,500 contracts begin expiring. And there are the GE negotiations.

Without someone who could deliver to both sides, this nation can be economically derailed; despite the low speed of the recession-recovery.

Bill will love sitting in the cabinet. That's his thing. Until he hears or reads Meany's next speech. Or until he gets down to the AFL-CIO home command Florida session in some two weeks.

The burn on his Georgia cheeks won't come from the sun.

## Services Set For Rev. Wells

ANAHEIM — Funeral services are scheduled Friday for Rev. Joseph Wells, who has been associated with the Central Baptist Church of Orange County for 18 years.

Rev. Wells died Tuesday on his 83rd birthday of a stroke in the Buena Vista Convalescent Hospital.

Rev. Wells' son, Dr. Bob Wells, is the pastor and founder of the Central Baptist Church. The elder Wells spent most of his career as a clergyman working with rescue missions on the skid rows of a number of cities in the Midwest.

Services will be held at 10 a.m. with burial to follow at Westminster Memorial Park.

Rev. Wells is survived by his widow, Anna; his son, Dr. Wells; a daughter, Lucille Henle of Chicago; six grandchildren and six great-grandchildren.

## Airport Panel Votes More Parking Spaces

By DAVE ROSE

Register Staff Writer

NEWPORT BEACH—Despite protests from airport employees, two car rental agency representatives and Air California, the county airport commission has approved a plan to increase public parking at the county airport.

The action, taken Tuesday, will require county planning commission and board of supervisors' approval.

The plan, drawn up by the county general services administration, goes before the planning commission in late February.

Estimated to cost \$164,000 by

GSA assistant director Tom Egan, the plan would provide 395 more public parking spaces at the airport. The new spaces would be provided in part by eliminating 195 employee parking spaces just southeast of the terminal building and converting that area along Campus Drive near MacArthur Boulevard into a public parking area.

Employee parking would be moved to a current "overflow" parking area just north of Mission Beechcraft, about six-tenths of a mile from the terminal building.

Egan stressed to about 60 employees who attended the meeting Tuesday that the interim plan should be in effect no more than two years.

But that assurance didn't silence angry employees or the two car rental spokesmen.

Employees complained that the long walk to the terminal from the "overflow" lot would be inconvenient, particularly in inclement weather, and would pose security problems, especially for women employees who would have to walk to and from the lot after dark.

Under the proposal, lighting would be provided in the lot before its use by employees. However, they complained the airport does not have enough security personnel to provide pedestrian protection to and from the lot.

Nor were the car rental agencies happy. The proposal calls for them to give up 137 spaces just north of the terminal, shifting them to 87 spaces just south of the terminal.

Robert F. Herwig of Avis and Roy F. Turvey of Budget Rent-A-Car, said the move would create serious traffic problems during peak periods.

Herwig and Turvey said their agencies, plus Hertz, which didn't have a representative at the meeting, rent about 6,000 cars a month.

Also opposing the move were Paul Delaney, who operates a restaurant at the airport, and Air California, the major commercial air carrier at the airport.

Included in the proposal by the county is a shuttle bus system from the "overflow" lot to be used by the employees to the terminal. Egan estimated the annual operating cost would be \$75,000 to \$80,000. Some employees took issue with those figures, stating it could be operated for as little as \$50,000.

The proposal additionally calls for restriping the main parking lot to provide another 150 spaces, mostly for small or compact autos.

Should the proposal be approved, the overflow lot, which can hold 450 vehicles, would be blacktopped, lighting put in and a sidewalk built connecting the lot with the terminal.

## State May Rescind Plans To Extend Laguna Freeway

LAGUNA BEACH—The state highway commission is considering rescinding plans for the extension of the Laguna Freeway.

The state adopted the route in 1954, but because it is "a low priority item" no construction work has been done to implement the extension plan, said Richard Stephens, Caltrans spokesman.

"The main reason the state

may rescind the plan is a lack of money for new freeway construction," he said. "Funding is precarious now. We couldn't build it if we wanted to."

In addition, Stephens said there has been local opposition to extending the freeway into scenic Laguna Canyon.

The freeway section up for rescinding is a 5.4-mile stretch running along Laguna Canyon

Road from Canyon Acres Drive in Laguna Beach to 2 miles south of the San Diego Freeway.

Stephens said that a decision on rescinding the plan will not be reached by the highway commission for at least six months.

"It will be studied during that time and allow for feedback from local citizens and governmental agencies," he said.

## DEAR ABBY

### Best Advice: 'Don't Start'

By Abigail Van Buren

© 1976 by Chicago Tribune-M. T. News Synd. Inc.

DEAR ABBY: I am 14. Almost 15. My parents won't let me smoke. My brother got to smoke when he was 15, but when I ask my parents if I can smoke, they say, "No, it's not feminine."

Abby, I milk cows, bale hay and even clean cow gutters, and you sure can't say THAT'S feminine.

All my girl friends get to smoke in front of their parents, so why don't they let me run my own life?

MYSELF

DEAR MYSELF: Because they don't want you to run it in a way that may be damaging to your health. I'm with them. The best advice I can give to nonsmokers is—DON'T START!

DEAR ABBY: My husband and I were invited to a dinner party at the home of a very high-class, prominent society leader who has a reputation for entertaining beautifully.

My husband's widowed sister came to town unexpectedly, so I phoned my hostess and asked if we could bring our houseguest.

She asked, "Is your houseguest a male or female?" I said, "She's my husband's sister."

And would you believe this so-called high-class society lady replied, "That's too bad. We already have three extra women. If you could bring a man, I'd be delighted, but we don't need any more women."

Have you ever heard of anything to top this?

SPEECHLESS

DEAR SPEECHLESS: No. And I thought I'd heard everything.

DEAR ABBY: I couldn't help but smile when I read your comment about people who run ads in the classified section to meet a partner. Agreed, they must be desperately lonely, and they do run the risk of meeting some creepy characters that way, but did you know that this practice is entirely accepted in Europe, specifically in Germany?

Believe me, I have run into creepy characters in the U.S.A. and Canada in distinguished public places where a lady would think she is safe from creeps. I also know that many Europeans have found decent companions by placing ads in newspapers or going through a marriage agency.

The adage "different countries, different customs" still holds true, so please don't condemn that custom altogether. For some, it works.

T.L.K.

DEAR T.L.K.: Many wrote to defend the practice of advertising in a newspaper for companionship, and even marriage. But those who wrote were invariably winners. I'd like to hear from some losers.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (26¢) envelope.

OLD FRIENDS RETURNING IN RE-RUNS  
James Brown and Rin Tin Tin VII

Rin Tin Tin Back,  
With Color Tones

LOS ANGELES (AP) — What can possibly be new about a television series made 20 years ago?

Nothing, as a rule. But the folks who decided to put "Rin Tin Tin" into reruns on independent stations across the country a few weeks ago were looking to do more than simply cash in on the nostalgia boom.

They wanted a quality product that not only would attract big advertising bucks but also a new generation of children — thereby creating a market for merchandising "Rin Tin Tin" toys and games.

So SFM Media Service Group, the company that is syndicating the program, edited a few minutes out of each of the 164 episodes and rounded up Rin Tin Tin VII to film new, color introductions and epilogues to each one. In addition, the black and white film from the original was tinted so there would be some color to it.

And they did one other thing. They found actor James Brown and persuaded him to appear in the new prologues as Lt. Rip Masters — the role he starred in from 1954 to 1959 when the original "Rin Tin Tin" was made for television. Now, with rustic Kanab, Utah, as the setting, Masters acts as a storyteller for visiting children. "Why, I remember the time Rinty and I..."

How does Brown feel being back in that old cavalry uniform after all these years? "Great," he says, still tall and handsome at 55. "That was my favorite role of them all — that and the first picture I did for Howard Hawks, 'Air Force.'"

Brown's reference to that 1942 film should clear up any confusion you have about his name. This James Brown is neither the football star-turned-actor, Jim Brown, nor the soul singer, James Brown.

But never mind the sentimentality of it. Brown was happy to get any work at all. He'd been attempting an acting comeback for two years, and it was going so poorly that he says he was ready to accept one of several job offers to return to the business world, where he'd labored happily from the late '60s through 1973, first as head of a health product firm and then as customer relations manager for Faberge.

"The last two years I've been trying to stay alive in this racket, trying to re-establish myself," he said. "It's been the old story of 'out of sight, out of mind.' People thought I was dead."

So the folks at SFM Media aren't the only ones hoping that "Rin Tin Tin" still has the old drawing power. James Brown does, too.

But why was it that SFM Media bothered to hire Brown and film the new wrap-arounds at all? After the success it had with rereleasing "The Mickey Mouse Club," why spend \$1 million to polish a seemingly

## Merv in Film

LOS ANGELES (AP) — Merv Griffin, who costarred in Warner Brothers musicals in the 1950s, returns to films in Universal's "Two-Minute Warning."

The talk show emcee will play himself singing the National Anthem at a championship pro football game.

## Two Comedies Cancelled

By LARRY DISTEL  
Register TV Editor

One week does not a season make. Nor does one week determine their fate of a TV program.

But it's safe to say that last week's Nielsen ratings did not do good for "Grady" and "The Cop and the Kid," two NBC mid-season replacements.

It may have been coincidence, but almost as the ratings showed those two shows at the bottom of the list than NBC announced that the two shows would be dropped out of the 8 to 9 time slot on Thursdays, starting March 18.

If that's bad news for anyone who liked the shows, the replacement ought to be good news for many viewers in this area who have voiced a desire to have Mac Davis back on the air in a regular spot.

Mac will be bringing in a variety show to fill the entire hour vacated by the two comedies.

He will face the same opposition which has made the 8 p.m. slot on Thursdays a

tough one for NBC. "The Waltons" showed its powerhouse position in the ratings by taking over first place for the week ended last Sunday. It was helped by pre-emption of "All in the Family" by President Ford's State of the Union speech.

Other opposition comes from ABC's "Welcome Back, Kotter," which climbed to third place last week, while "Barney Miller," though not high in the ratings, still pulls sufficient numbers to make it tough for NBC.

"The Bionic Woman," newcomer to the ABC lineup, took the number two spot for the week. Others in the top 10 were "Kojak," the ABC movie, "What's Up, Doc?," "Happy Days," "M-A-S-H," "Phyllis," "Rhoda" and "One Day at a Time."

Donny and Marie Osmond tied with "Sanford and Son" for 13th place, but other new shows didn't do too well. "Almost Anything Goes" ties for 47th with "Marcus Welby, M.D." and "Pop!" took 52nd.

Incidentally, herewith a note to Osmond fans: the preview published in this area was not written by your local editor, but was the opinion of an Associated Press TV Writer. So please don't blame us, although I'll admit the older Osmonds never were my cup of tea. These two younger ones, I feel, do have more to offer, but let's face it, variety programs don't do well these days and do tend to become boring.

## FILM REVIEW

## New 'Marty'-Like Film Simple, Superbly Done

By BILL HAGEN  
Copley News Service

**HOLLYWOOD** — Is there life beyond Brooklyn? The quest of a gentle hero to find out is the basis of "Hurry Up, or I'll Be 30," a warm, funny and frequently touching film about an ordinary man beset with rather ordinary problems.

It is a modest endeavor, made on a modest budget, but it is personal and human and satisfying. The man behind its success is Joseph Jacoby, who was 31 when the film was completed three years ago. He wrote the original story, he co-authored the screenplay, and he produced and directed it.

Jacoby has, in a sense, brought "Marty" up to date. Instead of a Bronx butcher, he is a Brooklyn printer, but the problems remain the same. The basic one, of course, is that life is quickly passing by and it's not much fun.

The hero, a man as plain as mashed potatoes, is named George Trapani. He is almost 30. He is restless. For some reason he is discontented with a life that includes a sibling rivalry with an obnoxious brother, a dominating father, a clinging mother and a routine of weekly activities directed from Marty's guide to swinging living.

Among the activities are cruising for girls with long-time friends, people with whom he is now more bored than comfortable; an occasional game of pinball and a beer or two; Thursdays with Flo, a bubble-gum popping waitress who falls a trifle short of elegance, and Friday night poker with the boys.

So routine and dull has George's life become that he has trouble remembering whether it's Thursdays with Flo and Fridays for poker, or vice versa. And he doesn't really care.

Comes his dash for freedom, or least something better — a visit to a singles bar in Manhattan. His life is gradually changed, but it doesn't improve. He is merely ignored by a different class of

people. George eventually meets a lovely girl, and they have a romance that embodies every cinematic cliché from the hand-in-hand gambol on the beach to sun filtering softly through golden leaves. It is trite, but it is also so correct, as Jacoby realized. His rather oafish hero would have romance no other way, since he had never dreamed of it any other way.

The romance cannot work, for George cannot exist in such circles. He is in with sharks, and although he is not bright, he is smart enough to realize that he must get out. And return to Brooklyn.

It is not an upbeat ending, but it is also far from depressing. It is clear that somehow, George will make out all right. He is too nice a guy not to.

The cast of "Hurry Up, or I'll Be 30" is largely unknown and largely outstanding. John Lefkowitz is so real and empathetic that it is sometimes awkward to watch him — awkward because he is groping his way through what most of us have had to grope our way through. And beneath everything there is a resilience whatever happens, George will bounce back.

Linda de Cof is superb as his brief love, touched by George's basic decency, but moved only by her ambition.

Frank Quinn is exactly right as the hustling producer of skin shows, a predator who devours naive people like George. Maureen Byrnes shows much of the flair of Madelyn Rhue as the gum-popping waitress.

"Hurry Up, or I'll Be 30" was released three years ago. It received critical acclaim almost everywhere, and was selected for showing at the Fourth Annual U.S.A. Film Festival in Dallas.

It is a simple story, superbly done. It makes you feel better for having seen it and how many of today's movies can accomplish that?

"Hurry Up, or I'll Be 30," is rated PG.

## SADDLEBACK PRODUCTION

**MISSION VIEJO** — Tickets for the Saddleback College production of "Exit Lines: The American Expatriate" remain available at the college for Friday and Saturday evening performances.

The reader's theatre presentation will run Jan. 29 and 30 in the college's Building R. Curtain is at 8 p.m. and admission is free.

Completed and adapted by its director Lynn Wells, "Exit Lines" will highlight those

writers and artists who left their native U.S. to take advantage of literary freedoms Europe had to offer early in the century. The entire script was adapted from more than 30 resources.

"Like Ernest Hemingway, many creative Americans sought economic and personal refuge in Europe," Mrs. Wells explained. "Others eventually opened publishing houses there."

Saddleback student readers include Cathy Gash, Laura Chambers, Kip Connor, Bruce Odgen and Tom Frost.

Reservations for "Exit Lines" are required and can be made by calling the college's community information office.

## Bluegrass Fest

**CORONA** — A three-hour country bluegrass showcase will be staged here Saturday, Feb. 14 by the "Genuine Buffalo Chip Bluegrass."

The 7:30-10:30 p.m. event at Civic Center Auditorium here will feature hoe-down music by such specialists in the genre as Canyon Grass of Costa Mesa, Buckhorn plus the sponsoring Buffalo Chip and special guest, 11-year-old fiddler Stuart Duncan.

Limited tickets are available and may be purchased in advance at the Corona Norco Music Center.

## MOVIE RATINGS FOR PARENTS AND YOUNG PEOPLE

The objective of the ratings is to inform parents about the suitability of movies for viewing by their children.

**G** General Audiences. All ages admitted.

**PG** Parental Guidance suggested. All ages admitted.

**R** Restricted. Persons under 17 not admitted unless accompanied by parent or guardian.

**X** Adults Only. No one under 18 admitted.

NOTE: If two features have different ratings, the more restrictive rating prevails.

## Interested Cits Set Concert

**SANTA ANA** — The Interested Citizens Group of Santa Ana will present their annual musical, Sunday, Feb. 8, from 2:40 p.m. at the Charles Bowers Museum, 2002 No. Main St., here.

The program will be in observance of our "Nation's Celebration" and kick-off for "Black American History Week Celebration."

The Santa Ana Youth Jazz Ensemble will perform at the beginning of program. This group played through downtown section of Santa Ana and the Santa Ana College this

summer, under the direction of Jim Butler.

Also included are two local choirs of Santa Ana and guest choir, "The G-Session Connection of Long Beach."

The music will be centered around patriotic, spirituals, sacred and secular music. The public is invited and admission is free.

## SAC Auditions

**SANTA ANA** — The Santa Ana College Concert Band and Jazz Ensemble will hold auditions for new members Monday and Wednesday, from 7-10 p.m. in the Music Building.

Auditions are open to college and high school students and area musicians. Both groups will perform concerts during the spring semester and college credit is available.

The 60-piece concert band will visit Hawaii on a concert tour during the Easter recess, April 13-20. For more information contact Ben Glover in the music department.

## RATE HIKE ARGUED

# SA, Trash Collector Discuss Pact

SANTA ANA—The city staff and the trash collection contractor have reached tentative agreement on nine of 10 negotiating points in the refuse pact, councilmen were told this week.

The remaining point to be settled is the supplemental monthly payment (increased residential rates) the contractor has requested, said City Manager Bruce Spragg.

Great Western Reclamation Inc., which has held the exclusive contract since 1963, asked for the supplemental payments because of increased costs due to settlement of a 10-day garbage strike last April.

The supplemental payments requested by the contractor would cost residents nearly \$400,000 over a three-year period, the city staff has estimated.

Arguing the contractor already receives automatic residential rate increases twice yearly based on changes in the Consumer Price Index (CPI), the staff has asked Great Western to supply "justifying data."

The definition of "justifying data" apparently has not been agreed upon. The city envisions an audit of the company's books for calendar years 1974 and 1975 to determine just how much labor costs have increased.

Tom Blackman Jr. of the company told councilmen he has agreed to supply the city staff with "certain pieces" of information for the staff to audit.

The majority of councilmen commented Monday the negotiations are "moving in the right direction."

Councilman Vern Evans, however, complained that staff was "dodging the issue" on several negotiating points.

Initially, councilmen wanted to change the basis for paying the contractor from water meters to some "more equitable" unit of measure.

The staff proposed paying the contractor on the basis of population but during negotiating sessions decided to stay with the water meters because the inequities were minor, Spragg said.

Councilmen also wanted to settle the issue of commercial bin rate increases. Great Western proposed automatic increases based on the CPI used for residential rate increases.

Staff opposed the idea and both staff and the contractor have agreed that the council should approve any commercial increases.

Under the tentative agreement, one request per year could be submitted to the council accompanied by "justifying data" and a public hearing would be held.

## Adjustments In Budget Leave Irvine \$101,096

IRVINE—Mid-year budget adjustments that will leave the city with \$101,096 at the end of the fiscal year were approved by councilmen this week.

The adjustments came as the result of a city staff budget review, which recommended the council cut some programs and add or expand others.

The staff review suggested the council approve \$188,179 in new expenditures to come out of \$107,567 in increased revenues and \$151,696 saved by cutting programs.

But the council trimmed the \$188,179 down to \$158,167 by reducing amounts allotted for an environmental impact report on the city's general plan and by cutting the budget for supplies at Harvard Avenue Park.

The allocation for the environmental impact report was reduced from \$40,000 to \$20,000 after Councilman Robert West said the city already has spent too much for studies in the general plan. He said the city spent \$250,000 for the general plan "and a myriad of other studies."

The council unanimously approved the added expenditures and staff-recommended cuts ranging from \$1,126 in the public works department to \$21,034 in the city manager's budget.

## Girl Scouts To Plant Trees Along Trails

YORBA LINDA—Girl Scouts expect to plant more than 100 trees and shrubs along a section of the El Cajon Horse and Bike Trail from 9 a.m. to noon Saturday as a bicentennial gesture.

Several hundred Girl Scouts of all levels will participate.

Scouts will be picking up their trees prior to the event at the Rose Drive Elementary School parking lot. Planting on the trail will occur between Rose Drive and Prospect Avenue.

# The new 7-day milk diet:

It helps women and men shape up—instead of out. And it features nourishing, good tasting milk. Because milk belongs in a balanced diet. Participating grocers have all seven days in store for you. Check the dairy case for your 24 page booklet. Free!

Here's what you get: Seven daily menus that average 1,165 calories for women and 1,545 for men. With delicious and nutritious recipes. Plus a simple exercise program you can do in minutes. And extra diet tips to help you stay with it. Now, look at Thursday.

## Breakfast

Milk (8 oz.)  
Tomato Juice (1 cup)  
Oatmeal (1 cup with part of milk allowance)  
Men: add 2 slices whole wheat toast

## Lunch

Corned Beef Sandwich  
(1 1/4 oz. corned beef, 2 slices rye bread, 1/2 tsp. butter and 1 tsp. mustard)  
Dill Pickle (1 medium)  
Cherry Tomatoes (6)  
Apple Wedges (1 apple)  
Men: add 1 1/2 oz. corned beef and 1/2 tsp. butter.

## Dinner

Milk (8 oz.)  
\*Meat Muffin (1-2 1/4 inch; 3 oz., uncooked)  
Baked Potato (5 to 6 oz., before baking, with 2 tbsp. plain yogurt and chopped green onion)  
Broccoli with Lime (1 cup, cooked)  
Cantaloupe (1/2) or Orange (1 small)  
Men: add 1 meat muffin.

## \*Meat Muffins

Combine 1 lb. lean ground beef, 1/2 c. fine dry bread crumbs, 1/2 medium onion minced, 1/2 green pepper minced, 1 tsp. celery salt, 1/2 tsp. pepper and 2 tsp. catsup. Mix and spoon into 8 ungreased 2 1/2" muffin cups, about 3 ounces per cup, press in lightly. Bake uncovered 20 min. at 400°. Serve topped with 1 tsp. catsup. Makes 8 meat muffins.

Try it. What have you  
got to lose?

# Sea Kings Stop Spartan Rally

By TED BRAZIL  
Corona del Mar High, surviving a frantic fourth-quarter rally by Villa Park, took command of the Century League basketball race with a 53-49 victory, Wednesday night.

The win gives coach Tandy Gillis' Sea Kings a two-game lead as the first round of league action ends. Villa Park now falls into a three-way tie for second place with Estancia and Costa Mesa, which beat the Eagles Wednesday, 60-50.

In the other league games, Santa Ana raced past hosting Magnolia, 81-56, while El Modena defeated Tustin, 73-57.

Corona del Mar appeared to have the game well under control when it opened the third quarter with a 14-0 spurt and led by 19 with 3:55 left in the period. At that point the Sea Kings went into a deliberate full-court offense and Villa Park suddenly came to life, running off 11 unanswered points. The Sea Kings retained their poise during the hectic fourth quarter and held a 48-39 edge with 3:19 left to play. But Corona del Mar suddenly went cold at the free throw line and that enabled Villa Park to reel off a 6-1 spurt that cut the margin to four, 49-45, with 0:31 left to play.

With 0:25 left Alex Black, Corona del Mar's 6-6 center who dominated the inside play when he was in the game, scored on a tip-in after a missed Sea King free throw to make it 51-45. Doug MacGinnis tallied for Villa Park at 0:14, but Black scored again at 0:07 to ice the win.

Black finished with 12 points, but more importantly, dominated the boards with 17 rebounds. Chip Stassel came off the bench to lead Corona del Mar with 14 points.

Poor free throw shooting cost Villa Park the game. The Spartans hit only three of 10 free throws in the first half and

# Vogelsang's 41 Powers Edison

Guard Bobby Vogelsang poured in 41 points to lead Edison scored 13 in the last period, 11 on High to a 91-84 win over Newport Harbor, Wednesday night, as the Chargers held out second place in the Sunset League basketball race.

Marina maintained its two-game lead over Edison as it ran its unbeaten league streak to seven games with an 83-51 win over Western.

Loara broke up a four-way tie for third place with a 64-59 victory over Fountain Valley, which lost its third straight game. Westminster beat Los Alamitos, 53-50, in the other league game.

Newport Harbor managed to get within six points of Edison during the fourth quarter, but Vogelsang rallied the Chargers.

## We'd Like To Lease All the Lincolns, Mercurys & Capris!

McCLURE LINCOLN MERCURY  
2225 E. Katella Anaheim 835-2225

# Wear Leads Rancho To Win Over Lobos

Dave Wear scored 10 of his 14 points in the final quarter as Rancho Alamitos broke a 48-48 deadlock in defeating Los Amigos, 74-65, in Garden Grove League action Wednesday night.

# Empire 'Big 3' Keep Winning

It's still a three-way tie for first place in the Empire League basketball race with Katella, Huntington Beach, and Cypress all winning Wednesday night.

Katella raced past Saddleback, 82-47, while Huntington Beach blitzed Anaheim, 79-46, and Cypress downed district rival Kennedy, 69-60. In the other league game, Orange defeated Foothill, 70-50.

Saddleback managed to stay close to Katella early in the first period before the Knights finished off the quarter with a 13-3 spurt. Chuck Greene tallied six in the first period and led a third quarter romp, 28-13, with 10 points.

Huntington Beach did the same thing to Anaheim. The Oilers were up 20-7 after one quarter, outscored the Colony by seven in the second period and was never in trouble. Perry Harbin led Huntington Beach with 20 as the Oilers front line combined for 49 points.

Cypress jumped to a 10-0 lead at the start of the game and never trailed. Kennedy managed to close to within four several times but could get no closer. Fred Randel led Cypress with 23 points.

Huntington Beach did the same thing to Anaheim. The Oilers were up 20-7 after one quarter, outscored the Colony by seven in the second period and was never in trouble. Perry Harbin led Huntington Beach with 20 as the Oilers front line combined for 49 points.

## Foreman Wants New Contract

MIAMI (AP) — Chuck Foreman, rating himself and O. J. Simpson as the National Football League's premier running backs, says he will ask the Minnesota Vikings to renegotiate an \$85,000-a-year contract because he is underpaid.

"I don't want it to be anything controversial, but I'm going to have my contract renegotiated," Foreman said in an interview with the Miami News. "I want it to be up there with the best... and it should be. Rather, it will be. I'm just going to get the money that's coming to me."

Foreman said he earned \$34,000 this past season when he rushed for more than 1,000 yards, caught a league-leading 73 passes and led the National Conference with 22 touchdowns.

He said a contract he has already signed calls for \$85,000 a year for the next three seasons, with a \$10,000 bonus available each year if he plays a specified number of games.

"Everybody thinks I'm making \$150,000," said the former University of Miami star, who resides here in the off-season.

## The Short Circuit

### Coliseum Sellout Bill Killed

SACRAMENTO (AP) — A Wednesday, but a hospital spokesman declined to release his condition early today.

OAKLAND (AP) — The Oakland A's announced 50-cent increases today on prices of first and second deck seats for their games in the 1976 baseball season.

The bill by Assemblyman Vincent Thomas, D-San Pedro, would have declared the capacity of the Los Angeles Coliseum to be 78,000 seats instead of the current 92,000.

Federal law the last two years, now up for renewal by Congress, has required the televising of National Football League games in the home city if the games are sold out 72 hours in advance.

But Thomas said the Rams added 14,000 seats with limited view of the field, insuring them against a sellout for most games.

"Many seats are so far away from the playing field that it's difficult to distinguish the number of a player... or the team he plays for," Thomas said.

With his bill, he said, "people could see some of these games played in the stadium that these people own."

The Coliseum was built with public bond money on state property.

Some opponents called the bill an infringement on private business. Assemblyman Robert Cline, R-Northridge, noted that other sold-out events, both sporting and cultural, aren't normally televised.

Assemblyman William Thomas, R-Bakersfield, was worried that Rams owner Carroll Rosenbloom might follow the example of the pro basketball Los Angeles Lakers, who reacted to contract restrictions by moving out of their publicly owned arena.

The bill stalled on a 37-24 vote, 17 short of the two-thirds majority needed for passage. Its author said he would seek another vote later.

### Eight Seconds Left; Hey Sinks Clincher

(Special to The Register)

HILLO, Hawaii — Greg Hey hit an eight-footer with eight seconds left in the contest to lift Chapman College to a 95-94 win over the University of Hawaii at Hilo Wednesday night.

Hilo, down by eight with two minutes back, rallied to take the lead at 94-93 when Allen Tamabe hit a pair of free throws with 20 seconds left in the contest.

Chapman built up a 41-31 lead late in the first half but Hilo rallied and held a 53-52 edge with two seconds left. Mike Adams made a desperation 65-foot attempt and Lenard Prewitt tipped it in to give the Panthers a one-point halftime edge.

Both teams hit 50 per cent with Chapman connecting 40 of 80 while Hilo made 34 of 68. Chapman hit 15 of 20 free throws while Hilo hit 26 of 30.

Prewitt scored 22 while Adams hit 20 for Chapman while Gilbert Hicks, formerly of Harbor College, led Hilo with 24.

CHAPMAN (19-5) Prewitt 22, Hey 10, Kinley 4, Clark 17, Adams 20, Weller 4, Hilo (16-14) Hicks 24, Everette 4, Holt 18, Redford 18, Tamabe 17, Chenail 18. Fouled out—none. Halftime: Chapman 34, Hilo 32. Aft.—6000

## Vanguards At Northridge State

Southern California College time home setback to the Matadors and figure to have little trouble with struggling L.A. Randy Adams with 60 points in Fred Glaser has come off the bench to become the big scoring gun ahead of fellow freshman Randy Adams with 60 points in the last three games.

SAN FRANCISCO (AP) — Catcher Dennis Littlejohn, who played at Southern Cal, has been signed by the San Francisco Giants "for a substantial bonus" and assigned to the Phoenix Pacific Coast League club.

Littlejohn, 6-foot-2 and 215 pounds, left USC after his junior year to sign a professional contract. He was the Giants' first choice in the secondary phase of baseball's January draft of free agents.

LOS ANGELES (AP) — With Ryan O'Neal, Burt Reynolds and Lee Majors in attendance it might look more like a Hollywood premier than a routine welterweight fight.

In tonight's main event at the Olympic Auditorium, Andy "The Hawk" Price meets Rudy Barro of the Philippines. Reynolds and Majors are co-managers of Price, and O'Neal will be ringside with his co-star Reynolds in a film they are now making.

Price, an up-and-coming welterweight fighter with a 19-1 record, hopes for revenge against Barro, 51-7, for on Feb. 7, 1974, Barro stopped Price in two rounds. It was Andy's only loss to date.

GREENSBORO, N.C. (AP) — Stock car driver Richard Petty, 38, remains hospitalized at Moses one Hospital for treatment of peptic ulcers.

Petty, of Randleman, was reported in "good" condition.

# Titans Begin 'Critical Week' With Fresno State

The REGISTER Thursday, January 29, 1976 D5

PCAA STANDINGS

Team	W	L	T	PF	PA
Long Beach State	10	0	0	1074	1104
San Diego State	9	1	0	1022	1026
San Jose State	8	2	0	1064	1027
Fresno State	7	3	0	1067	1027
Fullerton State	6	4	0	1114	1163
Pacific	5	5	0	1114	1163

TONIGHT — Fresno at Fullerton, 7:35; Long Beach at San Diego, San Jose at California.

Tonight's game is our biggest of the season and to even consider having a chance to be in the PCAA race we have to win both home games this week," says Fullerton State head basketball coach Bob Dye.

Both tipoffs are at 7:35.

Behind his reasoning are these facts:

The Titans began their 10-game league slate by dropping a three-point road verdict to

title favorite San Diego State and after playing here for the first time since mid-December they go away for two more.

Fullerton is 3-1 at the school gym, not counting the upset of Athletics in Action, in a 9-6 season and went 4-5 during the long road trip.

Fresno divided two PCAA outings last weekend for a 9-8 record. Long Beach (2-0) is at San Diego in tonight's other action.

"Mel Sims (assistant) scouted Fresno in two recent games and was impressed," says Dye. "They have fine players."

With 6-6 Tim Dwyer and 6-5 leaper Kerry Davis better after sessions with tonsillitis and a sprained toe, Dye will stay with

a lineup of Dwyer, 6-5 Greg Bunch, 6-8 Al Fruhwirth, 6-2 Andrew Jones and Donny Daniels, 6-4.

Bunch is averaging 15.3 points and 9.1 rebounds. Dwyer is hitting 13.4 points and Kevin Heenan 12 a game while leading in shooting. Davis averages 8.9 caroms and 8.6 points.

Fresno hit 77 points in beating Pacific and 69 in bowing to 1-1

San Jose State compared to averaging 13.4 points and 7.8 rebounds. Experienced guards

Shanks (14 assists) are loop leaders in PCAA play. Three of Fresno's early losses were in overtime—one to Fullerton victim Bakersfield State. The Bulldogs defeated CSF conqueror Boise State in an extra period.

## Titan Girls At Biola

The Fullerton State girls go after their sixth straight basketball victory tonight at Biola.

Now 5-0 in league play and 5-1 in all, the Titans have had good balance in scoring and rebounding.

## Pro Gets 'Ace' At Mile Square

Some of the golf professionals were having a field day at Mile Square Golf Course in Fountain Valley and Greg Wilson gave them a lesson.

The top assistant professional at the Brookhurst-at-Warner links aced the 160-yard fourth hole with a six iron. "The Golden Ram I hit had eyes," kidded Wilson as he paid off the hole-in-one drinks to Bobby Johns, Ralph Oles and Tony Basele. The latter three were his playing partners. Wilson grossed 68 for the round, two off the course record.

# 'Winternationals' Time Trials Start

By ART PARRA

The first national confrontation in determining the quickest drag racing cars for 1976 will get under way today at Pomona when the 16th annual NHRA Winternationals conduct technical inspections, time trials and qualifying.

At stake are eight championships and a posted cash purse of more than \$270,000. Also on the line are valuable Winston points applying toward Winston World Championships in the professional brackets of Top Fuel, Funny Car and Pro Stock. Qualifying and preliminary class eliminations are scheduled at the Los Angeles County Fairgrounds track, scene of the Winternationals, through Saturday to establish lineups for Sunday's 11 a.m. finals. The track is located in Pomona.

The Winternationals, second oldest drag racing event in the world, is the first of 43 national and regional races comprising the \$2.6-million Winston World Championship Series.

The field looks like the "who's who" in drag racing.

One of the crowd favorites

## Bits From Pits

will be Shirley "Cha Cha" Muldowney, twice runner-up at major NHRA national events a year ago. She will be making her first appearance since being named to the Race Writer's All-American Driving Team.

"Cha Cha" will not be the lone female pilot. Judy Lilly has been installed as one of the best in the Super Stock Eliminator division. The two best known and most successful women in drag racing, Shirley and Judy both enjoyed their most productive seasons in 1975. Ms. Muldowney has had as many feature articles as the "Big Daddy" of drags, Don Garlits. Despite all this attention, Ms. Muldowney is still seeking her first national event victory.

Standing solidly in her way will be such Top Fuel figures as Gary Beck and Marvin Graham, the event record holder and 1974 National Champions respectively. Ms. Lilly, unlike "Cha Cha," is no stranger to the winners' circle. The 31-year-old Colorado housewife is the winningest woman in drag racing with four national event victories, all in Super Stock competition.

Topping the Funny Car field will be Don "The Snake" Prudhomme. The 34-year-old pro can hardly expect a year like experienced in '75. All he did was (1) win six of eight NHRA national events; (2) break the five-second elapsed time bar-

rier for full-bodied cars; (3) set a new top speed record in the Funny Car division; (4) win the Winston World Championship; and (5) establish new records for most Funny Car victories in a career and one season.

So what's left? "The 1976 season, 1977 season and as many as I get prepared for," laughed The Snake.

Petty Hospitalized  
The winningest race driver in history is in the hospital but it wasn't a crash wall that sent him there. Richard Petty "King of the Road," is in a Greensboro, North Carolina, hospital having treatment on an ulcer condition. He has sent

The Austrian took the first step in retaining the Formula One World Championship by handily winning the Brazilian Grand Prix last Sunday when

word to alert his many friends that it isn't anything serious and he'll be back in action before the next big race.

U.S. Grand Prix-West  
The wheels are beginning to turn for the coming United States Grand Prix-West, slated for Long Beach city streets, on March 28. Grand Prix officials are pointing toward the victory of Niki Lauda last week and predicting the popular driver will repeat his 1975 World Championship form.

The Austrian took the first step in retaining the Formula One World Championship by handily winning the Brazilian Grand Prix last Sunday when

revealed some important facts about his engine. "The newly designed Drake championship engine will be run on the circuit this year by the majority of race cars," he said as a result of tests on the new engine. An increase from 3,000 to 3,500 horsepower and a torque peak of 250 ft.-lb. on the new engine as compared to 240 ft.-lb. on the old engine, Drake said, is some indication "we'll stay on top of this for improvement and change the case of a Drake/only driving into the winners' circle at day is still very good," he said.

Protest Rooted  
Protest Rooted is going racing again this year. The 30-year-old driver is going to back Al Loukaitis, Jr. in a SCCA Formula One Grand Prix. The first championship race will be held in Phoenix on March 21st.

## Pioneer's Solis 'Steals' Win

Ruben Solis stole the ball and scored a layup with 0:15 left in the game to insure Pioneer High's 84-82 victory over visiting Montebello in Wednesday's Whitmont League basketball game.

Solis' steal and score came less than a minute after Gus Garcia had sunk two free throws to give Pioneer a one-point lead in the game. Earlier Pioneer had led by as many as 16 points, but got into foul trouble which enabled Montebello to rally.

Solis' steal and score came less than a minute after Gus Garcia had sunk two free throws to give Pioneer a one-point lead in the game. Earlier Pioneer had led by as many as 16 points, but got into foul trouble which enabled Montebello to rally.

## Two Top Rustlers At Colorado St.

Colorado State University has landed two of Golden West College's outstanding football players in running back Mark Davis and defensive tackle Mark Nichols.

Both players left for Fort Collins last week to enroll in winter quarter classes and prepare for spring football drills with the Rams.

Davis is Golden West's single season rushing leader. He gained 1,303 yards last season and was named the player of the year in the Southern Cal Conference.

A former La Quinta High star as a prep, Davis said he chose Colorado State because of its offensive style of attack. Los Angeles Rams back Lawrence McCutcheon is a Colorado State graduate.

"They run the veer offense just like we did at Golden West, so I won't have to learn a new system," said Davis. "Also, I was the only community college back they recruited so I'll have an excellent opportunity to play."

Nichols, a two-time all-conference defensive tackle, will make a switch in positions at Colorado State.

## Don Boosters' Golf Planned

Santa Ana College will host its first annual Don's Booster Club Golf Tournament at Riverview Golf Course on April 23.

Open to all Don sports fans, alumni and friends of the college, the tournament will help support a quality athletic program at Santa Ana College.

The tournament field will include celebrity guests Bob Boyd of USC, Geoff Petrie of the Portland Trail Blazers and others to be announced, along with the Don coaching staff.

The entry fee of \$30 will cover green fees, cart, golf balls, cocktails and a buffet dinner which will include awards presentations. Any golfer hitting a hole-in-one in the tourney will win a 1976 Datsun 280Z.

Golfers needing additional information should contact tournament chairman Roland Todd at Santa Ana College.

## Girls' Softball Tryout Friday

The Bicentennial Imperial women's fast-pitch softball team of Anaheim will hold tryouts for girls wishing to play softball on a summer team.

Tryouts will be held at Pearson Park, 400 No. Harbor, on Friday night at 6:30 and Sunday afternoon at 1:30.

Girls 16 years old and older, are eligible.

The Bicentennial Imperials are planning to play A.S.A. ball all summer in the Southern California Women's League.

## Youth Signups

The Tustin Bobby Sox Girls' Softball League will open registration for the 1976 season on Sat. morning, Feb. 7, from 9 to 12:30.

Additional dates for registration are Feb. 21, from 7 to 9:30 a.m.; Feb. 28, from 9 a.m. to 12:30 p.m.; and March 7, from 9 a.m. to 12:30 p.m.

This year's league is introducing Mini-Sox for 10 and 11-year-old girls. As before, a girl who has her 10th birthday before Dec. 31 is eligible for Bobby Sox.

The geographical boundaries of the league are Irvine Blvd. on the south, Fairview on the north, Grand on the west and Canyon Rd. on the east.

Residents must be accompanied by a parent or legal guardian and must bring a birth certificate or other legal proof of age. Sign-up fee is \$20. This includes insurance, uniforms and game equipment.

Practices start March 15. League play is scheduled through June. Practices and games will be held at Del Norte School, 16341 Lassen Dr., Santa Ana.

Bobby Sox Softball is sanctioned by National Youth Soccer Association. More than 500 girls annually participate in the Youth League.

For more information, call 555-1234. Signups for the Tustin Bobby Sox League are scheduled Saturday and Feb. 14 from 10 a.m. to 3 p.m. at Tustin School. Girls 9 through 15 years of age are eligible.

### GUARANTEED DLG-100 RETREADS

RETREAD LIMITED WARRANTY

If a Firestone brand retread becomes unserviceable in normal passenger car use for reasons other than road hazard damage, abuse, vandalism, accident, or repairable puncture, any Firestone store or dealer will replace it free (except for a service charge) providing the claim is made during the tire's first 10% of tread wear or the first 180 days of use (proof of purchase date required). Thereafter the tire will be replaced on a pro rata tread wear basis, charging only for the tread worn off, based on the then current adjustment price (approximate national average selling price) plus service and taxes. During the first 50% of tread wear, road hazard damage will be adjusted on a pro rata basis or for a minimum charge of \$2.50, whichever is greater.

## BUSINESS LIMELIGHT

By Gene Wekall  
Register Business Editor

### Sandy And The Subaru

In 1960, a 16-year-old girl arrived in Santa Ana with \$35 and no friends or acquaintances in the area.

Sandy Andrews overcame all obstacles and has been appointed general manager and director of Subaru of Southern California directing 32 auto dealerships.

Sandy arrived from Minnesota on a damp, chilly day which belie what she had read of the sunny Southland. She is one of 11 children and as she said, "When you are part of a large family you are sometimes pushed out of the nest."

She found a room in Santa Ana with a pull-down bed but no refrigerator. She took a series of jobs from bookkeeper to cashier to managing a laundromat. She worked during the day and took business courses at night at Santa Ana Community Coll and Orange Coast.

About eight years ago she went to work with a company which was going to set up retail agencies for the small Subaru 360. When that fell through she found herself working for Subaru of Southern California.

"I was in fact its first employee as secretary of the president," said Sandy. "For me it was love at first sight with the automobile industry in general and Subaru in particular."

She earned her present position by hard work, sleepless nights learning the industry, the cars, her company and its aims and objectives.

When she was named general manager and director, there were those in the company who "nearly came apart," she said.

"It was mainly because I was a woman—that dumb blonde. I had a hard time at first convincing several that I had authority to sign major contracts."

When she took over Subaru of Southern California in January 1975, the distributorship ranked 13 on a list of 13. The word was that Subaru of Southern California was not only ailing but was "terminal."

"Perhaps that is why they gave me the top job—someone to play caretaker," she laughed.

The turnaround began slowly and then took off. By October, Subaru of Southern California was number one of the 13 distributorships. Sandy's enthusiasm, dedication and talent paid off. She improved the dealers'

SANDY ANDREWS

service training, established a new parts training school for service managers and formed a dealer advertising council. Subaru sales figures for Arizona and Southern California, which totaled 1,269 in 1974, zoomed to 2,161 last year.

She is married to Donald Andrews who runs Andrews Rain Gutters Inc., Santa Ana; the couple lives in Irvine.

She and Don hope to build their dream house overlooking the ocean near San Clemente.

Homelife isn't exactly simple for the Andrews since she must spend so much time at the job.

"Fortunately, Don is understanding. He all too often gives 18 hours a day to his own business," she said.

However, she said, "It's not easy to balance marriage and business. Fortunately for us it's working out."

When she took over Subaru of Southern California in January 1975, the distributorship ranked 13 on a list of 13. The word was that Subaru of Southern California was not only ailing but was "terminal."

"Perhaps that is why they gave me the top job—someone to play caretaker," she laughed.

The turnaround began slowly and then took off. By October, Subaru of Southern California was number one of the 13 distributorships. Sandy's enthusiasm, dedication and talent paid off. She improved the dealers'

has just completed a tour of South Africa's first coal conversion plant. The company officials said they were deeply impressed with Sasol because of its advantages over nuclear energy as far as a threat to the environment was concerned.

Bagge said South Africa is the "only nation in the free world to make a commitment to the use of coal" for energy.

One of the visitors estimated that it would take at least five years to build a Sasol-type plant and each would cost between \$1 billion and \$2 billion.

Bagge said the United States has more than half the free world's coal reserves and the coal industry hopes to double production from 610 million tons a year to 1.2 billion tons a year in the next decade.

good. Of that, 1,291 were in Los Angeles County. He said the closure rate in the county was one every day and a half.

Across the state 18,605 stations were in operation on Jan. 1, making it the lowest level since 1957, when 18,524 stations were open. Nevins said in a statement Tuesday.

"What makes these figures even more remarkable is that the total amount of gasoline pumped in the state in 1975 was less than five billion gallons whereas today it exceeds 10 billion gallons a year," he said.

In Los Angeles County there are fewer stations now than in 1949, when the board began publishing a record of retail outlets. In the last six months 118 stations have shut down their pumps, leaving only 5,568 stations open on Jan. 1.

Invitations have been mailed for a preview reception at 5:30-8:30 p.m.

## GM's Vehicle Sales Outside U.S. Rise 10%

DETROIT (AP) — General Motors' retail vehicle sales outside the United States and Canada last year rose 10 per cent above 1974 levels, the automotive giant's Overseas Operations Division reports.

The division said it sold 1.47 million vehicles overseas in 1975, up from 1.34 million the year before. Sales, however, were off 7 per cent from record unit sales of 1.57 million in 1973.

"There are increasing signs that economic conditions in many countries around the world are improving," said Harold W. Gage, general manager of GM's overseas division. "Given continued economic progress, overseas motor vehicle sales should show further improvement in 1976."

GM sold 4.79 million vehicles in the United States last year, up three-tenths of 1 per cent from 4.78 million units the firm sold in 1974 but down 25 per cent from the record 6.35 million unit sales set in 1973.

Canadian sales figures were not immediately available, a GM spokesman said.

## World Bank Delays Chile Copper Loan

WASHINGTON (AP) — The executive board of the World Bank Tuesday delayed action on a \$33 million credit requested by Chile to rehabilitate its copper industry.

A number of international organizations including Amnesty International, were reported lobbying against the measure to force President Augusto Pinochet to soften the repression of political dissidents.

Bank sources said the board could consider the issue next Tuesday.

A credit request can be halted by the bank secretariat or at the request of any of the 20 member executive board which currently is made up of representatives of Algeria, Germany, Belgium, Canada, United States, France, Great Britain, Japan, Holland, Italy, India, Iceland in behalf of the Scandinavian countries, Malaysia, New Zealand, Syria, Sudan, Colombia, Uruguay and El Salvador.

The sources said that at the start of the meeting the board's secretary announced the Chilean issue was being withdrawn from consideration, but gave no word of who asked for the move.

The Chilean National Copper Corporation (CODELCO) wants the money to implement a \$76 million plan to iron out production problems in order to be able to increase exports.

LOS ANGELES (AP) — A suit charging the Akron stores with false, advertising, unfair competition and unlawful business practices has been settled with an agreement that the chain will pay \$5,000 in civil penalties.

A stipulated judgement was handed down in Superior Court Tuesday without a trial and with the company having made no admission of guilt. In the suit, filed by Dep. City Atty. Joseph A. McCarthy, Akron was accused of advertising 5.66 per cent discounts as six per cent discounts.

Adjustments in the estimated loss on the disposal of certain assets and the use of a portion of a tax loss carry forward added 5 cents per share to 1975's net income for a total of \$1.22 per share.

Fourth quarter sales were \$8,975,000, up 32 per cent over sales in the fourth quarter 1974. Earnings after taxes and before discontinued operation and extraordinary item was \$2,953,000, equal to \$1.17 per share, compared to \$1,709,000, or 70 cents, earned in 1974.

## Westinghouse Profits Soar To 6 Times Above 1974 Peg

PITTSBURGH (AP) — Westinghouse Electric Corp., troubled financially in 1974 with substantial losses in such things as appliances, elevators and rental cars, Wednesday reported that its 1975 profits were almost six times more than a year before.

"A year ago, we were struggling with a number of problems in trying to get back on a more profitable path," chairman Robert E. Kirby said at a news conference.

"I view as a report card the 1975 earnings results. While we're certainly not getting A's in all subjects, the results suggest that we are moving in the right direction."

The company's net income in 1975 was \$165.2 million, or \$1.89 per share on sales of \$5.9 billion. That compared with 1974 earnings of \$28.1 million, or 31 cents per share, on sales of \$5.8 billion.

Net income in 1974 however, included losses of \$71 million from disposal of discontinued businesses and \$40 million from loss of operations of discontinued businesses.

The 1975 net income included \$13.4 million in losses for disposal of discontinued businesses.

Westinghouse said its fourth-quarter earnings were \$54 million, or 62 cents per share, on sales of \$1.7 billion. That compared with losses the same period last year of \$76 million, or a loss of 87 cents per share, on sales of \$1.8 billion.

### Cal Computer

ANAHEIM (BW) — California Computer Products Inc. reported a dramatic turnaround from three successive loss quarters in the second quarter of fiscal 1976, ended Dec. 28.

Pretax earnings in the second quarter were \$251,000 compared with a pretax loss of \$3,205,000 in the first quarter. Revenues for the second quarter were \$31,495,000 compared with \$26,655,000 in the first quarter.

For the six month period a net loss of \$3,093,000 was reported on revenues of \$58,153,000 compared with net income of \$1,052,000 on revenues of \$64,746,000 a year ago.

### Union Pacific

NEW YORK (BW) — Union Pacific Corp. in 1975 again reached new highs in net income and in gross revenues and sales, Frank E. Barnett, chairman of the board and chief executive officer, announced Tuesday (Jan. 27).

Earnings in 1975 were \$148.6 million, an increase of \$23.4 million, or 19 per cent from 1974 restated net income of \$125.2 million. Earnings per share were \$6.42 in 1975, a gain of 96 cents, from the \$5.46 earned in 1974.

### Hilton Hotels

BEVERLY HILLS (BW) — Hilton Hotels Corp. achieved record operating earnings per share in the fourth quarter and for the full year 1975, Barron Hilton, president, announced Wednesday (Jan. 28).

In the fourth quarter, earnings from operations per share increased 69 per cent, and for all of 1975 were up 31 per cent over 1974.

### Scott Paper

PHILADELPHIA — Scott Paper Company posted record 1975 fourth quarter earnings of 63 cents per share and reported earnings for the year of \$1.87, off seven per cent compared to 1974. Fourth quarter earnings were the highest for any quarter in the company's history and were 6 per cent ahead of the 59 cents earned in the same quarter a year ago.

### Allergan Pharm.

IRVINE (BW) — Allergan Pharmaceuticals announced that sales for the full year totaled \$33,052,000, up 30 per cent over 1974 sales of \$25,396,000.

Income after taxes and before discontinued operation and extraordinary item was \$2,953,000, equal to \$1.17 per share, compared to \$1,709,000, or 70 cents, earned in 1974.

Adjustments in the estimated loss on the disposal of certain assets and the use of a portion of a tax loss carry forward added 5 cents per share to 1975's net income for a total of \$1.22 per share.

## Govt. Policies Only Dark Cloud On Economy — Bank

NEW YORK (AP) — Possible election year programs aimed at speeding up economic recovery are "the only potential dark cloud on the economic horizon," Telford C. Gaines, senior vice president and economist of Manufacturers Hanover Trust, said Wednesday.

"The economy is on a solid growth path, and there is every reason for confidence that it will remain on that path for at least the balance of this year and into 1977," Gaines said in remarks prepared for the U.S. House of Representatives Budget Committee.

He added, "The only possible development that might throw us off this path of growth and reduced inflation would be unwise government policies."

Gaines said that a moderate rate of recovery would give industry time to enlarge capacity to meet growth demand but that an accelerated rate of recovery would lead to a renewal of severe price inflation.

"Were this to be the process of the economy in 1976," he said, "it could be guaranteed that the end result by late 1977 or 1978 would be another recession, probably more severe than the one we worked our way out of in the spring of last year."

Gaines also predicted that the real Gross National Product in 1976 should be up by about 5 to 6 per cent over last year, with the "good prospect that the rate of consumer price inflation by December might be running below 4 per cent."

## Oxy, Peru Reported Near Pact

LIMA, Peru (AP) — Occidental Petroleum of the United States and Petroperu, the state company of Peru, will shortly sign a major contract providing an outlet for oil Occidental discovered in Peru's jungles.

Informed petroleum sources close to the agreement say that Petroperu has agreed to build a spur pipeline from Occidental's concession area costing

some \$100 million. The spur would link the Occidental wells to the northern Peru pipeline which cuts across the country to Bayovar on the coast. The trunk line's estimated cost is some \$665 million.

It was expected that Petroperu would seek financing in American, European and perhaps Middle Eastern centers.

### LEGAL NOTICE

RESOLUTION NO. 767  
A RESOLUTION DECLARING THAT PROCEEDINGS HAVE BEEN INSTITUTED BY THE CITY COUNCIL OF THE CITY OF TUSTIN TO ANNEX TO SAID CITY CERTAIN UNINCORPORATED TERRITORY DESCRIBED HEREIN, AND DESIGNATED AS "WALNUT-NEWPORT-MITCHELL ANNEXATION NO. 53" TO THE CITY OF TUSTIN AND GIVING NOTICE OF THE PROPOSED ANNEXATION.

The City Council of the City of Tustin, California, do hereby resolve as follows:

1. The owners of seventy percent of the property of the heretofore described territory having requested and consented to the annexation of said territory to the City of Tustin all that territory situated in the County of Orange, State of California, designated "Walnut-Newport-Mitchell Annexation No. 53" described in Exhibit "A" attached hereto and incorporated herein by this reference as though set forth in full.

2. The City Council hereby finds and determines that all of said territory is unincorporated within the meaning of Government Code Section 53303, on the date of the adoption of this Resolution, that said territory is contiguous to the City of Tustin.

3. The Local Agency Formation Commission, in session duly assembled, on January 14, 1975, did adopt the negative declaration and approved said proposed annexation.

4. The property within the annexed territory shall be taxed to pay the indebtedness and liability of the City contracted prior to or existing at the time of annexation.

5. That said territory described in Exhibit "A" attached hereto and incorporated herein by this reference as though set forth in full is designated and identified as "Walnut-Newport-Mitchell Annexation No. 53."

6. Notice is hereby given that on the 1st day of March, 1976, at the hour of 7:30 p.m., in the Council Chambers, City Center, Centennial at Main, Tustin, California, any person owning real property within said territory so proposed to be annexed, and having any objection to the proposed annexation, may appear before said City Council and show cause why such territory should not be annexed. Such protest must be in writing and shall state the name or names of the owner or owners of the property affected by such annexation and the location and area of such property, in general terms. If it be found that protest is not made by public and private owners equal to one-half of the value of the territory, further proceedings shall be taken to annex said territory.

7. Tustin, hereby certifies to the adoption of this Resolution and cause the same to be published in the Tustin News, a newspaper of general circulation, printed and published in the City of Tustin, County of Orange, State of California, and in The Register, a newspaper of general circulation, printed and published outside the City, but in the County in which is located

the territory proposed to be annexed.

PASSED AND ADOPTED at a regular meeting of the City Council of the City of Tustin, held on the 19th day of January, 1976.

Donal J. Saltarelli  
MAYOR

ATTEST  
Ruth C. Poe  
CITY CLERK

LEGAL DESCRIPTION FOR THE WALNUT-NEWPORT-MITCHELL ANNEXATION NO. 53 TO THE CITY OF TUSTIN, CALIFORNIA

PARCEL 1  
Beginning at the point of intersection of the centerlines of Newport Avenue and Walnut Avenue as shown on a map of Tract No. 5028 recorded in Book 178, pages 21 and 22 of Miscellaneous Maps, Records of Orange County, California;

Thence, S. 50°00'46" E., along the centerline of Walnut Avenue, a distance 660.59 feet to the northerly corner of said Tract No. 5028, said corner being the true point of beginning;

Thence, S. 39°39'47" W., along the northwesterly line of said Tract No. 5028, a distance of 660.35 feet to an angle point in the existing City of Tustin boundary as established by the Newport Avenue-Mitchell Avenue Annexation, per Ordinance No. 170, passed and adopted March 19, 1962, through the following courses:

N. 50°00'36" W., a distance of 710.73 feet; Thence, N. 40°00'00" E., a distance of 700.38 feet;

Thence, S. 50°00'46" E., a distance of 710.69 feet to the point of intersection with the northwesterly prolongation of the northwesterly boundary of said Tract No. 5028;

Thence, leaving the existing City of Tustin boundary, a distance of 40.00 feet to the true point of beginning;

PARCEL 2  
Beginning at an angle point in the existing City of Tustin boundary as established by the Pankey Annexation per Ordinance No. 99, passed and adopted April 22, 1956, said angle point also being a point on the northwesterly line of block 11 of Irvine's Subdivision, as per map recorded in Book 1, page 88 of Miscellaneous Maps, Records of Orange County, California; said angle point being distant S. 39°39'47" W., 767.6 feet more or less from the northerly corner of said Block 11;

Thence, leaving said northwesterly line of Block 11, along the existing City of Tustin boundary per above mentioned Pankey Annexation through the following courses:

S. 50°00'36" E., a distance of 40.00 feet; Thence, S. 39°39'30" W., a distance of 496.40 feet;

Thence, S. 50°00'30" E., a distance of 96.01 feet to an angle point in said City of Tustin boundary, said angle point also being the most westerly corner of Tract No. 1863, as per map recorded in Book 54, page 29 of Miscellaneous Maps, Records of said Orange County;

Thence, leaving the existing City of Tustin

boundary, S. 39°30'30" W., along the southwesterly prolongation of the most northerly boundary of said Tract No. 1863, a distance of 53.00 feet to the point of intersection with the existing centerline of Mitchell Avenue, said point also being on the northerly line of lot 48, Block 11, of said Irvine's Subdivision;

Thence, along the existing centerline of Mitchell Avenue and along said northwesterly line of lot 48, S. 50°00'30" E., a distance of 113.88 feet to the point of intersection with the northeasterly prolongation of the northwesterly boundary of Tract No. 5271, as per map recorded in Book 194, pages 14 and 15 of Miscellaneous Maps, Records of said Orange County;

Thence, leaving said centerline of Mitchell Avenue and said northeasterly line of lot 48, S. 50°00'30" W., a distance of 335.04 feet to the westerly corner of said Tract No. 5271, a distance of 335.04 feet to the westerly corner also being a point on the existing City of Tustin boundary as established by the Fredricks Annexation per Ordinance No. 327, passed and adopted February 6, 1967;

Thence, along the existing City of Tustin boundary per above mentioned Fredricks Annexation and the McFadden-Newport Annexation per Ordinance No. 170, passed and adopted March 19, 1962, through the following courses:

N. 49°20'46" W., a distance of 250.02 feet; Thence, S. 39°39'30" W., a distance of 329.05 feet;

Thence, S. 50°00'30" E., a distance of 50.00 feet;

Thence, S. 39°39'30" W., a distance of 60.88 feet;

Thence, S. 50°00'30" W., a distance of 641.54 feet;

Thence, N. 00°31'09" W., a distance of 40.00 feet to a point on the existing centerline of McFadden Avenue, said point also being the southeast corner of Tract No. 4229, as per map recorded in Book 151, pages 15 and 16 of Miscellaneous Maps, Records of said Orange County;

Thence, along said centerline of McFadden Avenue, N. 89°28'51" E., a distance of 667.67 feet to a point, said point being distant S. 89°28'51" E., a distance of 122.02 feet from the intersection of the centerlines of McFadden Avenue and Newport Avenue, said centerline intersection being the southeast corner of the allotment of N. O. Stallford and C. Tustin by final decree in the partition of the Rancho Santiago de Santa Ana, which was entered September 12, 1888 in Book B, page 410 of Judgments of the District Court of the 17th Judicial District in and for Los Angeles County, California;

Thence, leaving said centerline of McFadden Avenue, N. 00°31'09" W., a distance of 40.00 feet to a point, said point being the point of intersection of the northerly right of way line of McFadden Avenue (80 feet wide) and the southwesterly line of a parcel of land described in an undivided Joint Tenancy recorded in Book 729, page 480 of Deeds, Official Records of said Orange County;

Thence, S. 50°00'30" W., along said southwesterly line, a distance of 121.10 feet to the westerly corner of said parcel of land; Thence, N. 39°39'30" E., along the northwesterly line of said parcel of land and along the northwesterly line of those parcels described in the following deeds, recorded in Book 784, page 923; Book 6872, page 707; Book 764, page 482; Book 1154, page 877; Book 1188, page 385; and Book 11407, page 683, of Deeds, Official Records of said Orange County; a distance of 574.00 feet to the northerly corner of last mentioned parcel of land, said northerly corner also being the westerly corner of Parcel 2, of a Record of Survey filed in Book 75, page 45 of Records of Surveys, Records of said Orange County;

Thence, S. 50°00'30" E., along the northwesterly line of last mentioned parcel of land and along the southwesterly line of said Parcel 2, a distance of 50.00 feet to the southerly corner of said Parcel 2, a distance of 50.00 feet to the southerly corner of said Parcel 2, said southerly corner also being the westerly corner of Parcel 1 of said Record of Survey;

Thence, leaving said northwesterly line and said southwesterly line, N. 39°39'30" E., along the southeasterly line of said Parcel 2 and along the northwesterly line of said Parcel 1, and the northwesterly prolongation thereof, a distance of 185.55 feet to the point of intersection with the centerline of Mitchell Avenue, a distance of 14.00 feet to the point of intersection with the southwesterly prolongation of the northwesterly line of lots 1 and 2 of Tract No. 519, as per map recorded in Book 17, page 50 of Miscellaneous Maps, Records of said Orange County;

Thence, leaving said centerline of Mitchell Avenue, N. 39°39'30" E., along said prolongation and said northwesterly line, a distance of 300.77 feet to the northerly corner of said lot 2;

Thence, S. 49°39'40" E., along the northwesterly line of said lot 2, a distance of 0.00 feet to the westerly corner of the parcel of land as shown on a map filed in Book 65, page 6 of Record of Surveys, Records of said Orange County;

Thence, N. 50°00'30" E., along the northwesterly line of said Record of Survey, a distance of 85.43 feet to the point of intersection of said Parcel 1 and the northwesterly line of lot 2 of the Newport Avenue Tract as per map recorded in Book 4, page 76 of Miscellaneous Maps, Records of said Orange County;

Thence, N. 49°51'08" W., along said southwesterly line, a distance of 181.04 feet to the westerly corner of said lot 2;

Thence, S. 89°56'15" E., along the northerly line of lots 2 and 1 of said Newport Avenue Tract, a

## And Consolidated Reports

[illegible]

# Pac Lighting, PG&E In Accord On LNG

Pacific Lighting Corp., parent of the two companies, company of the Orange County utility, has reached an agreement with Pacific Gas & Electric Co., San Francisco, to share equally in the cost and gas volume associated with bringing large new liquefied natural gas (LNG) supplies to California.

Announcement of the agreement was made Wednesday by

The California Public Utilities Commission (PUC) was advised of the agreement Wednesday by Harvey A. Proctor, board chairman of Southern California Gas Co. SCGC serves Orange County residents.

Proctor said the agreement will benefit all California consumers.

"It combines the financial

strength of California's two largest gas utilities to expedite both the approval and development of vital needed gas-supply projects," he said.

The projects include the bringing of LNG equivalent of 200 million cubic feet of gas per day, growing eventually to double that volume, to California from the Cook Inlet of south Alaska and importing approximately 500 million cubic feet of gas in the form of LNG daily from Indonesia.

A critical supply problem facing the nearly six million gas customers in Southern and Northern California, along with the rising financial requirements of bringing new supplies to market, was cited by Proctor as the major reason behind to day's agreement.

Proctor told commissioners that Southern California Gas Co. and its affiliates have al-

ready invested nearly \$60 million in efforts to secure new supplies. Yet these projects still are four or five years away.

This amount of risk capital represents nearly 10 per cent of Pacific Lighting's net worth and well over one year's net income, he said.

Proctor added that his company is not earning today on this huge investment.

"While the agreement with PG&E will spread the financial burden of obtaining new supplies between two companies, the burden remains a heavy one," Proctor noted.

He emphasized that the state's growing shortage can be eased only if the PUC supports efforts to obtain new supplies before federal regulatory agencies and Congress.

Proctor warned that there is no room for additional delay.

"We have before the Federal Power Commission new gas supply projects that if approved in a timely manner would provide new gas in time to resolve the critical supply problem facing Southern California's high priority gas consumers," he stated.

He added that the interest and full support of the PUC is "absolutely vital."

"Regulatory lag must be reduced so we can maintain a reasonable level of earnings," he said.

"With your support we have a good chance to succeed. Without it we almost certainly will fail," Proctor concluded.

## New Air Service

TOKYO (AP) — Direct civil air service will be officially inaugurated Friday between Peking and Phnom Penh, Cambodia, the Chinese news agency Hsinhua reported.

Hsinhua said in a broadcast monitored in Tokyo that "there will be a flight to and from Peking and Phnom Penh on Friday every other week starting Friday."

## Eastern Air Loss

NEW YORK — Eastern Airlines has reported a 1975 net loss of \$49.7 million, compared with a \$11.5 million profit in 1974.

For the three months ended Dec. 31, 1975, Eastern had a net loss of \$3.5 million, compared with a loss of \$7.3 million in the fourth quarter of 1974.

## LEGAL NOTICE

Riverside Superior Court  
400 Main Street

DEFENDANT: PAUL BOUSQUET; ROSE BOUSQUET; CHARLES CUSTON; POOLS; CHRIS SAILOR; and DOES I through XX, inclusive

SUMMONS  
Case Number: 113001  
NOTICE: You have been sued. The court may decide against you without your being heard unless you respond within 30 days. Read the information below.

AVISO: Usted ha sido demandado. El tribunal puede decidir contra Ud. sin audiencia a menos que Ud. responda dentro de 30 días. Lea la información que sigue.

TO THE DEFENDANT: A civil complaint has been filed by the plaintiff against you. (See footnote "a").

If you wish to defend this lawsuit, you must appear in court to answer the complaint. If you fail to appear, a judgment will be entered against you. If you wish to seek the advice of an attorney in this matter, you should do so promptly so that your written response, if any, may be filed on time.

Dated: Jan. 29, 1976  
DONALD D. SULLIVAN, Clerk  
By A. ROWE, Deputy

2. NOTICE TO THE PERSON SERVED: You are served a written complaint. The word "complaint" includes cross-complaint, "defendant" includes cross-defendant, singular includes the plural and masculine includes feminine and neuter. A written pleading, including an answer, demurrer, etc., must be in the form required by the California Rules of Court. Your original pleading must be filed in this court with proper filing fees and proof that a copy thereof was served on each plaintiff's attorney and on each plaintiff not represented by an attorney. The time when a summons is deemed served on a party may vary depending on the method of service. For example, see CCP 413.10 through 413.40.

## LEGAL NOTICE

SUPERIOR COURT OF CALIFORNIA, COUNTY OF ORANGE  
NO. 48212  
ORDER TO SHOW CAUSE  
In re the application of  
ESTHER JULIE PRICE  
Change of Name  
Petitioner, has filed a petition with the Clerk of this Court for an order changing petitioner's name from ESTHER JULIE PRICE to JULIE CARVER.

IT IS ORDERED that all persons interested in the above entitled matter appear before this court at 11:00 a.m., on March 2, 1976 in the courtroom of Room No. 3, at 700 Civic Center Drive West, City of Santa Ana, State of California, and show cause, if any, why the petition for change of name should not be granted.

IT IS FURTHER ORDERED that a copy of this order to show cause be published in The Register, a newspaper of general circulation, printed in Orange County, California, once a week for four successive weeks prior to the date set for hearing on the petition.

## LEGAL NOTICE

P.O. No. 54522  
NOTICE TO CONTRACTORS  
CALLING FOR BIDS  
School District of Santa Ana Unified, Bid Deadline: 11:00 o'clock a.m. on the 4th day of February, 1976. Place of Bid Receipt: Building Services, Building 1301, 1405 French St., Santa Ana, California. Project Identification Name: Resurfacing of Pole Vault, Long Jump, and High Jump Areas at Valley High School. Place Plans are on file: Building Services, Building 1301, 1405 French Street, Santa Ana, California.

NOTICE: IS HEREBY GIVEN that the above-named School District of Orange County, California, acting by and through its Governing Board, hereinafter referred to as "DISTRICT," will receive and, but not later than the above-stated time, sealed bids for the award of a contract for the above project.

Bids shall be received in the place identified above, and shall be opened and publicly read aloud at the above-stated time and place.

There will be a N/A deposit required for each set of bid documents to guarantee the return of bid documents within N/A days after the bid opening date.

Each bid must conform and be responsive to the contract documents.

Each bid shall be accompanied by the security referred to in the contract documents and by the list of proposed subcontractors.

The DISTRICT reserves the right to reject any or all bids or to waive any irregularities or informalities in any bids or in the bidding.

The DISTRICT has determined the general prevailing rate of per diem wages in the locality in which this work is to be performed for each craft or type of workman needed to execute the contract. These rates are on file at the DISTRICT office located at 1405 French Street, Santa Ana, California, 92701. Copies may be obtained on request. A copy of these rates shall be posted at the job site.

Each bid shall include a schedule of per diem wages to be used on a working day of eight (8) hours. The rate for holiday and overtime work shall be at least time and one-half. It shall be mandatory upon the CONTRACTOR to whom the contract is awarded, and upon any subcontractor under him, to pay not less than the specified rates to all workmen employed by them in the execution of the contract. No bidder may withdraw his bid for the opening of bids.

A payment bond and a performance bond will be required prior to execution of the contract. The payment bond shall be in the form set forth in the contract documents.

ERMA BOMBECK

## Media Students Collect Samples Of 'Momisms'

A while back my son did an essay on "Things My Mother Taught Me."

Of all the wonderful, profound bits of wisdom I have passed onto him, he preferred to dwell on my logic: "If you fall off that swing and break your neck, you are not going to the store with me," etc.

A group of kids in a mass media class were enchanted with the column and sent me more "Momisms" as they remembered them.

You're welcome to read them... if you can bear the pain of seeing yourself in print.

"If you don't stop crying, I'll give you something to cry about."

"People who talk don't know what they're talking about."

"If you cut off your finger with that knife, no one is going to put it back on for you."

"If you don't stop watching all that violence on television, I'm going to put a dent in your behind." (?)

"If you go to the movies tonight, you can't go tomorrow night."

"You have a good time at your aunt's house... or else!"

"Clean your plate. Half of the world wants your leftovers."

"Shut the door! Are you part Eskimo?" ("YOU don't know?")

"Don't you think I know when you have to go to the bathroom?"

"Never put your hand in the broiler unless you want broiled hands for dinner."

"Go to your room this instant... DON'T TURN YOUR BACK ON ME WHILE I AM TALKING TO YOU."

"If Mommy didn't love you, she'd never smack you."

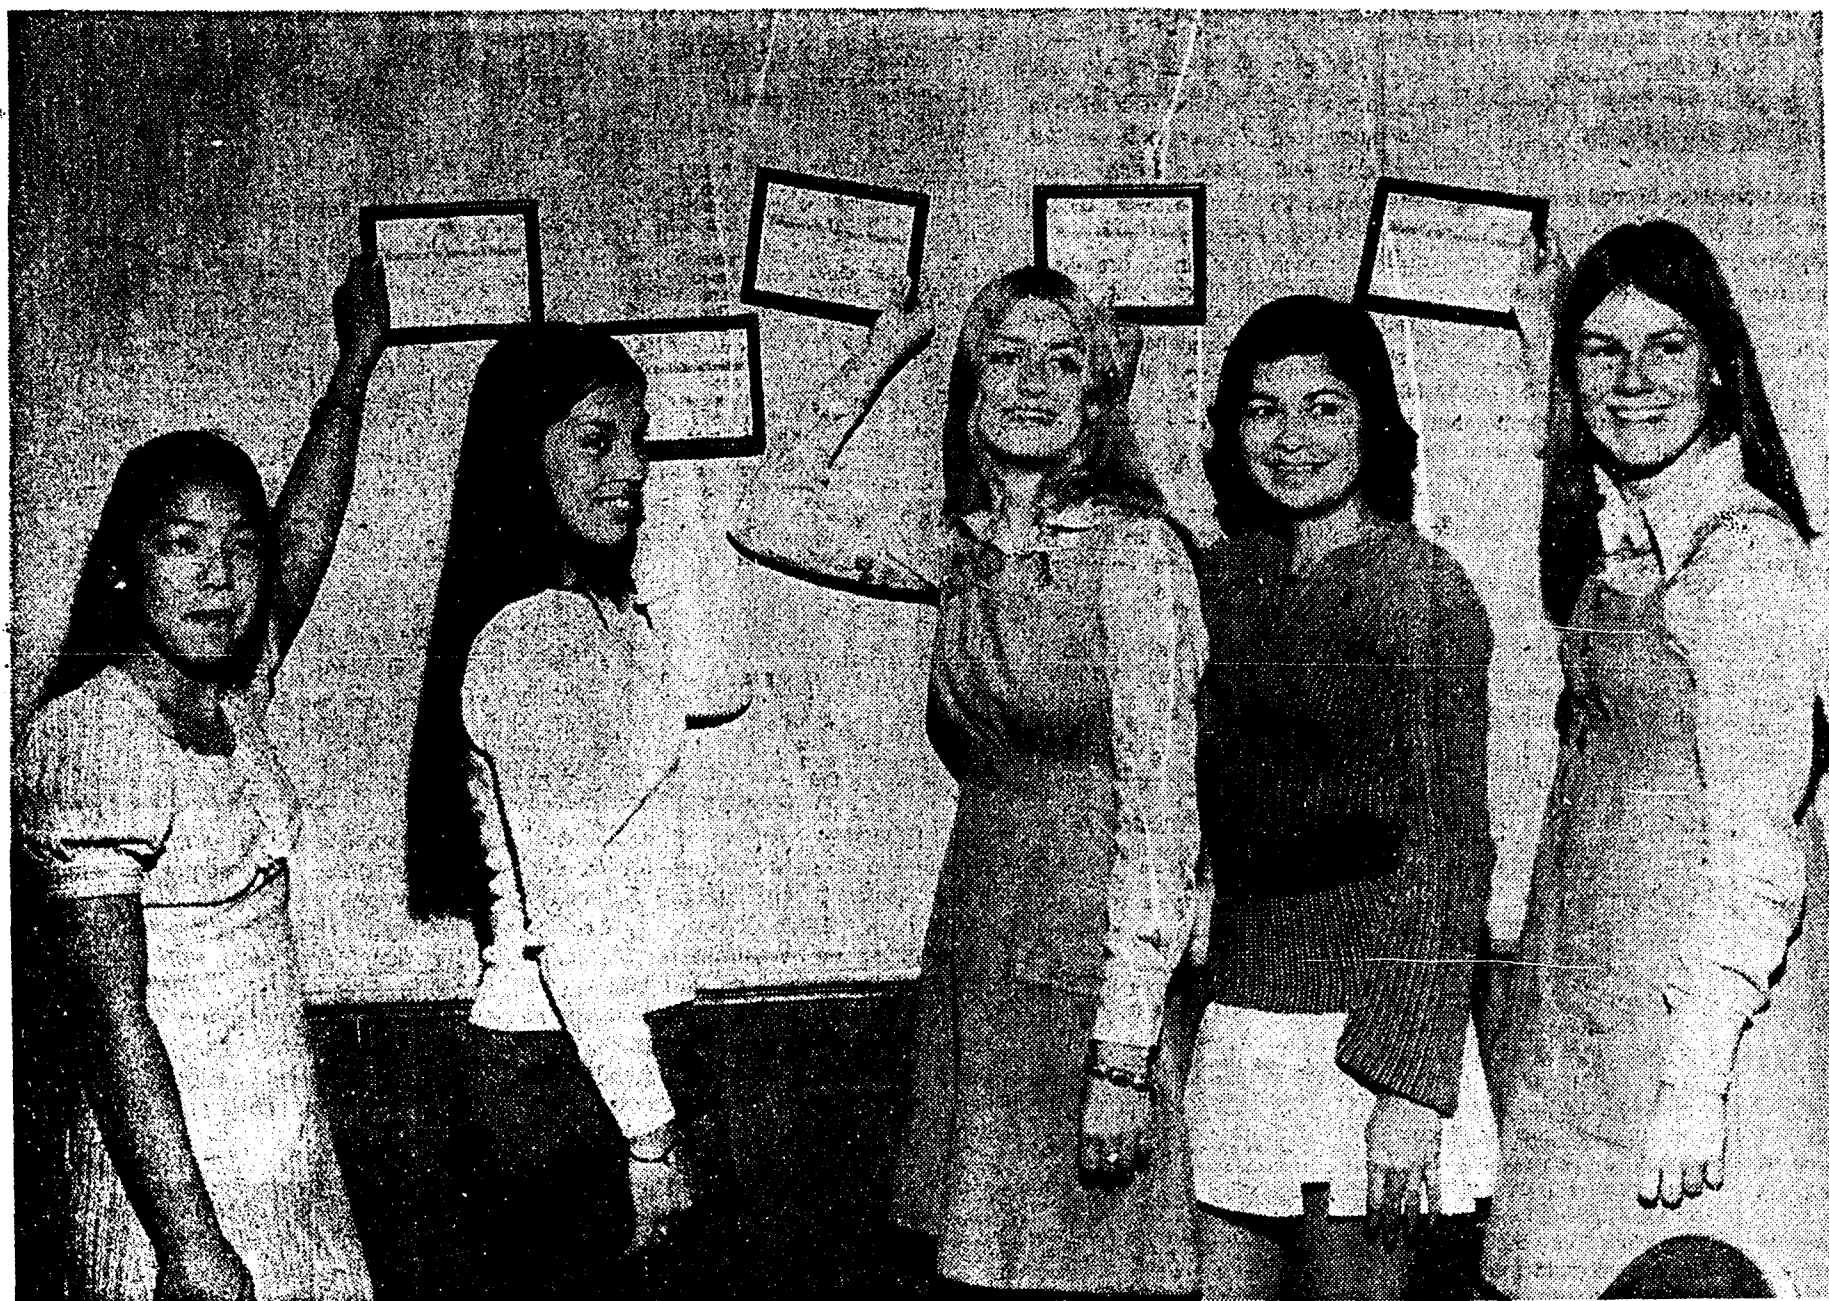

Maybe it's the association with parents, but kids have also been known to come up with a peculiar kind of logic. How about, "Anyone who says I'm not mature is a dumb, old, stupid sweatbag, and I'd like to punch in their face."

"I love you... just don't speak to me in public."

"I have to be free, independent, stand on my own two feet. You got a buck for gas?"

I am not saying there is anything wrong with parents' logic or with children's logic. It is only when we start to understand one another's logic that we are all in trouble.

## SANTA ANA DAR

### Chapter Honors Good Citizens

The Santa Ana Chapter of the Daughters of the American Revolution presented nine Orange County high school girls with its Good Citizens Award at a tea held in the Spurgeon Room of the Santa Ana Library.

The girls were selected by their senior classmates and faculty members for leadership qualities and patriotism. A pin and certificate were presented to each honoree during the tea, which was attended by the girls' mothers, their school counselors or advisors and DAR chapter members. Mrs. Alfo Nordaker is chairman of the Good Citizens Committee and

was assisted by Mmes. Stanley Adkins and Robert J. Graham.

Good Citizens winners are: Marcia Shepard, daughter of Mr. and Mrs. Shirley Shepard of Anaheim, Canyon High, sponsor Wilma Wittman; Janet Rappaport, daughter of Dr. and Mrs. Irwin Rappaport of Santa Ana, El Modena High, sponsor Rita Thompson; Clare Fabrizio, daughter of Mr. and Mrs. Nadir Fabrizio of Santa Ana, Mater Dei High, sponsor Sister Mary Raphael; Riesa Story, daughter of Mr. and Mrs. Charles Story of Santa Ana, Mountain View High, sponsor Angela Crank.

Others were Lorie Chatham, daughter of Mr. and Mrs. Robert Chatham of Orange, Orange High, sponsor Mabel Buehler; Sharon Kotow, daughter of Mr. and Mrs. George Kotow of Santa Ana, Saddleback High, sponsor Mrs. Will Koehn; Hilda Rosa Ruiz, daughter of Mr. and Mrs. Ignacio Ruiz of Santa Ana, Santa Ana High, sponsor Margaret Minton; Wanda Durand, daughter of Mr. and Mrs. Anton Durand of Santa Ana, Valley High, sponsor Mrs. Dee Lund; and Lisa Smith, daughter of Mr. and Mrs. Glenn Smith of Villa Park, Villa Park High, sponsor Mary Ann Owsley.

**OUTSTANDING TEENS** — Helping each other don DAR Good Citizens pins are (from left) Clare Fabrizio, Riesa Story and Janet Rappaport, all of Santa Ana; and

Marcia Shepard of Anaheim. The girls were honored at a tea held by the Santa Ana Chapter.

## ASK JENNIFER

### Give Your Face A Sunny Summer Glow In The Middle Of Winter

By JENNIFER ANDERSON

If you long for a vacation trip to pick up a golden suntan but can't afford it, it's easy to paint on a sunny face. Easier on your skin than baking in the sun, and the effect is the same — a healthy, natural-looking glow. Skiers get it the hard way. You can cheat a little!

results. You can always use another coat for a deeper tan if it's successful. If the tan shade is too yellow, it's easy to add blush or gel to change the shade slightly. It will last only a brief spell and it could give you the lift you need.

Some of these preparations also contain a sun block for those who can't

can't find a makeup base that exactly matches your skintone. It's better to try a clear gel makeup in bronze or peach tones. It lets your own skin shine through and acts like a cellophane covering. It won't hide imperfections but it will give you a natural glow and the color correction you need.

**DEAR JENNIFER:** I need a lift. I think a tan is so much more attractive than the sickly pale look I have all year. Switching to a deeper foundation base only looks fake. What about using some of those "quick tan" preparations? Do they hurt the skin? — Christine G., Chicago, Ill.

**DEAR CHRISTINE:** Those quick tan preparations work well, and without harm to most skins. There are a few tricks you should know. The smoother your skin, free of all flaking and rough spots, the more even your tan will "take." Moisturize your skin for a day or two before you use one of these products. Some of them come in a tan tint and are easier to see if you have covered your face evenly.

Apply the "quick tan" preparation with your fingertips, and then smooth on the next section until your entire face and neck have been given an even coating. Be careful to blend around the sides of the nose. Rub off any cream that might have collected in the eyebrow area.

One application is all you need for the first day. Wait four hours and see the

tolerate sun exposure, but don't want to look like an aspirin on a midwinter vacation.

**DEAR JENNIFER:** I know there are many makeup foundations bases available for black women, but I can't find one that doesn't look artificial on my skintone. Do you have any suggestions for black women who have this problem? — Bernadette A., Detroit, Mich.

**DEAR BERNADETTE:** Often it isn't a good idea to superimpose another shade on the top of black skin if you

**DEAR JENNIFER:** What shades of gel could I use on my pale skin to give it more color? I've tried only one and I look like I have a sunburn instead of a tan. Are you supposed to use them all over your face? — Mary C., Hartford, Conn.

**DEAR MARY:** Sometimes you need different shades to get the effect you seek. Your pinkish gel will be perfect for a highlighter. What you need now is a gel in a golden or honey shade to use all over your face. It is more neutral and will give you a natural-looking touch of suntan. Then use the pink gel to tint the cheeks, a little above the eyebrows and a horizontal band over the bridge of the nose.

Jennifer has compiled her "8-day Beauty, Exercise and Diet Plan." For a copy of this helpful booklet, send 50 cents and a long, stamped, self-addressed envelope to "Jennifer Diet Plan," c/o The Register, P.O. Box 259, Norwood, New Jersey 07068. Make checks payable to NEWSPAPER-BOOKS.

## Oral Contraceptives Linked To Gall Bladder Disease

By SHELLY COHEN  
Associated Press Writer

**BOSTON (AP)** — Researchers claim they have found new evidence to link oral contraceptives with increased dangers of gall bladder disease, including gallstones.

A study shows that women who took normally prescribed doses of oral contraceptives experienced a "significant rise" in the level of cholesterol found in their gall bladder bile, the researchers reported.

Such increased levels can lead to the formation of gallstones, the researchers said in an article published in this week's New England Journal of Medicine.

The scientists said they selected white and American Indian women between the

ages of 19 and 39 in Phoenix, Ariz., for the survey.

One group of women was studied before and after starting use of oral contraceptives. A second group of women who has been on the pill for an average of 37 months was tested while on the pill and during their menstrual periods, the report said.

In both groups, the researchers found the increase in cholesterol saturation of gall bladder bile "highly significant" during the times when the women were on the pill.

Bile is the fluid secreted by the liver. The researchers said there are two possible reasons for the increased cholesterol level — and both may be operating in women on the pill.

The contraceptives might increase the secretion of cholesterol by the liver into the bile, they said, and it could also decrease those bile acids which would normally work to break down the cholesterol.

The study is believed to be the first one published to document the effects of estrogens and progestins, the prime ingredients in oral contraceptives, on human gall bladder bile. Similar studies have been made on laboratory animals.

Scientists have already documented a close association between gall bladder disease and oral contraceptives and found a correlation between the need for gall bladder operations in postmenopausal women and estrogen therapy frequently prescribed to ease change of life symptoms.

The research team agreed that in view of their findings doctors ought to consider the high gall bladder cholesterol level, which usually precedes the formation of gallstones, as a possible side effect of the pill.

The New England Journal of Medicine study was written by Lynn J. Benion, Ronald L. Ginsberg, Marc B. Garnick and Peter H. Bennett.

At a Senate health subcommittee hearing in Washington on Wednesday, testimony was presented to show that an almost completed study of women who take estrogens for relief of menopausal and postmenopausal afflictions shows that the female hormone may increase risks of breast cancer.

Associated Press Writer

**CARSON CITY, Nev. (AP)** — Nevada may no longer be the nation's divorce capital. But the state is easily holding on to its title as marriage mecca of America.

Figures from state and local government agencies show that in 1975 Nevada continued to draw the marriage-minded from other states with its liberal regulations and 24-hour wedding industry.

Nevada's the only state with no blood test requirement. There is no mandatory waiting period or out-of-the-ordinary age requirement.

The tentative figures for 1975 show there were about 100,000 marriages and about 10,000 divorces and annulments. The 10:1 ratio of weddings to marriage split-ups has been the pattern here since about 1970.

The national average is about one divorce for every two marriages. Nevada had such a ratio immediately after World War II when it got a reputation as headquarters for people whose marriages were on the rocks.

The latest figures for Nevada are similar to 1974 data which showed there are just over 10 marriages nationally for

every 1,000 people, while in Nevada there are more than 170 marriages per 1,000 people.

The 1974 figures also showed that nationally there are about four divorces for every 1,000 people while Nevada has just over 17 divorces for every 1,000 residents.

Nevada's marriage and divorce rates drive statisticians up the wall. The state has such a low population — less than 600,000 — that an influx of people from more populous states such as neighboring California causes drastic fluctuations in any per capita figuring.

But Jack Homeyer, chief of the state's Vital Statistics Bureau, says the Nevada figures still prove clearly that the state is "a marriage mecca and not really a divorce mecca anymore."

"The divorce laws in other states like California are so much more lenient now than they were a few years ago. So why should someone go to all the expense of settling up residency in Nevada?"

There's still a six-week residency rule for persons getting divorces, and lawyers in the state usually handle paperwork.

In California, persons getting divorced can file their own papers with courts, "and do the whole thing for less than \$50," says Virginia Gazaway, manager of the Chapel of the Bells, a local wedding chapel.

Cost factors are reversed when it comes to weddings, she says. You can get hitched at one of Nevada's wedding chapels for anywhere from \$20 to \$100 depending on whether you want a simple ceremony or frills such as fresh flowers, photographs, lighted candles and a crowd of friends.

Mrs. Gazaway adds that the marriage business in Nevada should continue to prosper, although "California could duplicate our wedding laws. A lot of us never thought they'd do what they did with their divorce laws."

Major changes easing California's divorce laws in 1969 cut heavily into divorce action in Nevada.

Alyce Holtz of the Park Wedding Chapel in Reno says that people prefer to marry in Nevada because "there's not a lot of red tape, and Nevada's known as a

good honeymoon spot" with its big gambling and entertainment industry.

People can easily arrange for unusual weddings in the state. In one case a justice of the peace cheerfully agreed when a couple wanted to have their cocker spaniel for a witness at their wedding.

In a recent case, a woman, her daughter and granddaughter were wed to fiances in a triple ceremony at a Las Vegas casino. The wedding was held just three days after the women contacted the club about such an affair.

## Mother Of Year Competition Under Way

Orange County organizations planning to choose Mother of the Year candidates this week were reminded the sponsoring American Mothers Committee, Inc. of California is taking entries for the 1976 award.

Nominating blanks are available by writing to Mrs. Doris T. Schmit, search chairman of California American Mothers Committee, 5162 Vineyard Ave., North Hollywood, 91601. Entry deadline is Feb. 18.

Any person may send the name of a candidate through recognized organizations — Chambers of Commerce, clubs, churches and synagogues.

A candidate's youngest child must be over 15, and both mother and children must have records of achievement. A nominee's marriage must have been by legal ceremony, and she cannot be separated or divorced.

The American Mothers Committee of United States sets up a jury of well-known Americans to select the national winner from finalists in the 50 states, the District of Columbia and Puerto Rico.

State finalists will be announced in March, and the National Mother of the Year will be revealed on Mother's Day, Sunday, May 9.

## COAL Plans Dance

Anaheim resident Jack Larson of the Jack and Oscar duo will be one of the headliners at the 8 p.m. Friday fund-raising dance sponsored by Coalition of Anaheim Leaders, a homeowners organization, in the Jolly Roger Inn ballroom, Anaheim.

Other entertainers at COAL's semi-formal affair will include a seven-member band, Sage; actor-comedian Walter Miles; Kathi Blakely; Mary Engel and Anaheim High School dancers, Backstreet Jr. The dance is open to the public, according to chairman, Marcia Quackenbush. Committee members include Mary Scharton, Kathi Blakely, Betsy Bay, Ali Shaff, Alice Grant, Rilda Jamieson, Sally White, Sherry Way, Dione Hesketh, Debi Breeding and Jacqueline Dvorman.

Ticket information can be obtained by calling Mrs. John P. Shaff Jr., Anaheim.

### BACK TO THE RED AND WHITE

**VIENNA (AP)** — The Viennese enjoyed a happy surprise in December when the city's streetcars suddenly blossomed out once more in the traditional red and white, replacing the former blanket of advertisements.

The return to the "old look" was made after a number of residents appealed to the city administration, according to the Press and Information Service of the Austrian capital.

### FOUNDER'S DAY

Orange Coast Reciprocity Bureau of PEO Sisterhood held its annual founder's day luncheon in the Mesa Verde Country Club, Costa Mesa, Huntington Beach, Laguna Beach, Newport Beach, Mission Viejo and San Clemente Chapters participated.

### COLLEGE DINNER

Dinner for Laguna Hills area alumni, prospective students and friends of Cornell College, Iowa, will be held at noon Saturday, Jan. 31, in United Methodist Church of Laguna Hills, 24442 Moulton Parkway. Special guests will be alumni director Paul Scott and Dr. James F. Kauffman, vice president for student affairs. Both will travel from Iowa for the event.

**ART AUCTION** — An art exhibition and auction to benefit United States Air Force Mothers will be held Saturday, Jan. 31, in Peek's Community Center, 7801 Bolsa Ave., Westminster. A reception and the exhibition will begin at 6 p.m., followed by the auction at 7. Refreshments will be served, and a piece of art will be given away as a door prize. Among the renowned artists whose works will be displayed are

Picasso, Miro, Dali and Chagall. Oils, lithographs, watercolors, etchings, serigraphs and other media will be featured. Tickets will be available at the door, and Mrs. E.P. Spindler of Santa Ana may be called for further information. Key planners for the event are, from left, Margaret Spindler, USAF Mothers national president; Louise Porter, chaplain; and Mildred Ford.

## Rules For Reporting Engagement, Wedding

Wedding bells to ring soon? If so please read our rules for publication so we may help you with two important events in your life: your engagement and wedding.

Forms to assist you are available by sending a stamped self-addressed envelope with request for engagement and/or wedding forms to The Register Wedding Department, P.O. Box 11626, Santa Ana, 92711 or by coming to the office at 625 N. Grand Ave., Santa Ana. All information must be printed or typed and include a telephone number where you may be reached during the day.

### ENGAGEMENTS

Engagements announced six weeks or less before the wedding will not be used. Stories will be published (without pictures) when space is available.

### WEDDINGS

Wedding stories and pictures should be in the Wedding Department ONE WEEK preceding the wedding date or earlier.

Pictures should be sharp, black and white glossy of the bride only. A formal pose in wedding gown is not required. Weddings received after the deadline will be cut short and used in the Wedding Belles Column WITHOUT pictures.

An invitation to your group for a...

**NEW UNGARO** — This skirt and top combination was offered by designer Emmanuel Ungaro for the '76 summer season.

## Ungaro Shows Young, Romantic Fashions

By SUZY PATTERSON PARIS (AP) — Ungaro's clothes are the youngest and most romantic so far in the spring-summer showings, though they sometimes just miss looking like haute couture.

They are also the free and easiest in the general Paris softening to the straight look. The light silk skirts whirl in pleats or gathers, the tops are prettily blousy.

Strictest look for day is the little plaid silk dresses with white collars and cuffs and nearly elbow-length sleeves.

Billowy tops have rounded necklines with narrow bows or gathered deep dirndl necklines. Ungaro also shows wide capped sleeves and loose overblouses.

Smocking is another big feature to give the dresses an innocent sexy teen-ager look — at the waist, hugging the torso and topped by ruffles, cinching in floppy pants for evening. The length for day is flattering — just under the knees, and materials are invariably soft silks, sometimes topped by little loose white linen jackets.

White, black, gray, yellow and lots of red, plus some amber are favorite colors at Ungaro. The prints are marvelous combinations of colors in flower sprigs with shiny satin touches woven in, and sometimes polka dots. Matching bandeau or turbans give these gay, summery dresses an all-together look.

When pants do show up, they are narrow, to the ankle.

A loose, beachy series with straight long shirt-dress-tunic tops, striped in red and gray or tan and topped by turbans, looks coolly casual. But most pants are for evening, usually gathered in or smocked at the ankles, with tops from overblouses to strapped and ruffled smock tops.

Yellow and white, plus some amber on silvery-white, are favorite evening colors. One of the prettiest but casual evening outfits is yellow satin with cuffed wide short sleeves, a cuff around the thigh-length overblouse and pants gathered at the ankles.

Nudity popped up in deep décolletés, strapless smocked tops, backless halters and mid-riffs bare from under bosom to hip. A fandango mood got hold of Ungaro when he dreamed up a few numbers with ruffles on the strapless tops, smocked to hip, more ruffles and flounces, plus big puffy pull-on sleeves, separate from the tops.

Simple banded sandals went with almost everything, and the evening prints of all sized polka dots and big or small flowers, or the two combined.

### YVES SAINT-LAURENT

Zizi Jeanmaire, Helen Rochas and the jet-set crowd packed into Yves St. Laurent's salons today to applaud their favorite couturier — and he wowed them with suits almost identical to what they were wearing.

Like Chanel, Saint-Laurent has a certain look which he turns out regularly. Daytime can be called tailoring rather than couture — with the familiar squared-off mannish jackets over straight pants with tucks at the waist — feminized in the Saint Laurent fashion with bowed silk blouses, ascots or scarfs.

Colors for day tend to the blacks, beiges, grays — with pin-stripe blazers or polka-dot blouses — in what might be a great collection for fall-winter

rather than spring. A few white suits are included.

Silk dresses with straight coats, or belted contrasted overblouses, and pleated skirts have an easy Saint Laurent shirt-dress appeal, with small simple, circular prints, in a "lifesaver" or almond pattern.

The big story at Saint Laurent is tunics, in all lengths and full-sleeved, over pants and pleated skirts for late day-evening, tied by silk ropes or sashes.

The favorite evening dress will probably be a chiffon — shown in varied, bright colors and prints, falling in gathers from a straight chemise bust with tiny straps. Deceptively ample, it shows the sinuousness of a good figure. The bright purple version with a wispy of an attached butterfly cape and metal butterfly choker at the neck was a beauty.

### GUY LAROCHE

Guy Laroche showed a lively and beautiful collection based on a tailored-couture look for day, dresses with waist emphatically dropped or eliminated, and the seraglio look for evening that is the rage in Paris for next summer.

He shows a lot of suits with contrasting mannish blazers over skirts eased by slits or buttoned up and blouses with ties, in daytime colors of navy, pearl gray, beige or brown.

The rest of the look is more fluid at Laroche than at Saint Laurent, with ample pleated skirts, wide striped bands at the hip, and the use of bright red and stripes. The straight skirt is often topped with a blousy, hip or thigh-length tunic. Big bandana scarves at the back, split panels over narrow skirts, wide dolman sleeves give a good deal of softness.

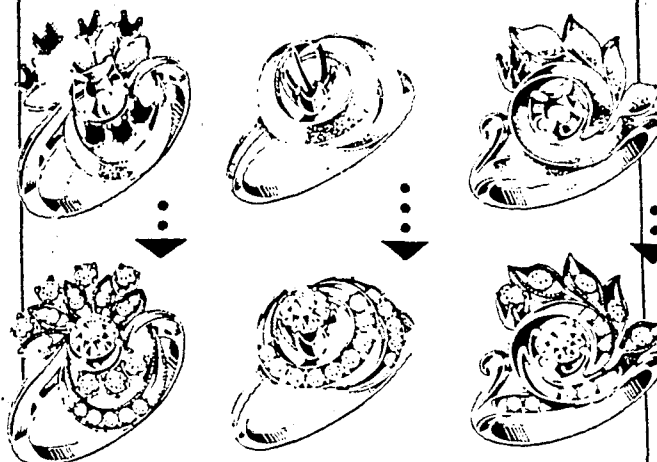

While gray is all beautiful shades and a big favorite at

Laroche, some color bursts out for evening.

### Meetings Set For Parents Of Teenagers

A discussion group for parents of teenagers will be held in the Santa Ana YWCA beginning Wednesday, Feb. 4, at 7:30 p.m. In the eight weekly meetings, parents will have the opportunity to gain awareness into the growth and behavior of adolescents.

Goals for the discussions include achieving a better relationship with your teenager, learning to enjoy your children more fully and developing your teen to his or her greatest potential.

Mrs. Jerry Riddell, a graduate of Chapman College in family, marriage and child counseling, will be the facilitator for the workshops. The discussions are free and open to the public. Additional information may be obtained by phoning the YWCA office.

### HEARTBEATS

Lois Norling, RN, will discuss rape prevention for members of the Heartbeats, at 10 a.m. Monday, Feb. 2, in Martin Luther Hospital Medical Center auditorium, Anaheim. Mrs. Richard Schleier is program chairman.

## Vice Officer Drunk, Weiner Jurors Told

LOS ANGELES (AP) — A vice officer who arrested Deputy Mayor Maurice Weiner in a downtown adult theater was "a bit drunk," a theater employee has testified.

Gabriel Escobar, 22, told Superior Court jurors Wednesday that he smelled alcohol on the breath of an undercover officer who confronted him in the projection booth and demanded to know why the lights had been turned on in the theater.

Defense attorney Douglas Dalton asked Escobar if the officer, Los Angeles police investigator Norman Jackson, was under the influence of alcohol.

"Yes, he was a bit drunk," he said, "under the influence."

Under cross-examination by Dep. City Atty. Stephen Leventhal, the projectionist limited his testimony somewhat.

"What I know was that he had been drinking," he said, adding that as far as he could tell the officer "was walking normally."

Escobar said he could smell beer on the officer's breath "because his face was so close to me." The officer had grabbed him by the neck and threatened to have him deported as an illegal alien after he turned the lights on, he said. Jackson already has testified he had consumed about one-third of a can of beer prior to entering the theater.

Dalton said Tuesday that Weiner was in the theater at the specific request of Mayor Tom Bradley to investigate complaints of police harassment against customers. Bradley is expected to testify later in the week.

## Chess Players End Opener In Phone Contest

NEW YORK (AP) — The National Chess League, the only known telephone chess league in the world, ended the first round of its first championship competition early today with eight American cities tying for the national team title.

Boston, Chicago and San Francisco won their matches on their first night out, beating Cleveland, Houston, and Los Angeles respectively. The New York-Miami match was in dispute.

New York was leading Miami 1½ to ½ on a victory by 16-year-old Ken Regan, when Miami quit to protest a ruling by the director of the tournament in New York.

Each team in the round-robin competition has six players who play one game each in each round.

Edmond Edmondson, executive director of the U.S. Chess Federation, explained that the teams gave the moves to a referee who would speak them to the referee at the other end of the telephone line, and he in turn would give them to the players.

The winners and runners-up will split about \$4,000 in prize money.

Although the telephone bill was not immediately known, it was estimated that the cost between the Manhattan Chess Club and Peacock Park on McFarland Road in Miami could run up to \$105.

## More Temblors In State Seen

SACRAMENTO (AP) — The California Division of Mines and Geology says more earthquakes like the one that shook Oroville last August are "bound to happen" along the western Sierra foothills.

The report, out Wednesday, said the importance of the Oroville earthquake is that it took place in an area where most scientists did not expect such a big one.

It registered 6.1 on the Richter scale.

The report said Californians could get a false sense of security from the relatively small amount of damage at Oroville, where the land shook for only four to five seconds.

"Had the shaking continued for a longer period of time the damage could have been comparable to that sustained in San Fernando" in 1971 when 61 persons died and the damage totaled \$500 million, it said.

The Oroville damage came to about \$15 million.

CAR STRADDLES STREAM — Sheriff's deputies found this car spanning a stream north of Danville, Ill., and said they believe the auto skidded off an icy road to end up in the precarious position. They're not sure how the driver got out.

## Drought-Parched California Driest Since 1903-04 Season

LOS ANGELES (AP) — California is drier than an extra-dry martini during its winter rainy season.

It's the driest the state's been in 72 years and weather forecasters can't say when rain will come to relieve the parching drought.

The picture isn't any brighter elsewhere in California, where farmers and ski resorts are hurting from rain and snowfall levels that are severely below normal.

The lack of rain has forced the extension of the brush fire season in Southern California, hit by fires including one last week that destroyed or damaged 22 homes in San Clemente.

Three Northern California counties, Glenn, Colusa and Yolo, have applied for or are considering asking the state to declare them a drought disaster area. Agricultural experts say the deadline is fast approaching for planting wheat and barley crops and ranchers and dryland farmers say they are already being forced to buy expensive feed.

In California's rich, fertile central valley, Merced County supervisors asked Gov. Edmund G. Brown Jr. to declare the county a disaster area. Madera County supervisors and other valley counties are also considering seeking such relief if the drought continues.

And in the Napa and Sonoma wine country, grape growers who usually start pruning this time of year are finding the warm spring-like weather has prompted some vines to begin budding. If spring frosts are severe, growers say the crop could be reduced by up to 50 percent.

At ski resorts, snow is being measured in inches rather than feet. Betty Layton, manager of the North Tahoe Chamber of Commerce, said, "There are cancellations by many people because of the lack of snow."

Skiers are dodging rocks and tree stumps on their downhill runs. Two skiers were killed last week at Mammoth Mountain when they hit rocks. Although the snow pack is below normal, a Mammoth representative said, "Our snow conditions are good and neither of the accidents was due to the snow conditions."

In Los Angeles, the Department of Water and Power is selling record amounts of water because of residents sprinkling their lawns. Ranchers in Southern California have to buy feed for their cattle, and farmers are irrigating crops earlier than usual.

The national weather bureau said a stationary high pressure area over the Western United States is deflecting Pacific storms into the Plains states and over the Great Lakes to the New England states, which are getting higher than normal snow and rain this winter.

The only hopeful outlook is that in previous drought years normal or above normal rainfall came in February and March, a Weather bureau spokesman said.

Blaze Stopped Near Lakeside

LAKESIDE (AP) — A brush fire spurred by erratic winds scorched 100 acres and pushed to within yards of several structures before being stopped, says the California Division of Forestry.

The blaze, which began in steep, rocky terrain two miles northeast of Lakeside, threatened 50 to 100 structures south of San Vicente Dam.

A force of 120 fire fighters with nine trucks and a bulldozer prevented it from reaching any structures.

Forecasters in California

By The Associated Press

Some lowland flooding has hit parts of the Northeast. Raging flood waters of Connecticut's Ammonoosuc River washed out several major utility poles Wednesday, knocking out power to 450 homes in the area of Bath. In addition, ice jams and the threat of flash flooding are expected to continue on the Hudson river in the general area of Albany, N.Y.

It was unseasonably cold in the Southeast overnight. Frost and freeze warnings were posted before dawn in the north and central interior agricultural sections of Florida.

Snow fell again in most sections of Michigan. Some snow spread into western New York. There also was snow in the southern Appalachians.

A cold front moving into the Northwest triggered rains along the northern Washington coast. There was considerable fog and low cloudiness in the northern half of the Pacific coast. Skies also were cloudy in the Great Lakes region, the Appalachians and the mid-Atlantic coast states. Skies generally were clear over the remainder of the nation.

FORECASTS IN CALIFORNIA

LOS ANGELES AREA—Some high clouds at times otherwise sunny Friday. Slightly cooler Friday. Highs Friday in the 70s. Lows tonight in the 40s.

SOUTHERN CALIFORNIA—Some high clouds at times otherwise fair through Friday. Slightly cooler Friday. Highs Friday in the 70s. Lows tonight in the 40s.

COASTAL VALLEYS—Some high clouds at times otherwise sunny Friday. Slightly cooler Friday. Highs Friday in the 70s. Lows tonight in the 40s.

INTERMEDIATE VALLEYS—Some high clouds at times otherwise sunny Friday. Slightly cooler Friday. Highs Friday in the 70s. Lows tonight in the 40s.

MOUNTAIN AREAS—Some high clouds at times otherwise sunny Friday. Slightly cooler Friday. Highs Friday in the 70s. Lows tonight in the 40s.

INLAND AND DESERT REGION—Some high clouds at times otherwise sunny Friday. Slightly cooler Friday. Highs Friday in the 70s. Lows tonight in the 40s.

OWENS VALLEY—Mostly sunny Friday. Little temperature change. Highs Friday mostly 65 to 75. Lows tonight 25 to 35.

SAN FERNANDO AND SAN GABRIEL VALLEYS—Some high clouds at times otherwise sunny Friday. Slightly cooler Friday. Highs Friday in the 70s. Lows tonight in the 40s.

THE REPORT, out Wednesday, said the importance of the Oroville earthquake is that it took place in an area where most scientists did not expect such a big one.

It registered 6.1 on the Richter scale.

The report said Californians could get a false sense of security from the relatively small amount of damage at Oroville, where the land shook for only four to five seconds.

"Had the shaking continued for a longer period of time the damage could have been comparable to that sustained in San Fernando" in 1971 when 61 persons died and the damage totaled \$500 million, it said.

The Oroville damage came to about \$15 million.
